PROPOSALS FOR SUPPLIES. MINT of the United States, Superintendent's Office, Carson City, Nevada, May 1, 1893. Sealed proposals will be received by the undersigned until 12 o'clock noon on the 26th day of June, 1893 for furnishing such supplies as may be required from time to time by this Mint during the twelve months ending June 30, 1894, embracing acids and other chemicals, wood, charcoal, salt, borax, soap, oils, crucibles, covers, stirrers, buck gloves, cottoned wool, dry goods, metals, hardware and other necessary supplies. Schedules and blank forms for proposals, with information as to the quantity of each article that will probably be required, will be furnished on application. Proposals will be considered separately on each article, and upon comparison of the prices and samples of articles furnished, and will be accepted as to the whole or a part, as may be deemed for the best interests of the Government. The right to reject any or all proposals being reserved. Requisitions will be made on the parties whose bids may be accepted and the articles must be furnished as required without delay. Proposals, to receive consideration must be accompanied by a sufficient bond, with one or more sureties, and by samples of such description of the articles as will clearly designate the kind and quality. Proposals should be addressed to the undersigned and inclosed, with a copy of the advertisement, in a sealed envelope indorsed "Proposals for Supplies." The bids will be opened and registered at the hour named in the presence of bidders and the officers of the Mint, T. R. ROFFEL, Superintendent U.S. Mint Carson City, Nevada. m14td

Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. n6tf

The Comstock proposes to celebrate on the 4th.

A good many fast nags are being exercised at the track.

Jim Yerington is doing excellent work for Nevada at Chicago.

The Carson Jockey Club promises to become a permanent institution.

The APPEAL acknowledges an invitation to paint Reno red on the 4th.

Ross Elliott is now considered out of danger and on the road to recovery.

Arnold Millard, the plumber, is now the agent for the New Home Sewing Machine.

Judge Belknap is very much improved in health and will spend the Summer in Carson.

The fire alarm yesterday was caused by a burning chimney in Vierra's dwelling house.

A ten cent plaster on Justice. Those clerks, bookkeepers and superintendents want another month's salary.

Kelly placed a three line local in the APPEAL that he had strawberries for sale. Result, all his stock gone by noon.

A ton of diamonds is worth \$35,000,000, and a Kansas editor cautions his readers not to be imposed upon by paying any more.

The Carson Guards have been invited to participate in the Fourth of July celebration at Reno. They will probably accept the invitation.

When the Tribune speaks of an Italian who advertises. It speaks of him as "our Italian friend." When he don't advertise he is "a dago."

John Mackay is in Chicago. He has to register as John Smith, New Jersey, to prevent the hotel keepers taking every cent he has on earth.

The black cat that sits on the editorial desk of the APPEAL, has been spitting and snarling all day which indicates that he suspects Foster's storm is coming.

Summers & Dauchy advertise their complexion beautifiers in another column. This is by all odds the place to go if you want face washes that keep the eternal Springtime of youth in your phiz.

The body of the second escaped Sing Sing murderer was found floating in the river opposite the Prison yesterday. It is supposed that Rohle, whose body was found first, shot Pallister and then suicided.

The Tribune is in error about Secretary Morton not being a practical agriculturist. The editor of the APPEAL used to work for Morton in Nebraska City, and his farm was one of the finest in the State.

Allen is still anxious to fight Turner the Stockton darkey, but the latter has no stomach for a return match and is keeping shady. Allen says he will fight him for fun and give him the gate receipts if he will only give him another chance.

The rumor which has been floating about for the last few days to the effect that Attorney Kousskey of San Francisco and Attorney Coffin of this city, were about to form a co-partnership, is denied. No one can deny however that it would make a great legal team.

Bargains! Bargains!

A. Livingston now practically controls the wholesale liquor trade of the city. He is continually adding to his stock and sells only standard brands. He is also introducing some excellent California wines to the people of Carson, as well as foreign and domestic cigars of the finest quality. Drop in and inspect his stock. d 13 tf

THE RENO REDUCTION WORKS.

They are Prepared to Reduce Ores, Miners Should Endeavor to Supply Them.

The Reno Reduction Works are prepared to reduce ores and will pay the highest price for gold and silver ores consigned to them at Reno. H. H. Beck, Superintendent of the works, has succeeded in getting a rate of one cent per ton per mile from the Southern Pacific Company for all ores shipped to the works from points along the railroad. This is as cheap transportation as can be expected, and were it not for the low price of silver bullion the works would doubtless be supplied to their full capacity with ores from mines along the Central Pacific railroad in this State. The percentage deducted from the value of ores for reducing them is low and miners are paid in coin the moment the ores are sampled and their values ascertained.

It is the intention of the proprietors of the works to build smelters for reducing copper, galena and other base ores containing silver as soon as they are assured that ores will be furnished them in quantity sufficient to supply the smelter. They do not, however, purpose purchasing undeveloped mines.

There is an extensive copper mine a few miles from Golconda on the Central Pacific which is developed to a considerable extent and which would supply several smelters steadily. There are also copper mines within a few miles of Winnemucca, which would doubtless furnish considerable ore, in fact there are a number of copper mines in Nevada which might be made to pay more or less profit if worked systematically and economically and with the cheap rates for transportation for ores on the railroad, employment might be furnished a large number of persons mining and smelting the ores from these mines if furnaces were erected.

