

The United States Official Investigation of baking powder, made under authority of Congress by the Chemical Division of the Department of Agriculture, Washington, D. C., recently completed, shows the Royal Baking Powder to be a cream of taster powder of the highest quality, pure and wholesome, and superior to all others in strength, leavening power, and general usefulness.

Sleepless nights made miserable by that terrible cough. Shiloh's Cure is the remedy for you.

Catarrh Cured, health and sweet breath secured, by Shiloh's Catarrh Remedy. Price 50 cents.

FOUND—A gold ring. The owner can recover the same by calling at this office and proving property.

Sleepless nights, made miserable by that terrible cough Shiloh's Cure is the remedy for you.

T. Zacheriah says he will cut hair to suit the most fastidious for the sum of 25 cents. Shampooing for 25 cents and shaving 25 cents, just to suit the times, at the old stand opposite the Capital.

Mrs. Maude Stine has a new line of hats, bonnets, flowers laces and ribbons. Yachting hats in all the new styles and at low prices. m71w

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays the pain, cures wind colic and is the best remedy for diarrhoea. Twenty five cents a bottle.

The House Committee on Judiciary in reporting the Anti-Trust bill says that no system of laws can be devised by Congress which could effectually protect the people against the evils of trusts and monopolies. That whatever Congress may enact on this subject will be of little value unless supplemented by legislation in the States, but concludes with the statement that it can do no better than it has done under the circumstances.

A Georgia man found his wife and a Sheriff in a compromising situation, and shot them both.

Stewart opened the discussion on the silver bill in the Senate yesterday.

ALL SORTS.

No "proxy" Convention this time.

Painters' canvas blouses only 25cents each a Chas. H. Kelly's. Bona beer, effervescent only 15 cents a bottle at Chas. H. Kelly's.

Ormsby will have 11 votes in the Republican State Convention.

The Republican State Convention will have 146 delegates—two more than last year.

Chas. Green has put up his refrigerator and fresh meats can be secured all summer.

W. T. Adams, representing Bonestell & Co. of San Francisco, was in the city yesterday.

The finest temperance drink is orange champagne and it can be found at Geo. H. Meyers in quantities to suit.

The Grand March at Miss Randall's masquerade will commence promptly at 8:15. All dancers will be allowed on the floor after 11 o'clock.

The Custer Post services on Memorial Day will be held at the M. E. Church. Canes, a recent adoption of the G. A. R., suggesting the old age of the Veterans, can be secured at Thaxter's store.

The resolutions passed by the Republican State Central Committee voices the sentiments of the party on the subject of silver, and will enable the President of the United States to know just what we think of Windom and Harrison in Nevada.

A joint resolution has been introduced in the Senate of the United States against lotteries, and contemplates an amendment to the Constitution. It takes years to amend the Constitution of the United States, and it must be ratified by a majority of the States. The resolution looks like a gentle hint to the Louisiana company to "come up."

THE EMPIRE POSTOFFICE.—Complaints come to this office regularly from the Empire postoffice.

The APPEAL is in receipt of a communication from Empire in relation to the laxity of the post-office management which we would very much dislike to publish.

Without any further comment, the APPEAL would respectfully suggest to Postmaster Barrett that he clean out from behind the post-office counter all persons not regularly connected with the mail service in Empire.

If he fails to do so, the complaints which daily reach this office, will be forwarded to Washington and possibly cause a vacancy in Empire.

MAKING WOOD BURNERS.—All of the engines of the Sacramento division, except the passenger engines are being converted from coal to wood burners. The reason of this is said to be that the railroad company has several thousand cords of wood on hand up on the Oregon line that is commencing to decay and must be used up as soon as possible. There is also a report that the company is having trouble about getting coal. Probably the company has found wood to be cheaper fuel to use over the Sacramento division.

THE CASE OF "ROUGH" ELLIOTT.—The jury in the murder trial of "Rough" Elliott at Bakersfield, California, failed to agree, being out 42 hours. They stood seven for acquittal and five for conviction. Elliot committed the homicide in Inyo county, California, and was tried, convicted and sentenced to death at Independence. His case was appealed; he was given a new trial and the venue was changed to Kern county with the result stated. He formerly lived in the Honey Lake Valley and also at Reno.

AN ADDITIONAL FEATURE.—In order to materially add to the pleasure of all those who may attend the lunch and festival given by the ladies of the M. E. Church, on Memorial Day, the committee having the programme in charge has decided to add an additional feature to the occasion, and therefore music and song will be one of the pleasures of the evening.

THE WONDERS OF NEVADA.

Some Things for People Seeking Homes in Nevada to Consider.

Nevada is without doubt the richest country in natural resources under the sun.

Beside being the natural matrix of gold and silver, in is the home of the topaz, emerald and onyx, and marble quarries are of common occurrence. In some localities marbles for the use of boys are taken out by the bushel, and nearly every county school house has a marble mine attached by special Act of the biennial Legislature. A vein of glass alleys was discovered recently in the Obsidian range.

The naturalization laws are framed with an eye to the comfort and accommodation of those seeking homes and office in the Battle Born State.

