Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. n6f

Benton's Liniment for sale at all drug stores.

A Livingston now practically controls the wholesale liquor trade of the city. He is continually adding to his stock and sells only standard brands. He is also introducing some excellent California wines to the people of Carson, as well as foreign and domestic cigars of the finest quality. Drop in and inspect his stock. d 13 tf

Sale of Blooded Stock.

About the middle of next month John Sweeney will sell at his ranch at public auction about fifty fine Gibraltar fillies in foal to Alpha and Triumph, and a number of yearlings and two-year-olds by Gibraltar. The sale will be without reserve and there ought to be a large attendance, as this will be the last sale of Gibraltar colts in this State, as Gibraltar will be taken East after the sale. A22

President Harrison made a private little bargain with Italy to pay \$25,000 indemnity for the New Orleans lynching. As he did so without consulting congress and as congress holds the purse strings, he has been notified that no appropriation will be made for that purpose.

The latest political rumor is that Mr. King of Empire is to be elected District-Attorney after which he will resign and Mr. Summerfield will be appointed by the County Commissioners. There is probably no truth in it, but Mr. King should inform the public at once how he stands on this proposition.

It may not be generally known; but it is true that anything in the line of rubber stamps, dies and seals can be supplied by Cagwin & Noteware at a less price than is charged by the traveling agents for rubber stamp manufacturers. This firm have an agency from the largest house on the Coast, and supply all goods at manufacturers rates, saving the buyer the express charges.

The Cavin Case.

Mr. Cavin, the man who remained two months in jail only to be discharged by order of the court, still insists that he has in his possession letters from prominent men in this city offering to stop all proceedings for \$100 but declines to show the letters until the proper time. It looks as if Mr. Cavin, if he felt disposed could make it rather warm for this county in a damage suit, and for other parties also if what he says is true.

Pretty Strong.

A few days ago Oliver Roberts received a consignment by Wells Fargo from St. Helena Cal. When brought to the house he refused to take it as the odor was so strong that his dogs left the premises and scalded the fence.

He finally found that it was a few pounds of some new kind of Limburger cheese sent him by Tubercio Parrott.

He had to buy some patent clothes pins to put in his nose while eating the cheese.

THE SCHOOL BUILDING.

The Committee Make a Report.

To T. R. Hofer, Chairman of Mass Meeting, and to the Trustees of Carson School District No. 1.

We, your committee appointed to ascertain what additional ground could be obtained for a school house site, and at what price the same could be purchased, beg leave to report as follows:

Mr. Morrison Fellows, who owns the lot adjoining the present site on the south (lot 66 x 236 feet), offers to exchange his lot for an equal amount of ground, immediately west of the residence of T. J. Edwards now belonging to H. M. Yerington; the School District to pay for moving his house from its present site to the Yerington lot.

Mr. H. M. Yerington offers the entire block adjoining T. J. Edwards on the west (203 x 236), for \$600.

Mrs. O'Hare offers the east half of her block, adjoining the Yerington block on the west, for \$400.

Mrs. John G. Fox offers the entire block adjoining the present school-house site on the west (170 x 236 feet), for \$2,000.

We consider the present school house site, added to the block of Mrs. Fox, (170 x 406 feet) the most desirable site for a new school house, which would be rendered still more desirable on account of more roomy grounds by the addition of the Fellows lot, giving an Eastern frontage of 236 feet.

We consider the next best site obtainable to be the block of Mr. Yerington and the half block of Mrs. O'Hare (236 x 321 feet), with a South front of 236 feet.

The block now occupied by the present school house is 170 x 170 feet, which seems to be too small for a modern, commodious school building.

As to the prices asked for the various lots mentioned, we look upon the offer of Mr. Fellows as most liberal and patriotic, by which Mr. Fellows gains nothing, except inconvenience to himself. The ground which he offers to the School District is more desirably situated than that which he offers to take in exchange.

The offer of Mrs. O'Hare and Mr. Yerington we believe to be under rather than above the actual cash value of the lots offered. We believe the block of Mrs. Fox to be worth not more than \$1,000.