The Reno Reduction Works are situated on the Truckee river and are run by water power which is the cheapest yet discovered. The works are conducted by a practical metallurgist, R. D. Clarke, and ores are treated by the most approved modern processes. If miners have ores that will yield even a small profit at the present price of silver they should ship them to Reno and give the works a trial, as the rates of transportation and cost of reduction are very low.

Farmer Livingston.

Since Livingston was appointed a director of the Agricultural Fair by the Governor he has been putting on a lot of agricultural airs.

He has also made several attempts to perfect himself in the methods of the honest laborer.

He knows that potatoes can be cut up in chunks and planted for he saw farmer Sweeney do it.

Recently he attempted to grow radishes on the same plan. He purchased some radishes of a Chinese fruit peddler and slicing them up planted them in his garden, sprinkling them daily with a watering pot. Lyman Frisby suggested this plan and Liv. says, that if the radishes ain't up by Sunday he will belabor Lyman with a bung starter.

Donner and Tahoe Railroad.

A little army of men will be employed in the next two weeks on the Donner and Tahoe Railroad. The work must be finished by the middle of July, and, if possible, trains will be running in time for the celebration of the Fourth. The advantages which this road will offer to tourist travel to Tahoe can scarcely be estimated. It will have a very material influence in building up Truckee and the surrounding region. Its beneficial effect is already felt in the prices of real estate, and as the work progresses our town will steadily improve. Railroads make business for any terminal station.—Truckee Republican.

Tobacco Users Smile Sometimes.

When told that tobacco hurts them: their wives never do, because shattered nerves, weak eyes, chronic catarrh and lost man-hood, tells the story. If your husband uses tobacco, you want him to quit, post yourself about No-to-bac the wonderful, harmless, guaranteed tobacco habit cure, by sending for our little book titled: "Don't Tobacco Spit and smoke your life away," mailed free. Drug Stores generally sell No-to-bac. The Sterling Remedy Co., Indiana Mineral Springs, Indiana. j19tf.

Pasturage.

On the Kirman ranches, which contain over 400 acres situate one-half a mile from town. Milk cows taken and delivered daily. Terms \$2 a month. Season begins April 1st.

WILLIAM SMYTH, Lessee.

A War with China.

New York, May 15—A Washington special to the Post says: The outlook for a war with China is now regarded in naval circles as not unfavorable. It is believed that the Emperor will resent the conclusion reached by the Supreme Court, and will issue a decree enforcing strict rules against the entry of any more Americans into China and probably ordering the removal of our missionaries out of his territory under pain of forcible deportation. Meanwhile there is danger of insurrections of Chinese against white immigrants, which the Imperial authorities will be unable to check. These, taken together with the outbreaks which an attempt to enforce the Geary law on our West coast will bring about, it is thought, will put the two nations on such a footing as to make war inevitable. The decision was a great blow to the Chinese Legation here, where it was hoped the Act would be declared unconstitutional.

Suicide.

New York, May 16.—Lena Weinecke, 16 years of age, committed suicide last night by swallowing carbolic acid. She lived with her parents at 34 Moore street, Williamsburg. Her father recently secured a place for her in a taylor shop, where she was paid \$3 a week, but she was soon discharged. Her father then got her another place, but she was discharged from this place last Friday.

Her father lost patience with her, and the neighbors say that he scolded her more than necessary. She went to a drug store Monday and bought 5 cents worth of carbolic acid. Returning home in the evening she was again scolded. Lena went to the parlor and swallowed the carbolic acid. The doctors worked over her for an hour, but she died in great agony.

Serious Charges.

Washington, May 16—For some weeks rumors have been rife in the Interior Department bringing in serious question the official conduct of W. E. Simons, late Commissioner of Patents. Prominent attorneys have preferred charges to the effect that in the celebrated Druwbaugh Telephone case Simons allowed the secret archives of the Patent Office to be copied by parties outside of the Patent Office, contrary to law. It is rumored that other important applications have been copied, and that Simons compiled a book on the patent laws and had it type written by Government clerks during office hours. The matter has been investigated and it is said the report will set forth facts not easily explainable.

Literature.

Literature is getting a little lively now a days; more so, at least, than it used to be.

All sorts of books come, and John G. Fox has a very large assortment. You can't tell just how lively a book is till you read it. Mr. Fox takes everything that comes from responsible book sellers, and he has almost everything.

"I haven't time to read these books but they do say that some are pretty lively. I judge from the sales lately that the booksellers have sent some of those lively ones in the lot."

The APPEAL's advice to the public is to keep reading Hugo, Dickens, Thackeray and Wilkie Collins if you want something strictly reliable, and not bother with books that are too lively. Fox has all the old standard authors, as well as finely bound bibles and prayer books.

Suing the County.

To-day the case of Chas. Bray vs. the County of Ormsby comes before Justice Hawthorne at 2 o'clock p. m. Mr. Bray sues to recover \$30 he charged the County for repairing a road near Gardner's. The Auditor refused to pay the bill acting under instructions from the District Attorney.

The District Court was asked by Mr. Bray to issue a writ of mandamus compelling the County Auditor to pay the money. The Court refused the writ and the case is now taken into the Justice Court. Summerfield and Coffin are the attorneys for Bray.

Another Lynching in Indiana.

Indianapolis, Ind., May 16.—At 3 o'clock this morning a mob, presumably the same which lynched John Turney at Bedford yesterday, went to Brownstown and took Lou Trenck who shot and killed Henry Feader a week ago, from jail and lynched him.