People after declaring their intentions to vote the straight ticket are eligible to office of U. S. Senator and State offices. Only two years probation are required for converts from the Democratic party to run for office on the regular Republican ticket.

These are advantages held out to immigrants by no other State in the Union.

By reason of the "double refraction" phenomenon known only in this State, the days in Summer are two hours longer than elsewhere. After the sun goes down the rays are reflected back from the upper stratum of clouds, and the twilight greatly prolonged.

After 7 o'clock the malarial fly, an insect known only to this favored altitude, fills the air with illumination which enables anyone to read the Constitution of the State (and the special election amendments of 1888) during any hour of the night in the open air. These insects were imported to this country by Major Frank McLaughlin of the London Lighting Bug Electric Company (limited) in 1882, and not a gallon of Standard Oil has been sold here since.

The cream cheese tree, which was first successfully cultivated by Theodore Winters, grows in great abundance in Washoe, Ormsby and Storey counties, and in the Fall people who can pick cheeses are in great demand at Miners' Union wages.

Along the line of the C. & C. borax grounds and garnet beds are in great profusion, although spring mattress beds are not so plenty.

Emeralda and White Pine counties are the paradise of the voter, and those wishing to exercise the privileges of the election franchise can vote in four precincts without the interference of the federal authorities.

People buying 40 acres of land at \$1 25 an acre have 20 years to pay up, and each holder is eligible to run in the Crawford primaries as a member of the Legislature.

People settling in the sagebrush regions are allowed two watchdogs at the expense of the State, to guard the hen-roost. Registered pups are distributed free every year.

Every male voter receives copies of the Congressional Record and all the Patent Office Reports free of charge, direct from Washington every other year. Persons ordering daily newspapers are not called upon to pay over once in two years.

In many parts of the State the corn dodger tree flourishes in great profusion and there are still some valuable tracks of this remarkable timber which the railroad companies have overlooked. It can be secured by the regular method of entry and a small tip to the clerk of the Land Office.

The spouting beer springs which became very active since the earthquake of '87 are still flowing well, and the Legislature grants a bounty on every artesian well that flows over 2,000 gallons of beer a day.

Further information on the chemicals constituents of the beer springs will be furnished by Jake Klein at the Bullion Bank.

Money can be borrowed here on easy terms, almost anywhere

along the Bodie and Genoa road with a mask and a shotgun at 2 per cent a month.

Preachers only charge half price for marrying couples, and kiss the bride free of charge.

These are only a few of the attractions for settlers in the Sagebrush State.

Electing Free Coinage Delegates.

In electing free coinage delegates to attend the convention held in this city on the 29th of May it is suggested in the call issued by Mr. Thomas Fitch that the citizens of each county assemble in their Court House on Saturday evening to select their delegates. In this city Mrs. Scott Siddons the most popular public reader in America will appear at the Opera House at the same hour named in the call and the two shows would conflict. Of course every true silver man would be at the post of duty at the Court House, but a good many would not like to miss the pleasure of seeing Mrs. Siddons who is on her farewell tour. Mr. Piper has been at great expense bringing her here and it seems a pity to spoil his house. Could not the delegates be elected on Friday evening or could the meeting be held at 7 o'clock instead of eight? There is but little business to transact and an hour ought to dispose of the matter in time to allow citizens to attend the performance.

Arnold Shot the Right Man.

SAN FRANCISCO, May 20.—The deposition of T. B. Upton, a printer, was taken to-day by order of Judge Murphy, before whom the Arnold case is progressing. Upton was too ill to attend court. He deposed that he had done printing for Garness, whom he knew well, and had turned out three lots of circulars for him. He identified the circulars in which the Arnold family were attacked, and said that Garness gave him the copy. Sixty copies of each circular, he said, were all that Garness would have, and after each set had been printed the copy and proof were burned. Garness wanted the work done on the quiet.

The "Examiner's" New Building Site.

SAN FRANCISCO, May 20.—W. R. Hearst, proprietor of the Examiner to-day completed the purchase of the property known as the Nucleus building, situated on the southeast corner of Third and Market streets, and constituting ten thousand square feet of area. The exact purchase price is not made public, but it exceeded half a million dollars. It is contemplated to remove the structure now occupying the site as soon as the existing leases expire and erect a handsome building which will be occupied by the Examiner.

It is related that, a few years ago the Prince of Wales declined to attend a luncheon following the opening of a town hall at Halifax, because the local "big-wigs" had determined that the newspaper men should dine apart at another hotel; and once Disraeli, when touring in Buckinghamshire, shut himself up in his room on hearing of a similar resolve, and sent word to his hosts that he would remain there until the journalists were accorded a place at his table.

QUESTION.—A man is in need of money. His wife is a prima donna. Can he raise money on her notes? If you would never be in need of money, trade with Oleovich Bros. The store contains dry goods, groceries, boots and shoes, carpets, etc., in all the variety possible. Their prices will please you. The quality of the goods they handle is the best the market affords. Pigs and facts are stubborn things. These are facts! We are like the tree that covers with flowers the hand that shakes it.

There will be a picnic at Cook's Ranch, on Sun. ay, May 25th. Good music and lots of fun for those who attend. The music will be furnished by the Carson Brass Band and orchestra of twelve pieces.
