Railroad Rumors.

The Salt Lake Tribune of the 3d inst. contains the following: The belief that some important move in a railway way is on the tapis is strengthened by the recent visits of the leading officials of all the principle roads of the country during the was six months to this city and section. During that time President Depew of the Vanderbilt system, President Cable of the Rock Island, President Manvel of the Santa Fe, President Palmer of the Rio Grande Western, President Perkin of the Chicago, Burlington & Quincy and President Dillon, Jay Gould and S. H. H. Clark of the Union Pacific and Missouri Pacific have all visited this section, accompanied by directors and high officials of their several roads, and knowing ones believe that each and every road is seeking a feasible route to the Pacific Coast. It is known that several have the Pacific Coast fever already, and as the disease is infectious, it is exceedingly probable that the year 1892 will witness some of the liveliest railroad building ever recorded in the western country.

A HOODLUM OUTRAGE.

A Chinese Washhouse Demolished in Genoa.

On last Sunday night a gang of roughs demolished a Chinese washhouse in Genoa and beat the inmates.

It is claimed by leading residents of the town that the attack on the washhouse was wholly unprovoked and that one of the Chinaman, a cripple, was so badly beaten over the head with a piece of the stove—which had been previously smashed—that his skull is cracked and he is likely to die.

The parties who committed the outrage belong to the non-producing, lawless element of the town and the better classes unite in condemning the entire affair.

It is claimed that the trouble grew out of an attempt some months ago to indict a Chinaman, connected with the washhouse, for selling liquor to an Indian. It was claimed at the time that parties put up a job on the Chinaman to make business for the Justice Court and to secure a fee of \$25. The Grand Jury took this view of the affair and refused to indict.

This caused bad blood and the jury were charged with being sympathizers with the Mongolians.

Subsequently to this a poor, drunken fellow was given a half dollar and told to purchase some liquor for an Indian. He was convicted for this offense and sent to the penitentiary for one year.

On Sunday night the matter was being discussed in a saloon and it was held that it was an outrage to ignore the bill against the Chinaman and convict the white man.

While the discussion was going on, it was proposed to clean out the Chinese washhouse, and a crowd went over and demolished the building, beating the inmates and cracking the skull of a Chinaman, said to be a cripple. For some time past the hoodlums of the town have been in the habit of throwing rocks through the windows and the inmates of the house have been obliged to board the windows and barricade their doors.

Experiment Station.

The following is an announcement of the Nevada Agricultural Experiment Station. The Chemical Department of the Nevada Agricultural Experiment Station is now fully equipped and prepared to analyze fertilizers, manures, cattle foods, soils, waters, milk, butter, cheese, sugar beets and all other agricultural materials and products. All chemical analyses proper to an experiment station that can be used for the benefit of the public, will be made free of charge. All results must be at the disposal of the station to use or publish if deemed advisable for the public good.

The results of each analysis will be promptly communicated to the person sending the sample. Those that are of general interest will be published in bulletins, copies of which will be sent gratis upon application, to any resident in Nevada desiring them. It is the wish of the authorities to make the Station as widely useful as its resources will permit. Every citizen of Nevada who is interested in agriculture, whether farmer, manufacturer or dealer, has a right to apply to the Station for any assistance that comes within its province. All such applications will receive prompt attention. Address in all such cases, Agricultural Experiment Station, Reno, Nevada.

Good Records.

For many years Senator Stanford has bred horses on a certain plan. He held that the interbreeding of trotting and running stock was necessary to give the American trotter the qualities most desired.

The trotting blood gave the movement and the running stock the staying qualities necessary to make a perfect trotter. A good many horsemen laughed at the idea, but a recent trial of some colts of the Senator's proved the correctness of the theory. At Stockton on the 6th Senator Stanford's two-year-old, Arion, trotted a full mile in 2:15 1/2, beating Senator's record of 2:18. Stanford's yearling, Bell Bird, went a mile in 2:27 1/2, breaking Freedom's record of 2:29 1/2. The first quarter was made in 37 seconds, the half in 1:13 1/2 and three quarters in 1:50 1/2, Stanford's station. Electricity lowered his record from 2:32 to 2:17 1/2. The trotting was on a kite shaped track.

The State Board of Equalization made horizontal raises in the following counties last evening.

Eureka, Lander and Esmeralda 12 1/2 per cent.; White Pine, Lyon, Lincoln, Nye and Storey, 15 per cent.; Washoe, Elko, Humboldt and Ormsby, 20 per cent.; Churchill and Douglas 25 per cent. Friday, Oct. 16, was set by the Board to hear any and all objections to the raise.

The Board are now examining county rolls for the purpose of making individual raises.

BORN. In Glenbrook, September 28, 1891, to the wife of Oley Houghner, a daughter.

The accusation made against ex-Judge S. C. Denson will not be believed by his old friends and neighbors in Sacramento, unless more substantial evidence is adduced. Here is illustrated the folly of ignoring the newspapers. When Judge Denson was accused of these terrible crimes, he must have known that the men who had taken the trouble to lie in ambush for him and to supply themselves with a reporter would give the matter to the public. If he had at once went to the different newspaper offices and told his side of the story, the publishers would have been only too glad to have printed it. The effect of that alleged confession could have been broken by a simultaneous denial. Even the paper that worked up the original story could not have denied space for a statement contradicting the damaging allegations. When a man is accused of wrong he feels justified in denying the charge to all the friends he meets. The most effectual way of reaching his friends is by talking through the columns of the newspapers.—Sacramento News.

There is no Secret About your buying shoes to advantage. You may not know any more about the quality of leather than you do about a lost comet but that is no reason why you should get "stuck." Either you get your money's worth or you don't and if you don't it is your own fault. We are in the shoe business because we happen to know something about shoes and leather. It is "bread and butter" to us, therefore we make it a STUDY. Of the knowledge you get as much benefit as though you possessed it yourself for we place it entirely in your disposal and if you think that other houses can quote lower prices than we do, come and look at the goods and prices. We will put our time against yours and we feel confident that the result will be a mutual benefit. J. L. Burlingame, OPPOSITE POSTOFFICE, CARSON, NEV
