WILL MEET IN MAY.

The State Central Committee of the Silver party will hold a meeting sometime early in May and will select the place for holding the state convention which will likely be held about the first of September. A full state ticket will then be nominated which will bury the Republican ticket so completely that they will never know that they were really before the people, for we presume they will have gall enough to place a ticket in the field, although they know that there will be no show of electing at single candidate.

Even the Nevada shifting lights of the g. o. p. admit that the Republican party is against silver and that they cannot swallow it "so far as the silver question is concerned," but for the sake of a few paltry federal offices they are willing to stultify themselves and work for its success even though the end be ruin and disaster. Well, the honest and untrammelled voters of the State expressed themselves very forcibly in 1892 against such slavish, base and unpatriotic treachery, but not more so than they will again next November.—Silver State.

Why Not Employ White Men?

Thirty five Chinamen from Carson are now in Golconda working on the Gold Run placer mines, which are owned by Evan Williams. The mines are out from Golconda about 14 miles, and are said to be very rich and extensive.

Why Chinamen are given employment in preference to white men is more or less hard to understand. It is true that a Chinaman will work for less pay than a white man, but don't they steal enough to make up for it? None of these why-boys have any scruples in robbing their employers, and why should they when they are given work that would keep the wolf from many an honest miner's door, and a white one at that. Where in these United States is there one of these yellow heathens living that don't send two thirds of what money he makes back to China? Ask the postmaster of either a large or a small town and he will enlighten you to some extent on this latter question. But who is to blame, the Chinese who are employed, or their employers? Give work to those who spend their money at home and leave Chinamen go.—Silver State.

A Railroad Ticket.

A bright and capable company including such well known performers as Arthur Moulton, James T. Kelley, Harry Porter, James Bevins, Rose Chesneau, Hattie Waters, Jeanette Bagard and Anna Caldwell will present the new and highly successful scenic farce comedy, "A Railroad Ticket," at the Opera House on Friday evening March 30th.

The hits at selling suburban lots, at the rain machine craze and at a railway ticket scalpers, with which the piece abounds are said to be new and refreshing. Numerous novel and mechanical effects add interest to the piece, prominent being an electric street car with full equipment in active motion.

A GOOD ADVERTISEMENT.—George Holesworth, who returned a few days ago from San Francisco, says Nevada's exhibit at the Midwinter Fair is by far the best advertisement the State ever had. Mr. Holesworth predicts that it will be the means of bringing us many settlers. He says the universal verdict of visitors to the Nevada building is that a state making such a showing on agricultural lines must be something more than a cow pasture. The exhibit is attracting much attention from Eastern visitors, and Mr. Holesworth says it will attract many families to the State.—Reno Gazette.

Effie Ellsler.

The talented and popular actress, Effie Ellsler, is the next attraction announced at the Opera House on Saturday evening. She will appear in what is being termed her greatest success, "Doris," a new play from the pen of Robert Drouet, which has only recently been added to Miss Ellsler's repertoire, but has made such a pronounced success, that the present tour has been given up solely to the production. An exchange says of it:

"Doris," Miss Ellsler's new play, is a drama of domestic interest, written with due regard to her characteristics as an actress, and she invests the role with a sympathetic charm all her own. The story of the play is a very pretty and impressive one, and is unfolded in such a manner that interest in it becomes fixed and intense and is never allowed to lag."