We recommend that the next session of the Legislature be petitioned to authorize the bonding of this School District for the sum of \$40,000 for the purpose of building a modern, commodious and well appointed school-house.

We also recommend that the Legislature be petitioned to enact a general law authorizing School Districts to acquire ground for school purposes by condemnation. Respectfully submitted

Astounding Figures.

Mr. S. M. Davies of Ouray Cal. in an admirable address to the silver club of that city, among other things, said:

If the people of the West and South will only unite in one solid body our victory will be won.

Mr. Hall gave you some enormous figures a few weeks ago, and he is not wrong in them, either. He says the mining States were robbed of \$100,000,000. Do you know that it would take 120 cars to haul it if it were in silver dollars? He says the cotton growers' loss, in twenty years is \$800,000,000. It would take 480 cars to haul it. The wheat growers' loss, \$1,000,000,000-000 cars-making a solid train of 1,000 cars to move this enormous steal from the producers of this country. It would take a train of wagons, giving twenty-five feet to the wagon and horses, and 2,000 on each wagon, fifty-seven miles long to haul it. Now do you grasp this enormous robbery of the people? You can see that if the people have been robbed of this vast sum someone must have it. Who are they? The plutocrats have it all, and they are using it today to bind the fetters more firmly on the laborers and producers of this country.

Attention Indians.

HOUSE OF REPRESENTATIVES } WASHINGTON, D. C. April 27. } To The Washoes:

Captain Jim and Dick Bender having been to Washington for the purpose of obtaining aid from the United States Government to relieve the distress of their people, report the following as the result of their effort:

They had two interviews with the Commissioner of Indian Affairs, first with Senator Stewart, and second with Mr. Bartine. The Commissioner acknowledges their cause is a just one, and that the U. S. Government should help them in their distress. He will ask the Secretary of the Interior to allow him the use of one thousand (\$1,000) dollars of the Emergency Fund for their immediate relief for the assistance of the old, feeble and infirm.

The money will be sent to Mr. Gibson, Superintendent of the Indian School, and by him be applied to the best possible advantage for their benefit. Afterward he will join Senators Jones and Stewart and Mr. Bartine in an effort to procure legislation for their permanent relief.

The session is now so far advanced that it may not be possible to enact a suitable law before next Winter; but at that time, the delegation in Congress are of the opinion there will be no difficulty in procuring legislation for the permanent relief of those unfortunate and deserving people.

Cremery Dedication.

Last night there was a big jubilee in Mason Valley, the occasion being the dedication of the new cremery. There was a big dance in which all the pretty girls of the Valley joined, and speeches were made by Gov. Colcord, Evan Williams and others. Jake Klein was a boy again and danced the line-squad for the first time in twenty years. Yesterday morning a special train went down having aboard Senator Evan Williams, Vice President T. R. Hofer, Secretary Jacob Klein, Director A. Lindsey furnished the music. The following dispatch was received last night from an anonymous source, probably E. B. Rail:

MASON VALLEY, May 9, 1892. APPEAL—Big time down here, the whole Valley dancing and having fun.

Jake Klein in the swim. Bob Hofer belle of ball. The Governor dancing with belle of Valley. Evan Williams calling off. Cremery big success. The party will return tonight.

Sutro May Revive.

Since the burning of the Eureka mill the ore from the Con. Virginia mine is being worked in the Morgan mill at Empire. This is a steam mill, and it has not the capacity that the Eureka had, and consequently cannot handle all the ore coming from the mine. Neither can the ore be worked as cheaply at the Morgan. These facts have caused rumors to the effect that a mill may possibly be built at Sutro and the ore taken out through the tunnel. This method of extraction and transportation would be much cheaper than any other, and in a short time would save the price of the construction of a mill. Such a move would no doubt lead to other mines than the Con. Virginia shipping ore through the tunnel and in time a number of mills might be at work at this place and Sutro.—Dayton Times.
