LIGHT AHEAD.

The Senate has passed Stewart's Free Coinage Bill; the free coinage to apply to American silver. It was the threatened revolt in the West that did it, and the people have the new silver party to thank for it. If the bill becomes law, the silver party will have accomplished its mission, and will pass out of existence. A delicious death to die.

A QUESTION OF PRINCIPLE.

The Salt Lake Tribune in a recent issue says that in order to start a third party there must be a principle at stake and there is not a sufficient principle now on which to inaugurate a political reform. It is hard to realize what the Tribune would consider a principle, if the fighting of the infancy of '73 does not involve one.

Ever since that time when the finances of Europe struck a blow at our industries they accomplished with the aid of bribery and chicanery on the floor of our Congress what they were unable to do on our battle fields.

They placed the poor of America at the mercy of the rich, they forged the chains of slavery on the limbs of labor, they established a class of plutocrats, they degraded American money, and with it American manhood. They placed the working men and women of America on a level with the surfs of the old world.

They impaired our credit abroad, they made every money mart a throne on which they seated the gold kings. They brought about a matrimonial alliance between the bond holders of America and Europe and the hated progeny of that alliance, was American pauperism, bread riots, and labor strikes.

They placed the heel of the European money lender on the neck of every American artisan and then bought up the Congress of America to ratify their work. A few more years of inactivity and then the people of the United States will not be able to throw off the yoke.

To say that the emancipation of the United States from this wretched prospect of slavery is not a principle worth fighting for, is a doctrine too monstrous to be preached.

To rescue four millions of blacks from a state of slavery, the people of the North laid down their lives on the battle field. The question which is now beginning to claim the attention, the energies and the patriotism of the people is the rescue of sixty millions of whites from a financial slavery, which if it is not soon abolished, threatens to become perpetual.

A crazy Greek priest is making the people of San Francisco believe that he has discovered Noah's Ark, on the top of Mt. Ararat. The Examiner presents a picture of the mountain and the ark covered with snow. It is a very pretty story and a very pretty picture. The only thing which seems to interfere with the story is that since the flood, Mt. Ararat became a volcano and had an eruption. A volcanic eruption is death to arks and snow drifts.

An eastern exchange says that "There is no truth in the report that an estech farm has been started just outside of Chicago for the purpose of raising spring chickens for the World's Fair visitors.
