

NOT THE PRESIDENT'S FAULT.

The citizens of Nevada have felt somewhat disgusted at the manner in which the President has ignored the State.

As a matter of fact the President was very anxious to visit Nevada, particularly the Comstock mines, but the committee having him in charge in California made other arrangements.

The local committee down there is composed of men who are using the Chief Executive of the nation as an advertising poster to keep themselves before the public.

Many of them are merely a lot of cheeky snobs who are always looming up in public and making asses of themselves, while every body is asking how they got there.

The committee industriously ignored Nevada. There was an attempt made to fix a time when the President could receive a delegation of Nevada citizens, but it was impossible to get the Committee to name a time or place.

They purposely avoided the matter, so as to give themselves more time to pose and caper about the Presidential monkey show they were running.

Several prominent citizens of this State did manage to get access to his room, and he expressed his regret that he was not able to come here instead of going to Oregon.

On Saturday evening the Union League Club gave him a reception and the club condescended to issue invitations to about a dozen Nevada people.

If Nevada has any fault to find in the matter of Harrison not coming here, they owe the blame to the incompetent committee and not to the President.

SNUBS AND SNOBS.

The visit of the President has, according to report, been a prolific source of petty jealousies between the various kinds and degree of snobs who fancy they are big guns but who in reality are only squirts. What difference should it make with a man of sense whether he is the 75th or 76th man who is permitted to shake hands with the President or whether he is to be permitted to breath within a rod or two rods from his venerated presence.

These receptions to great men bring out in strong colors a certain class of citizens who are the biggest lot of teadies and sycophants in the whole community. They "ring in" on every possible occasion and strut and splurge as though it were a divine act to be accorded the privilege of a moment of intimacy with a noted man.

The libel suit in San Jose brought by W. W. Owens against the San Francisco Wave has after long and bitter contest resulted disastrously for Owens. After being struck by the Wave he was in very much the condition of Mrs. Pardington after she attempted to sweep back the sea.

"Old Hutch," the demented and wandering speculator is being followed around by a detective, to see that he doesn't get into trouble. It might be a good idea for somebody to follow the detective.
