

**MORNING APPEAL.**

FRIDAY.....SEPTEMBER 20

**SHELVE THEM.**

The APPEAL would like to see newspaper men swear off on using these old Scotch quotations every time they begin an article. The three Scotchisms we dispise the most are these:

"The best laid plans of men and mice gang oft a-glee."

"A chile among ye takinn ctes."

"Wee sma hours."

A newspaper man who cannot write an article without lugging in these old moss covered and nonsense quotations ought to hang himself with a pair of old suspenders.

**THE LOWER LEVELS.**

**The Prospects for Deep Draining on the Comstock.**

It is a well-known fact that on the 2700-foot level of the Belcher a vein of good ore was struck about seven years ago under the superintendency of Hank Smith. Belcher shares at that time rose to \$16 and those of the Crown Point mine to \$14. Shortly afterwards, and before much exploration could be done on the new find, a vast body of water was encountered on the 1900-foot level of the Exchequer mine, which inundated the lower levels of the Belcher, Crown Point and all the other mines at Gold Hill, and led to a cessation of deep mining in that part of the lode. Prior to this, deep mining had been suspended in the north-end mines, and it was subsequently suspended in the middle mines, for those mines had to take much of the water which filled the lower levels of the Gold Hill mines.

Superintendent Sharon says that he believes that the resumption of work in the ore vein on the 2700 level of Belcher will lead to a general prospecting of the lower levels of the Comstock and will cause a great revival in the market, and that during this revival it will be possible to resume the work of sinking some of the deep vertical shafts along the lode. He estimates that the cost of putting in the plunger pumps at the 1400-foot level station of the Crown Point incline will not exceed \$54,000, and as it will be shared in just proportion by all the companies in that section the individual cost will be slight.

His observation has satisfied him that there will be no difficulty in lowering the water. He says that it frequently lowers fifty feet of itself, and that it has weakened.

He cites the fact that with one Cornish pump the Alta people, whose mine is southeast of the main group, lowered the water at Gold Hill 200 feet, and easily held it there until they became tired of doing the dridage work of other mines for nothing.

This is a general outline of the proposed work. It has already been agreed upon by the mine monagers, and will in a few days be ratified at a meeting of the Boards of Directors of the companies.

**Waiving.**

We beg to call the attention of Friends and Customers to one C. Boskey, styling himself Prof. C. Boskey, and hailing from the San Francisco Optical Institute, 319 Kearny St., S. F.

As No. 319 Kearny St., in conjunction with 317 is the address of our house, we desire you to know that this party does not in any way represent us or do we know him.

Furthermore there is no institution styled the San Francisco Optical Institute. The fact alone that he is using one of the numbers of our house, without authority or consent, speaks for itself.

Respectfully,  
CALIFORNIA OPTICAL CO.  
317-319 Kearny St.  
S. F.  
Sept 16, 1889.

No person living will again date a document without using a "9." It now stands on the extreme right—1889. Next year it will take second place—1890, where it will remain ten years. It will then move into third place—1900, where it will rest for a century.

**Cough! and Cough!! and Cough!!!**

What in the world is the reason you will cough and keep coughing and still keep trying inferior medicines when BEGG'S' CHERRY COUGH SYRUP will positively relieve your cough at once? This is no advertising scheme, but an actual fact, and we guarantee it. W. H. Chedic, Eruggist.

Mat. McCabe, of New Brunswick, Ill., offers to pay five dollars to any person troubled with bloody flux, who will take Chamberlain's Colic Cholera and Diarrhoea Remedy according to directions and does not get well in the shortest possible time. One half of a 25 cent bottle of this remedy cured him of bloody flux, after he tried other medicines and the prescriptions of physicians without benefit. Mr. McCabe is perfectly safe in making this offer, as more than a thousand bottles of this remedy are sold each day and it has never been known to fail in any case of colic, cholera morbus, dysentery, diarrhoea or bloody flux, when the plain printed directions were followed. For sale by G. C. Thaxter.

Abe Cohn has a cutter and fitter regularly employed at his Emporium,
