IS MARRIAGE A FAILURE?

Two Men Faint at the Thought of It.

TWO LADIES SEVERELY HURT AT A FUNERAL.

Five Toughs Allowed to Take a Town.

A Serious Matter.

New Orleans, La., October 20. Judge Morrill of the Second City Court was tying the matrimonial knot for George Robillan and Miss Laura Cook yesterday, when the bridegroom fell to the floor in a fit. The incident broke up the ceremony for the time being, but Robillan was brought to and went home.

An hour later the Judge was called on to unite Juan de Talazar and Miss Felicia Lasano, children of sunny Italy. Talazar could not stand the strain of getting married and swooned away. After he had recovered explained that he had never been through the ceremony before and that the impressiveness of the occasion, coupled with the oppressiveness of the weather, had brought on the fainting spell.

A Placerville Fire.

Placerville, Cal., Oct. 20.—The saloon property belonging to Sol Briggs, of Carson, was burned to the ground Wednesday night. The entire building and contents were destroyed. The insurance amounts to \$900, which the loss will almost foot up to. An adjoining butcher shop was also destroyed, along with the balance of the block.

Five Toughs Take a Town.

Tracy, Cal., Oct. 20.—Five toughs took possession of the town yesterday and gave Constable Byrnes and Justice Peck a severe beating. Reinforcements were sent from other towns and the gang were arrested.

Through a Bridge.

Marysville, Cal., Oct. 20.—A funeral carriage went through a bridge today, and Mrs. A. C. Perry and Mrs. Wm. Hooper were severely injured.

The Critic Criticised.

Carson, Oct. 20, 1892.

TO THE EDITOR OF THE APPEAL:—In the News of the 18th appears the following:

"Common Sense" in the APPEAL of Sept. 28th, says: "With no reflection upon any Legislative candidate yet named in Ormsby county we think we can select other equally capable men who will be in the majority and have an influence for good." How will this apply to National matters? Suppose instead of the two Peoples' party men—Stewart and Newlands—Nevada should send "men who will be in the majority and have an influence for good." "Common Sense" evidently hadn't thought of this.

If the editor of the News will refer to my article in the APPEAL of 16th, entitled "Protection and Reciprocity, she will find these words: "In our next Legislature there will be only two elements, (Silver party and anti-Silver party). There can be no balance of power between 99 and 10 per cent." ["Common Sense" and "Silver" are the same.] In this campaign I claim there is no parallel in the cases of Stewart and Newlands vs. Meyers, Gordon and King. The balance of power wielded by the Third Party in Congress will be supported by the Knights of Labor, Nationalists, Farmers' Alliance and the Silver Leagues.

This movement of the masses is directed by such intellectual giants as T. V. Powderly, Edward Bellamy, Paul Vandervoort, Ignatius Donnelly, Thomas Patterson, General Warner and Senators Stewart and Kyle, besides a host of others, equally prominent.

Let my critic answer this conundrum: What is that which consists of two parts and yet contains a Third Party which alone is "in it" Ormsby county businessmen should see to it that the solution of this riddle shall not be at the cost of their dearest interests.

In my next I shall try to explain just what the cost may be.

Not to lose sight of our new abolition movement, in conclusion let me paraphrase Abraham Lincoln's aphorism thus: A Party of the People, by the People, and for the People shall not perish from the earth—at least, not while the People have

COMMON SENSE.

Harrison's Silver Views.

It must be rather painful to the friends of Mr. Harrison to note that when he talks through the ancestral hat on the silver question, his active little brain seems subject to changing moods.

When the Republican platform of 1888 proposed to give both gold and silver an equal show, he told us the plank just suited him. When that financial monstrosity, the Windom bullion exchange bill was born, he shouted its praises and followed it to its tomb.

A few months later we find him dancing on the grave of the poor little Windom bill and singing the praise of Sherman's bullion purchase act.

