A car-building syndicate, with a capital of \$5,000,000 has made overtures to secure the services of the striking Pullman mechanics, and the negotiations may end in the depopulation of the "model town" of Illinois.

At a cricket match at Klukerville, Cal., the world's record was broken recently by a run of 340. What sort of bowling the batters had to contend against is not stated, but it must have been something phenomenally poor.

President Debs of the A. R. U. said in a speech at Chicago that he did everything in his power to prevent the Pullman strike. Hereafter he proposes to fight out the battles of organization of which he is President along political lines.

There is great suffering by the people of Phillips, Wis., the town that was destroyed by fire last Saturday. Provisions and tents have been sent to the homeless and they are as comfortable as possible. Several people who went to the bathhouse for safety were drowned.

THE RENO TRAGEDY.

Discoveries at the Scene of the Shooting.

The Reno papers do not have much to say regarding the recent tragedy but an Examiner reporter writes the following as the result of his investigation:

One of the shots fired by Mrs. Hartley pierced a picture in the north-west corner of the front room. It entered the picture at a point seventeen inches from the floor, ranging down at an angle that caused the bullet to strike the base-board six feet beyond the easel, at a point seven inches above the floor, thereby showing a downward range of ten inches in six feet.

If the shot was fired close to the easel the woman was doubtless down on her knees or lying on the floor when she pulled the trigger, which circumstance might indicate there was a struggle.

The theory that there was a scuffle is corroborated by a discovery this afternoon. A collar-button which was missing from the dead man's shirt which was found on the floor near a chair in which it is supposed Foley sat after he entered the studio.

If the defense is to be self defense both the collar-button and the proximity of the bullet-hole to the floor will be used to uphold it.

Dr. Phillips, who was in his office just under the studio when the fatal shots were fired, testified at the inquest that he heard something like a body fall heavily to the floor about the time of the tragedy. Until the woman speaks it will not be known what caused the noise.

There is a great deal of gossip about the character of Mrs. Hartley, and there are many who denounce her as an adventuress. It is said that some of the best people in Reno accepted her as a woman of good character, and everybody says that her demeanor was that of a cultured lady.

NAVAL VICTORY FOR JAPAN.

She Sinks a Chinese Man-of-War and Two Cruisers.

Shanghai, July 31.—At 10 p. m. news reached here of a desperate battle between the fleets of China and Japan, in which the Chinese were defeated and the Chen Yuen, the largest battleship but one in the Chinese service, was sunk and two other large vessels, said to be first class cruisers were captured or destroyed. The battle was hotly contested, but the Japanese appear to have handled their guns, ships and torpedoes with more skill than the Chinese. The Chinese fleet engaged carried nearly a thousand men and a large number are reported killed or drowned.

A later dispatch says few if any of the Chinese engaged in the battle escaped. Two German officers in command of the Chen Yuen are reported to have met death with the crowd.

The Strikers Examination.

Woodland, July 31.—The preliminary examination of the five A. R. U. men accused of train wrecking was resumed this morning. Almost the entire morning was devoted to the testimony of George B. Katzenstein, President of the Citizens Protective Association, formed at Sacramento during the strike. Witness told of several conferences with Knox, chairman of the mediation committee, but could give no testimony prejudicial to defendants. J. C. Lasher testified to the events leading up to the sending out of the train that was wrecked. He told of the riotous actions of the strikers. He was badly tangled on cross-examination, and was forced to admit that he had told various people he expected to get \$500 if he testified in a certain way prejudicial to the strikers.

Fresno Alarmed.

Fresno, July 31.—Mysterious dash lurks in a big vineyard near Collis. Everybody has left the place and the authorities are preparing to begin a searching investigation of the premises. On July 23, Mrs. M. Jacobs, a cook for the vineyard employes, was taken suddenly ill and died within twelve hours.

Two days later Superintendent Ring was stricken with a similar malady. He is still living, but will probably die. On Sunday last at Peterson, a vineyard workman, was taken ill in the same manner and died in thirty hours. Physicians declare that death was due to paralysis of the heart, and that Ring is also stricken with a severe affection of the heart. The local medical fraternity is greatly puzzled.

OPPOSITION TO PULLMAN.

A New Company Arranging to Build Cars.

Chicago, July 30.—The Record publishes the following:

If the negotiations now pending are carried to a successful termination, the striking car builders at Pullman will quit the "model town" in a body and become the employes of a powerful new corporation organized for the manufacture of palace and freight cars and day coaches. For more than a week secret communications have been passing between the agent of the corporation in Chicago and the Striker's Central Committee. The offer to the men is in writing, signed by a man of prominence and wealth in the business circles of the city. The names of a number of capitalists who are connected with the enterprises are also mentioned to give the communication greater weight.

Thus far the deliberations of the Central Committee and their replies to the advances made by the corporation have been kept wholly secret, but it is known that every member is heartily in favor of the change if reasonable terms can be agreed upon. As soon as the negotiations have reached a more definite basis the matter will be laid before the body of the strikers for their sanction and approval.

Sensational Story.

A sensational story from Woodland that a member of the A. R. U. was on the dome of the Catholic Cathedral at Sacramento watching the progress of the train that was wrecked on July 11th and signaling to the strikers when the train went off the bridge. The dispatch is published in the Sacramento Bee.

BORN.

In this city July 30, 1894, to the wife of P. Thebaud, a son.

Yesterday was the hottest day of the season so far. Friend said it was 92, but the general idea was that it was somewhere above a hundred. The hottest place in town is the west side of Rayercraft's stable. The stable inside, however, is very temperate.

Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle.

Benton's Liniment for sale at all drug stores.

Go to Golden's for your spectacles, eyeglasses and optical goods, and all kinds of repairing at bottom prices.
