Much of the Chinese war equipment recently purchased in Europe is bad. For instance, it is said that 400,000 discarded American rifles, with a large amount of ammunition for these weapons, which were recently sold to China, are not likely to prove a very effective acquisition to China in this emergency.

LAKE NEWS.

The Institute Pupils at Glenbrook.

Spooners' Station, Aug., 2 '94.

TO THE EDITOR OF THE APPEAL:—A detachment of pupils from the Stewart Institute invaded Glenbrook yesterday. They were all shade, from a Vandyke brown to a mere suggestion of duskiness characteristic of their alleged nativity. John Furlong, Jack's brother, had them in charge, and was a father to them all, not literally of course. After "taking in" the town and viewing the several varieties of elephants, they were given a ride on the narrow gauge wood train which puffs and lugs up a weary, winding and zig-zag grade of 180 feet to the mile, to the Summit.

It was kind of the management to give the dusky students a ride, but I believe that wood train travel is not really enjoyed by Indians, who merely use the cars as a means of getting from one place to another without walking; further than that a railroad charms them but slightly, and surely the incomparable scenery along the route was lost upon their minds, which, though perhaps, not untutored, at least lacks quality which causes one to admire the beauties of the creation. In fact I happen to know that one of the swartly maidens was so busily frescoing the side of the road with what she had eaten for breakfast and lunch, respectively, that she didn't know whether she was on land or sea. At the Summit they were all loaded into wagoons and taken back to their books, where they will, with the possible exception of the preoccupied maiden above mentioned, forget the trip.

Jack Adams brakemen on the train, says the recent strike affected the road very slightly as, the Pullmans were at once taken off.

George McLaughlin and family and Bob Fulstone and wife went by here yesterday, headed for Bijou.

This morning a party of campers passed here, destination Bijou. I noticed as they went by, Miss Hallie Bigelow, Miss Howe, Miss Davis, Sam Platt, Mr. Howe and others whom I couldn't recognize.

Mrs. Dempsey and children, Mrs. E. James and children, Mrs. Mather and children and Mr. Sharp just passed en route to Zephyr Cove.

There are 200 guests at Tallac, and McKinney's is crowded. Emerald Bay and the other resorts are also alive with guests.

The new mail steamer Meteor, is without doubt the swiftest mail boat on the Coast. Frank Oliver is pursuer.

The weather is hot, fishing excellent, and the mosquitos healthy, well developed and persistent.

THE BOY.

THE STRIKERS' TRIAL

Judge Fisher Apologises.

Woodland, Aug., 1.—At the opening of the train wrecking case this morning Justice Fisher apologised for having called Worden a vile name yesterday evening. He said that he should have held any of the attorneys accountable for such language as he used.

Almost the entire morning session was consumed by arguments, quarreling and bickering among the attorneys. But for the interference of others attorneys Cook and Gaddis would have come to blows. Gaddis openly charged that false testimony had been given for the prosecution and that the attorneys for the prosecution countenanced it.

Witness Read, one of the armed A. R. U. men who went to Sacramento from Duasmuir, and who was examined at length yesterday afternoon, was on the stand the entire morning.

Nothing New From the Orient.

Washington, Aug. 3.—The only telegram of public interest received at the Japanese Legation today related to the request made by the Japanese Government concerning protection to be afforded Japanese interests in Pekin by the American Charge d'Affairs there. The Legation is without official news concerning the reported repulsion of troops at Asan. Considerable doubt exists in the minds of the officials as to the exact location of the place.

The Boy All Right.

The young five-year-old son is Mr. McKenzie, who was reported lost yesterday is alright. He got mad at his mother for some trifle and went over to Cagwin's barn where he slept all night to give the old folks a scare.

A REPUBLICAN'S QUESTION.

He Asks if the APPEAL Believes in Free Trade.

ED. APPEAL:—In perusing one of your editorials recently I found a good deal in it that led me to believe that you were an open Democrat free trader. Is it possible that you are going back to the old party that you turned your back on when you left the Comstock.

As there has been some discussion among acquaintances of mine as to whether you believe in free trade or protection I have taken the liberty of asking you directly and I hope you will print this letter in the APPEAL.

Of course you understand Mr. Editor that the fate of the country does not absolutely depend on which side of the case you take, but I take the liberty of asking the question all the same.

Yours,
AN OCCASIONAL READER.

[We dont know where the above came from but judge from his signature that he is one of those "occasional readers" who borrows his paper from his neighbors stoop whenever he gets up early enough, and is never a regular subscriber.

The APPEAL has never yet advocated free trade, it has always advocated protection, but it believes that in the American Union the mantle of protection should not be cast over one state to the detriment of another.

Uncle Sam now has 45 children and we hope to see him treat them all alike. We dont want to see the protected iron barons of Pennsylvania dressing in purple and fine linen, while the silver miner of Nevada is in rags. What would you think of a father who lavished all his wealth on a few favorite children and let the rest starve. The protection given to the manufactures in the East is clearly at the expense of the West if Western states are refused equal protection. We should not be asked to pay two prices for all the manufactured articles we use when our own industries are ignored.

We believe that the West as a unit should fight the proposition of protecting the East until we are also allowed to have a finger in the pie. Patriotism and devotion to party is goodbut, we want protection out here worse than in any country, and when the West has power to defeat the bills of the protected industries of the East, then can we demand and get the recognition for silver that we are now fighting for. ED. APPEAL.]