Next we hear him prating on 70 cent dollars, and extolling what he calls the honest dollar something different, he intimates, from the dollar which our silver eagle adorns.

And now, with the wisdom born of experience, he joins his voice with that of Grover Cleveland and gives us to understand that the United States is not big enough or strong to exercise through her Congress the power conferred by the Constitution on that body to regulate the coinage of gold and silver, but must call in her European neighbors to decide what the products of her Mints shall be in weight, value and quantity. This brings him down to date.

No wonder so many good Nevada Republicans find him hard to follow.

Election Bets.

The Carson Tribune says "an even bet of \$750 was made in Reno last week that Harrison will carry Nevada. Who says sentiment is not radically changing?"

Diligent inquiry here fails to confirm what the Tribune says, but there is \$500 here to bet that Weaver will get more votes in Nevada than Harrison and Cleveland combined. Who says public sentiment is not for Weaver?—Journal.

Chance for a Wager.

Anyone who wants to bet \$500 against \$1,000 that Weaver will not carry Nevada by from 2000 to 2500 majority can be accommodated by notifying T. J. Hadley of Unionville who will guarantee that the money is covered,

ALL SORTS.

The Columbus Day ball given by the Guards last night was a success in every way and the old Army shook from end to end under the feet of an immense crowd.

FOUND—A bay mare newly shod strayed to the shooting lodge at Washoe Lake almost two weeks ago. The owner can have same by proving property, paying for the animals feed and this advertisement.

What fools the Harrison campaign managers assume the silver state people to be. They are raising the price of silver a few cents an ounce until after election under the impression that the silver men will bite at the bait. This is not the time of year to fish for suckers.

The oracle of the Tribune office says Francis G. Newlands and Thomas Wren spoke in Reno Oct. 18 which is not true. It was also stated that free trains were run from both Virginia and Carson and this also is untrue. As a political gazetter the Tribune is very punk.

A peddle lifted into the canyon the other day. When he opened his grip in a saloon in the presence of a crowd of well boozed fellows, and announced that he had a dead sure cure for the whisky habit, they pounced upon him without diliberation and engaged him to a finish. He should have known better than to trifle with a man's cherished appetite.—Jim Townsend.

The farmers in Douglas who recently learned that elegant cash prizes ever offered by the Ormsby County Agricultural Association, for best apples, horses, wheat, etc., have dug up their unopened list of premiums sent them by the Clerk of the society, and found that it is indeed a fact. They are now complaining because they didn't get in. The next Fair will probably catch them.

A Washington dispatch says: Politicians respect nothing but strength. The two old parties in the East look on the cause of silver with more contempt than Sullivan regarded Corbett before the fight at New Orleans. It is now thought here that the West is getting ready to rise up in her might, champion her own cause and strike back. If she does she will win; if she does not no one will have any respect for her and the cause of silver will be doomed.

Last evening's Tribune contains an article headed, "Jewett Adams Squawks," which is made out of whole cloth. The truth of the matter is that Adams offered to bet \$1000 that Weaver would get 1500 majority in this State. The Harrison men—Summerfield, Coffin and the editor of the Tribune filibustered around some time and wanted to get it arranged a little different but the Gov. held to his original bet and the discontented and bluffing three retired to discuss the chances of Ben. There are still \$900 laying in prominent business houses that the rabid Republican can cover at any time.

Who Owns America?

Who owns America? The railroads own 211,000,000 acres, or enough to make six States as large as Iowa; Vanderbilt owns over 5,000,000 acres; Mr. Disston of Pennsylvania owns over 4,000,000; the Standard oil company 1,000,000, and Murphy of Cal., and area equal to the State of Massachusetts. The Schenley estate owns land from which the hires have received annually \$1,000,000, 21,000,000 acres are owned by foreigners, who owe no allegiance to our government, and are no friends to a republic. What will our children own?—a right to pay rent.—Tulare Valley Citizen.
