

THE MORNING APPEAL.

The Official Paper of Ormsby County
WEDNESDAY.....MAY 15

ALL SORTS.

The City Trustees have been sworn in.

There ought to be a gymnastic club in this city.

California is raising more flowers than potatoes this year.

The Guards have accepted the invitation to act as escort of honor to the G. A. R. on Decoration Day.

The San Francisco steamer Puebla, arrived at Victoria, reports the Mogul ashore near Cape Flattery and likely to prove a total wreck.

Edward Ranlett, convicted in Martinez of the murder of his brother, was sentenced to twenty-five years' imprisonment at Folsom.

Jacomo Moretto and A. D. McDonald were crushed to death in the Rarus mine, near Butte, Mont. William Bowen had his right leg badly crushed.

The APPEAL editor asked a clergyman of this city yesterday if he was willing to pray for rain. He said he would let us know as soon as he consulted the barometer.

Joe Garavante wishes the announcement made that his wife has skipped out with a man named LeCount, and he will not be responsible for any debts contracted by the pair.

The Record Union charges that several newspapers in San Francisco have contingent fees coming from the Blythe estate. The same thing was true of the Postoffice site controversy.

"Call this good beef?" asked a man in a Carson restaurant. "Yes indeed," said the waiter, "it came all the way from Texas and if hadn't been good beef it wouldn't have stood the trip."

The State University has issued a pamphlet on the flora of the Truckee Valley in Washoe County. There are several other counties in the State that grow wild plants outside of Washoe.

The Ladies Cycling Club of Tiffin, Ohio, have had a battle royal over the skirt and bloomer costume. The vote stood 7 for skirts and 6 for bloomers. The girls with thin calves voted against bloomers.

The California papers say that as soon as it is known that a new railroad is coming to a town the landlords begin to raise the rent and the price of land. The railroad octopus loosens its grip and the landlord octopus tightens his.

C. Meyers, the carpet weaver and conservatory man advertises in another column to sell plants, bulbs, roots and flowers and also weave carpets. There is no need of sending to Sacramento for flowers on Decoration Day when Meyers has all you need.

Joe Flemming, a professional swimmer, has been working a new racket on the public. He has a confidant who jumps overboard from a ferry steamer and like a flash Flemming jumps after him. He is rescued and another confederate passes the hat and the three divide the boodle. Flemming played it once too often and is in jail.

A Harvard professor has opened a regular Pandora box upon the people of Massachusetts. He imported a single gypsy moth. A high wind blew away the netting in which the moth was confined, and it escaped. Millions of the insects have been propagated and the prospect is that millions of dollars will have to be spent before the pest is exterminated.

Superintendent Adams took Inspector Mason to Lake Tahoe yesterday for a short trip. Last evening when they were looking at the glorious mountain sunset, the faint tinge of gold and copper color in the clouds attracted Adams' attention.

"What does that remind you of, Mr. Mason?"

"A counterfeit melt that has been pickled," was the reply.

Ice Cream Soda.

Dauby's Ice Cream Soda Fountain opened for business yesterday, and the heat drove half the population of Carson there to refresh themselves. The cream and the soda are as good as you could expect in Paris.

When Baby was sick,
We gave her Castoria.
When she was a Child,
She cried for Castoria.
When she became Miss,
She clung to Castoria.
When she had Children,
She gave them Castoria.

DOTEN ON THE SHORTAGE.

His Views on the Question now Agitating Carson.

Alf Doten sends the following to the Reno Journal:

Leakages, mistakes and difficulties in making the accounts and books balance properly have been shown extending back of the present administration. It developed early in the Jones examination and was repeated on cross-examination last Friday that before Melter and Refiner Zabriskie died, about a year ago, he found himself obliged to purchase about 600 ounces of silver in order to make up a shortage in that metal developed in his department. His assistant, Jones, advanced the money, taking Zabriskie's note therefore, thus making the account all right with the Government.

The allowance officially made for loss in melting and refining is liberal and with good work and management have given a balance on the side of the refinery, but not always by any means, as has been shown. Zabriskie died poor, but with an unassailed reputation for strict honesty and integrity.

