WHAT ON EARTH—Is the reason people will not, cannot, or do not see any difference in cheap nos trums put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S BLOOD PURIFIER & BLOOD MAKER, and every bottle that does not do its work, will cost you nothing.—W. H. Chedie, Druggist.

COUGH! AND COUGH! AND COUGH! —What in the world is the reason you will cough and keep coughing and still keep trying inferior medicines when BEGG'S CHERRY COUGH SYRUP will positively relieve your cough at once? This is no advertising scheme, but an actual fact, and we guarantee it. W. H. Chedie, Druggist.

K. C. Eldridge the agent for the Singer Sewing Machine has also secured the agency for several leading pianos including the following makes: Weber, Antisell, Emerson and also several others, which he will sell on reasonable installments. HOW CAN PARENTS—Allow their children to cough and calmly say: "Oh! its only a little cold," and keep giving them cheap medicines, until they are down with lung fever or consumption, when they can be so easily relieved by using BEGG'S CHERRY COUGH SYRUP? It has no superior and few equals. W. H. Chedie, Druggist

The head of the Census Bureau has gone daft. To appear well is not necessarily to practice extravagance.—The ladies of Carson can all acknowledge that the prevailing low prices, of Olcovich Bro's., Summer fabrics, is one reason why they find it to their advantage to buy their dry goods of that well-known firm. COUNTING THE PEOPLE.

Some of the Inquires to be Made by the Census Enumerators.

The Eleventh Census of the United States will be taken during the month of June. The census enumerators began their work yesterday and will visit every house and ask questions concerning every person and every family in the United States. The questions that will be asked call for the name of every person residing in the United States on the first day of June, with their sex and age whether white, black, mulatto, quadroon, octoroon, or Chinese, Japanese, or Indian. Inquiry will be made also of every person as to whether they are single, married, widowed, or divorced, and, if married, whether married during the census year. The place of birth of each person, and the place of birth of the father and mother of each person, will also be called for, as well as a statement as to the profession, trade or occupation followed and the number of months unemployed during the census year. For all persons ten years of age or over a return must be made by the enumerator as to the number able to read and write, and also the number who can speak English. For those who cannot speak English the particular language or dialect spoken by them will be ascertained. For children of school age, also, the number of months they attend school will be recorded by the census enumerators. In the case of mothers an inquiry will be made as to the number of children they have had, and the number of these children living at the present time. This inquiry is to be made of all women who are or have been married, including a widow, foreign-born males of adult age, that is, 21 years of age or over, will be asked as to the number of years they have been in the United States, and whether they are naturalized or have taken out naturalization papers. Of the head of each family visited the question will be asked as to the number of persons in the family, and whether his home is owned or hired; also, if owned, whether his home is free from mortgage incumbrance. If the head of the family is a farmer, similar inquiries will be made concerning the ownership of the farm. In addition to these inquiries, all of which are made on the population schedule, the law under which the census is taken makes provision for special inquiries concerning such of the population as may be mentally or physically defective in any respect, that is, insane, feeble-minded, deaf, blind, or crippled, or who may be temporarily disabled by sickness, disease, or accident at the time of the enumerator's visit. Certain inquiries will also be made concerning inmates of prisons and reformatories and of charitable and benevolent institutions. Besides this, a statement will be called for concerning all persons who have died during the census year, giving their name, age, sex, occupation, and cause of death.

This official count of the people comes but once in ten years, and every family and every person should consider it to be their duty to answer the questions of the census enumerators willingly and promptly, so that definite information may be gained concerning the 65,000,000 people living within the bounds of this great country.

EPISCOPAL ENTERTAINMENT.—On Thursday evening of this week the ladies of the Episcopal Church will give a unique entertainment at Odd Fellows' Hall. The young ladies of the church will indulge in a short dramatic entertainment and there will be singing, music, dancing and literary exercises. The singing and dancing will only cost 25 cents.

All the pretty girls in the city will be there and all the talent.

Joseph Haworth.

Joseph Haworth and his company of players will soon be seen in this city. Mr. Haworth of whom many things have been said and written, will be seen here as the hero in Steele Mackaye's drama, Paul Kavar. The play is said to be the masterpiece of Steele Mackaye and many of the leading critics have written that it is the greatest play yet written by an American dramatist. It deals with the dark days of the French Revolution, beginning in October 1794, it gives many of the causes which led to the great uprising. From a literary standpoint is a great play. It is pregnant with scenes and incidents which follow each other closely and naturally. The great dream scene in the first act is a marvel in its way of stage realism. The mob scene in the last act is also very effective and admirably conceived. The mob dash into the palace of a royalist general and sack the house to pieces at the command of their leader, Carrac. In the title role Mr. Haworth is said to be superb. In speaking of his performance Col. Watterson, the editor of the Louisville Courier Journal, said; "There but one Haworth and but one Paul Kavar and his name is Haworth." Mr. Haworth has in his support a fine company. Several of them were with him during the famous run of this play at the Standard theatre New York City. They are headed by Miss Lizzie Mark Lynch, Joseph Ranson, Robert Drouet, Geo. Conway, J. H. Wallin, M. J. Fenton and others. Seats for the engagements should be secured well in advance.

Destroying Fish.

EDITOR APPEAL:—For some days past, dead fish in large quantities have been floating from the West to the East and Southeast shores of Washoe Lake. I met Snippy and a fisherman from Sacramento who have been located at the end of the Lake with a boy from Virginia, all fishing for the market.

They informed me that great quantities of fish had been floating from the West for the last week and Snippy said they had been killed by the pelicans.

I do not know anything about it, but it looks more like powder. If it is the pelican, they ought to be driven off. Snippy said it was not the result of big winds—that the fish had concentrated in shallow water where the mountain streams entered the lake—that hundreds of pelicans that were there were the cause of the dead fish.

These dead fish are principally white fish, (dace) weighing from ten ounces to one pound and sell for 20 cents per pound.

Three or four thousand people seek recreation at Washoe Lake and the wholesale destruction of fish should be stopped.

CORRESPONDENT.

A game of base-ball Sunday resulted in a score of 22 to 21. The two batteries, Don Juan and Beals, and Gramley and Martin did very good playing. The rest of the boys did well.
