The Silver State rises from the ashes of the late fire, and donning a new dress, crows vociferously over the future of Wipemucca. A paper with such a liberal supply of sand ought to build up almost any town.

W. W. Kelly unfavorably known in the United States, as "Truthful Kelly" and the "Hostler," has been sentenced by a London Judge to ten days in jail under a judgment secured against him by the Rocky Mountain News, of Denver Col. If all the newspapers in America should pool their issues against Kelly he would remain in jail the rest of his natural life.

Too Many Holidays. People who employ Chinese help have begun to notice a large increase of Chinese holidays. A citizen whose Chinaman quit work last Saturday and didn't show up Monday, found his man half full of China gin.

"What you do now, Sing?" "Heap big holiday. Hoop la!" "What holiday?" "Yom Kip."

The same Chinaman took a holiday on the anniversary of Queen Victoria's birthday.

THE CREAMERY.

It is Already a Big Success. A few months ago the farmers of Carson Valley were talking about plowing up their alfalfa fields, as hay was such a drag on the market that it could not be sold. Since the advent of the Creamery in the Valley the farmers are not in such a hurry to plow up their fields. They find they can make more money feeding the hay to cows and selling the milk to the Creamery.

It has been running but a few weeks, and is already such a success that the managers are deluged with letters from San Francisco calling for more butter. The butter is absolutely gilded, and the residents of Nob Hill will have nothing else on their tables.

It is sold as fast as it is exposed on the counters, and the merchants who handle it say they can't get enough. It sells for 25 cts a pound here, but the "Fisco" consumers have run the price up to 38 cts a pound, and it will be 40 and 50 before long.

This is certainly very encouraging to the Creamery managers, and also to the farmers. It is estimated that in the Spring the Creamery can ship a ton a day to San Francisco, and it will be shipped up as fast as shipped.

Now it would seem that if a creamery does well in Carson Valley that it would do even better in Mason Valley, where the winters are milder and the cost of keeping stock merely nominal.

Hay is now a drag at \$2 in Mason Valley and if it were fed to cows and the butter shipped to San Francisco it would make the hay worth \$5 a ton or more and the farmers would make a good thing of it.

In a little while Mason Valley could have a creamery that would handle the milk of 1,000 cows or more.

Nevada butter needs no puffing in San Francisco. The butter made in the Sierra range, where cool nights succeed the warm days is so far superior to the California valley product is not to be named with it, and the creamery butter made by scientific methods is superior to any made in this State.

The sooner a creamery is started in Mason Valley the better.

Fighting For Millions.

The suit of Lizzie P. Ralston vs. the trustees of the estate of William Sharon, is up before Judge Hawley in the United States Circuit Court of San Francisco, on the demurrer to a motion to set aside a release and consent to a decree dismissing an action of Mrs. Ralston's against Sharon.

The release is alleged to have been obtained by fraudulent representations on the part of Sharon. The act on referred to asks for an accounting of the estate of Sharon, which it is claimed was in the hands of Sharon, and which has passed into the hands of the defendants.

The amount involved is about \$8,000,000. The complaint sets forth that at the time the Bank of California was forced to close its doors, Ralston made a deed of trust to Sharon of all his property, and Sharon failed to return the deed or make proper restitution.

A Narrow Escape.

Yesterday afternoon about two o'clock Charles Kennedy, the twelve year son of J. A. Kennedy was out gunning near Gardner's ranch, when in climbing a fence the trigger of the gun caught in the rail and the weapon was discharged.

The contents of the gun passed along his right arm laying bare the bone from elbow to wrist. He fell to the ground in a faint and would have bled to death had not a man who was passing come to the rescue and helped him home. He was attended by Dr. Guion and last evening was resting quite easily. No bones were broken and he may thank his stars it was no worse.

Dr. Fox treats private, chronic and nervous diseases of men, nervous debility, impotence, stricture and all other weakness of manhood.

Funeral of Maud Doane

There was a large gathering at the Episcopal Church yesterday to witness the funeral of Maud Doane. Many could not obtain standing room.

There was a large display of floral offerings, and there was chanting by a choir of young ladies. Mrs. Bendersang "Tired" in her usual sympathetic manner, and Rev. Holmes preached a feeling sermon from the text, "And her sun went down while it was yet day."

Before dying, Miss Doane selected her pall bearers, who were as follows: Sam Platt, Frank Oliver, Frank Steinmetz, James Benton, Charles Peters, Fred Lutz, Will Wilson and George Crose.

The last hymn sung was "Abide with Me." A school class of which deceased was a member, led by Miss Bardenwerper, followed the remains to the grave, each bearing a bunch of Autumn leaves. It was the longest funeral seen here for many years.

There was a marked absence of the members of the Grant family on the occasion of the unveiling of the nation's hero last week at Chicago. It was the intention of the committee of arrangements to have the screen pulled aside by one of the grandchildren of the General, but not a grandchild was present. Even Jesse Grant, who passed through Chicago on his way from California to New York a few days previously, with his family, did not attend the ceremonies.

Talk about the political mud-throwing! The attempt to pull down Governor Campbell in Ohio by attacking his business exceeds in meanness anything in the history of current politics in the United States. It is even worse than the previous forgery of his name to the ballot box contract, because in that case some of his opponents were victims of deception.

Dallas Dotti, a graduate of Fowler's Ophthalmic Institute of Chicago, is in the city, at the Ormsby House, prepared to adjust glasses in a scientific manner. Those wishing glasses should not fail to take advantage of his short stay.
