GENUINE SILVER MEN.

The attention of the self-styled non-partisans, who say they are in favor of the free coinage of silver, while upholding parties known to be opposed to it, is respectfully directed to the action of the Populists in congress. They meet in caucus and unanimously decided to vote as a unit for free coinage at the present ratio of 16 grains of silver to one grain of gold. That there are members of other parties in both houses of congress who favor free coinage at the present ratio, there is no doubt, but that the party lash or the mandates of king caucus will control their action to a considerable extent is also undisputed. Under such circumstances can there be a sincere advocate of the full remonetization of silver who does not wish that the Populists were more numerous in both houses of congress? If they were in the majority the very first bill that would pass congress would restore silver to its old standard. That is one of the reasons for making the financial question a political issue. The populists were elected on a platform that unequivocally declared for free coinage at a ratio of 16 to 1, and they agree to vote as a unit for that principle. The leaders of the other parties proclaimed in the west that they, too, favored free coinage, while in the east they told a different story. Now the hour of trial has come and the thirteen Populists, true to the silver cause, decided to vote as a unit for free coinage. Let us hope that enough congressmen from the West and South will throw off the party shackles, defy king caucus and combine with the Populists to pass a bill that will restore silver to its old standard, release the people from the clutches of the gold bugs and restore prosperity to the country.—Reno Journal.

WIPE IT OUT.

It is now a definitely settled fact that the cholera has its inception in a dirty pool of water, in a place in Asia, where every year thousands of fanatical religious devotees flock to perform heathenish rites. The water they drink, is too filthy for Government mules, and as a result, the crowd of dirty, unwashed lunatics, after loading themselves up with cholera germs, scatter over the old world and carry pestilence and death to every quarter of the country. Thousands of human lives and millions of property lost every year as the result of this fanaticism, and there is but one way to stop it. Let each power in Europe send a military contingent to the accursed Mecca of filth and lunacy, and wipe it out. If the pilgrims insist on keeping up their devilish rites, kill to whole batch and clean up the swamp, the pilgrims, the cholera and the religion of that country with one scoop.

EDITORIAL MENTION.

The hatred of the plutocratic press for Bland is daily attested by boasts of how Crisp will turn the silver champion down to please the administration.

With only about 71,000,000 of silver dollars in circulation, or a little more than one to each person, no one should wonder at silver dollars being at premium in the East.

Bland grimly smiles as he is informed that he is to be excluded from the coinage committee. He significantly remarks that the administration cannot exclude him from the floor of the house.

Cleveland says in his message that the Democratic platform of 1892 cannot be carried out. He should have had the candor to have mentioned this little circumstance to the convention, before agreeing to carry it out.

A number of ladies who are acting on the World's Fair committee, are horrified at the dancing in the Midway Plaisance. They fear that their innocent sons will be contaminated. The chances are about 10 to 1 that those Chicago youths did not pick up any new points on the Midway.
