

OUR FRIENDS IN THE EAST.

The Republican papers in Nevada are endeavoring to make the citizens of this State believe that the silver cause is dead in the East, and that the Silver party in Nevada is as dead as a mackerel. But the Silver party in Nevada is not only better organized than ever, but the outlook in the East for the new party is brighter than at any time since the great currency movement started.

The Chicago Record says: Chicago is to be the national political center next year and silver will be the dominant issue in the Presidential campaign.

This statement is made by a man who is recognized as a leading factor of the silver propaganda, and it was conceded by a number of conservative financial men to be the only logical conclusion which could be drawn from a series of recent events. A plan of campaign has been laid out which will bring the leaders of the silver propaganda from Denver to Chicago, and already the boast is made that "Silver will split the Republican and Democratic parties, and that the Allegheny Mountains next year will be the great divide which separates the yellow Atlantic Coast from the white Mississippi Valley and Pacific Coast."

This plan contemplates an arbitrary demand on both national conventions, for it is said that the Silver men of both parties have arrived at a perfect understanding in the matter, that a plank for "free silver coin at a ratio of 16 to 1, independent of other commercial nations," must be placed in the platforms of the respective parties.

According to the Record, if either or both conventions refuse to be dictated to by the aggressive silverites, the silver delegates will withdraw and an independent silver party will be formed with its head quarters in Chicago.

The first choice for the leader of this political enterprise is Congressman J. C. Sibley of Pennsylvania, a Democrat. Second choice falls upon R. P. Bland, of Missouri, Democrat; W. J. Bryan, Nebraska, Democrat; Senator H. M. Teller of Colorado, Republican, and Senator J. P. Jones of Nevada, Republican.

It is taken for granted by the silver men that organized labor and the People's party will come with them to form the silver party and they have expressed a willingness to accept governmental control of transportation provided that this modification of plank 10 is made a subordinate issue to free silver.

An organized movement for the purpose of sending delegates to the Democratic National Convention is well under way in the Northwestern States, and is paralleled by a similar movement on the part of silver Republicans. The progress of this preparatory work has arrived at the tangible degree, and the various State committees of both parties are beginning to watch it closely.

A Bad Blunder.

Through the blunder of some attaches of the Senate, Tony Kramer loses the \$250 appropriated for him by the Legislature. The money was appropriated because of the fact that he became blind in the service of the State.

After the bill passed both houses he purchased a house and expected to pay for it with the money appropriated, but the bill never reached the Enrolling Committee.

Yesterday a search was made for it by the Secretary of State and it was found tucked away in a pigeon hole in the Senate Chamber where it had been lying ever since it passed. It was endorsed on the back, "Sent to enrollment," but it never got out of the pigeon hole, and thus by clerical negligence Mr. Kramer loses \$250 at a time when he is in great need of the money as he is blind and incapacitated from earning a living.

This is not the only instance of bills being lost through negligence. Senate bill 81 was lost in the Enrolling Committee for at least an hour on the last night of the session. It was sent to the committee before it was passed and but for the fact that friends of the bill were watching every turn for just such little tricks, the bill would never have become a law.

Two years ago a bill fixing the salaries of Deputies at \$1600 a year passed both houses and was "lost or stolen" somewhere along the line and didn't turn up until after the session was over. By reason of this piece of "funny business," the present deputies lose \$33 a month in their salaries. It is time that the attaches of both Houses be held responsible for bills that reach them, and a law hold-

ing back their salaries until all work is properly disposed of, would be a good one for the next Legislature to put on the Statute books.

The Legislature very properly knocked out Sam Davis's bill authorizing the publication of Supreme Court decisions at a fixed price. All the respectable dailies are willing to do the work for nothing. Walker Lake Bulletin.

One has to wander away down into Esmeralda county in order to learn Legislative news. There was no bill before the Legislature authorizing the publication of Supreme Court decisions at a fixed price. There was a bill providing for the publication of the decisions with no limit to price and it was promptly killed as it should have been. We don't know where the bill came from, but the APPEAL in its editorial columns fully concurred in the killing of it.

William Waldorf Astor has dropped \$2,000,000 in his London newspaper adventure, and is now ready to become an American citizen again. There is no school like that of experience.

Still Mr. Astor should not have quit the newspaper field until he had a chance at Carson journalism. There is still room for another paper here. We think Astor just the man to make the attempt. It don't require much capital and the town is anxious for more papers.

Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horse man should be without a bottle. Benton's Liniment is for sale at all drug stores.
