Stage Robber Sharp.

A San Francisco dispatch to the Enterprise says:

Frank Bell, Warden of the State Penitentiary, is authority for the statement that a movement is on foot in Nevada to secure a pardon for Milton A. Sharp, the notorious highwayman, sentenced in 1880 to 30 years' imprisonment for stage robbery in Esmeralda county.

Soon after his imprisonment Sharp dug through the prison walls and escaped. For over four years and until an ex-convict recognized him and exposed him to the authorities, Sharp enjoyed his freedom. During his four years out of prison, he lived an honest and industrious life and at the next meeting of the Board of Pardons this will be argued as a reason why he should be pardoned.

The Nevada city mine is looking splendid, and during the week several tons of very rich looking rock have been sent down the Seley's Smelting Works for reduction, being too rich to mill, says the Herald. A lot of high grade sulphurets has also been shipped.

A New Band.

The proposition to organize a new brass band in Carson is a Will Davis or APPEAL scheme. What's the matter with the Day Bros.' Band? It is better to encourage them with your patronage to practice and become proficient than to organize a new band these hard times.—Tribune.

The above seems to contain an implication that the Day Bros.' Band is not proficient. Neither the APPEAL nor anyone connected with it has anything to do with the formation of a new band.

Prof. Smith, who intends locating here with his wife, and going into business, proposed to organize a brass band, to include all the musicians in town, and we feel that any man who wants to go into business here, should be encouraged. This is the sum and substance of our interest in the matter. Anyone who doubts Mr. Smith's ability has but to hear him play.

Treasurer and Deputy.

Governor Colson yesterday appointed Geo. W. Richard as State Treasurer to succeed John F. Egart, deceased. Mr. Richard selected ex-Warden F. J. McCullough as his deputy. Both appointments give general satisfaction.

PEOPLES PARTY PLATFORM.

Adopted at National Convention at Omaha, July 4, 1892.

Just at this time when so much is being said about the Populists being free traders, the following may be of interest:

Believing that the forces of reform this day set in motion will never cease to move forward until every wrong is remedied and equal rights and privileges securely established for all the men and women of this country, we declare therefore:

1. That the union of labor forces of the United States consummated shall be permanent and perpetual; may its spirit enter into all hearts for the salvation of the republic and the uplifting of mankind.

2. Wealth belongs to him who creates it. Every dollar taken from industry without an equivalent is robbery. "If any will not work neither shall he eat." The interests of rural and urban labor are the same; their enemies are identical.

3. We believe the time has come when railroad corporations will either own the people or the people must own the railroads, and should the Government enter upon the work of owning and managing any or all railroads, we should favor an amendment to the Constitution by which all persons engaged in the Government service shall be placed under civil service regulations of the most rigid character, so as to prevent the increase of power of the national administration by the use of such additional Government employes.

1st. We demand a national currency, safe, sound and flexible, issued by the General Government only, a full legal tender for all debts, public and private; and that without use of banking corporations, an equitable and efficient means of distribution direct to the people shall be established at a tax not to exceed 2 per cent per annum, to be provided as set forth in the Sub-Treasury plan of the Farmers' Alliance, or some better system; also by payments in discharge of its obligations for public improvements.

a. We demand the free and unlimited coinage of silver and gold at their present legal ration of sixteen to one.

b. We demand that the amount of circulating medium be speedily increased to not less than \$50 per capita.

c. We demand a graduated income tax.

d. We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all National and State revenues shall be limited to the necessary expenses of the Government economically and honestly administered.

e. We demand that postal savings banks be established by the Government for the safe deposit of the earnings of the people and to facilitate exchange.

2d. The land, including all the natural sources of wealth, is the heritage of all the people and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All lands now held by railroads and other corporations in excess of their actual needs, and all lands now owned by aliens, should be reclaimed by the Government and held for actual settlers only.

3d. Transportations being a means of exchange and a public necessity, the Government should own and operate the railroads in the interest of the people.

a. The telegraph and telephone, like the post-office system, being a necessity for transmission of news, should be owned and operated by the Government in the interest of the people.

Here is also an extract from the preamble, and which subsequent events proved unexaggerated, yet when this platform was first formulated, the Populists were termed "Calamity Howlers."

The national power to create money is appropriated to enrich bondholders, a vast public debt, payable in legal tender currency, has been funded into gold-bearing bonds, thereby adding millions to the burdens of the people. Silver, which has been accepted as coin since the dawn of history, has been demonetized to add to the purchasing power of gold by decreasing the price of all forms of property as well as human labor. The supply of currency is purposely abridged to fatten usurers, bankrupt enterprises and enslave industry.

A vast conspiracy against mankind

has been organized on two continents and is rapidly taking possession of the world. If not met and overthrown at once it forebodes terrible social convulsions, the destruction of civilization or the establishment of an absolute despotism.

COAST NEWS.

A hog said to weigh 1525 pounds is the product of a Wasco county, Or., farm.

Mrs. Mary Ann McDoolin, aged one hundred and two years, has been granted a divorce from her husband at Tacoma.

E. M. Carpenter, a farmer, went to Eugene, Or., Saturday, and while drunk was robbed of his wallet, which contained \$500 in coin and \$5000 in notes.

A fire started in Geo. A. Troxell's confectionery store on Fifth street, San Diego, Saturday, and destroyed a whole row of one-story buildings of flimsy construction. They were among the oldest houses in the city.

William McBeth, a woodsman, was found dead in his cabin near Eureka, Cal., Saturday about noon. He was a native of New York, aged about thirty-four years. He died from heart disease. He had relatives in San Francisco.

Los Angeles saw 7000 people in masks and gay costumes on the streets Saturday and a merry crowd it was. Everybody was goodnatured. Brass bands and tin horns added to the pandemonium. A real carnival day was enjoyed, and it wound up la fiesta, leaving a pleasant remembrance and exacting mental promises of a high old time next year.

The Turn Verein Party.

Tomorrow night is the date set for the party under the auspices of the Junior Turn Vereins. They have put the tickets at the extremely low price of 50 cents, admitting gent and ladies. The Day orchestra will furnish the music, under the leadership of Prof. Geo. I. Lamy. The boys will have the Odd Fellows' hall tastefully decorated, and propose that all who attend will have a pleasant time. They have also made arrangements to have a fine spread served at the Ormsby House at 25 cents per head. This party is given to raise funds to purchase new apparatus for their gymnasium.

"After the Ball."

It was a "decided hit". Experts called it a "sky-scraper." It was pitched pretty low; but when the Captain inflated his lungs and struck it soared higher than Patti's best notes. It was just then that the left fielder ran about three miles "after the ball." Yes it was "Spaulding's League" and had been lifted by a wagon-tongue base ball bat bought of Cagwin & Noteware. By the way—this firm has added a new department, and is well supplied with fine chestnuts such as Harris'. "After the Ball" and other songs.