Henry, the man who above all others is said to be able to explain the whole matter perfectly, was allowed to get out of the way, and has not been caught by those apparently most interested in doing so. It is even stated that Henry is not wanted least he might implicate some of his superior officers. It has never yet been shown that a detective was actually on his trail or near enough to serve a warrant upon him. Yet it has been and still is, openly stated that Henry can be found and produced in court at short notice if really and officially desired.

All sorts of stories have been circulated as to the whereabouts of Henry since he was at Los Angeles, Cal., on April 2nd. Some even say that he struck out across Mexico, going direct to South Africa to open an assay office at Johannesburg. But he is nearer home than that now.

The proposal of Attorney Woodburn to produce him in court is no humbug by any means. All he asks is to be vested with the power and full authority of Deputy U. S. Marshal, with the stipulation that the prisoner shall be left wholly and entirely in his charge, with no interference from any other officials, and he will bring Henry to Carson inside of a week. As Henry's attorney he has advised him from the first to front and face the music. But he does not propose to have him bounced upon by the prosecution and crowded out of a fair show of defense. If Henry can solve the problem in behalf of the Government and show up the really guilty parties, including himself, it would seem to be excellent, judicious policy to have him do so.

To Appoint a Senator.

Washington, May 13.—The probability that Governor Watson will appoint a Senator from Delaware to succeed Senator Higgins is considered sufficiently strong in political circles here to cause a general speculation as to what would be the chances of his being seated. The history of the Senate does not furnish a parallel case to that which would be presented in case of such action by the Delaware Governor, but it is more like the case of two years ago presented from the States of Wyoming, Montana and Washington than any other. It would be similar to those in so far as it would involve the Governor's right to appoint when the Legislature has failed to elect, but it would develop other questions, important among which would be the right of the Governor to act in the capacity of State Senator while filling the executive office.

The cases of the Northwestern states also differ from that which would be presented from Delaware, in that there was no counter claimant in any of them.

To Represent Nevada.

Governor Jones yesterday addressed a letter to the Director of the Mexican Exposition, which opens in the City of Mexico, April 21, 1895, naming the following gentlemen to represent Nevada: Evan Williams, Carson; W E Lindsay, Carson; James A Yerington, Hawthorne; John Sparks, Reno; Geo Nixon, Winnemucca; Ralph Nichols, De Lamar; J E Stubbs, Reno; R M Catlin, Tuscarora; W N M Sill, Ely; H C McTerney, Eureka; T Farnsworth, Austin; W L Godbe, Bullionville; J Pougade, Carson and J E Gignoux, Dayton.

A. W. Lee of the Press ought to go into the engraving business. He cut the picture of a tramp out of a piece of pine with a file and jack knife that was a very creditable piece of work.

The San Francisco Argus asks if Jones has the right lawyer. Answers to this conundrum can be filed with Commissioner Edwards.

A Chance for a Turn.

The S. F. Wave has the following in connection with the H. & N. suit:

A small fortune awaits the penetrating person who will bring to Pine Street authentic information on "Hale & Norcross." In the mine itself no one is particularly interested, for the pay shoot has been diverted to San Francisco, and the Supreme Court is the battery in which the ore is being crushed. Unfortunately that institution takes a long time to announce its returns, and no one has yet the faintest impression of the amount of bullion it will apportion the shareholders. By a vigorous effort of the memory, one recalls that Judge Hebbard, two or three years ago, gave a verdict for something over a million. That his figures will be followed by the Court of last resort seems more than even the sanguine are entitled to expect. They suspect a discount, for I have it there is no escaping evidence or conclusions but what Pine Street wants to know is—how much of a discount? The value of the stock hinges on the amount of its verdict. If for quarter of a million, shares will go about a dollar above present quotations, and no one will make much. But if it is half, or three quarters, or the million, then Pine Street can have a market for "Hale & Norcross," and the man who first knows the news is in a position to make a pretty turn.

And what efforts the knowing ones are making to find out! Every friend and relative of the Justices has had made him or her some special proposition, and one and all, more or less, I suppose, have approached their particular oracle. But not a syllable. The jurists are as mute as the proverbial oyster—not a syllable. So Pine Street still "wants to know."

V. & T. Election.

The stockholders of the V. & T. railroad held their annual election in Virginia City yesterday. The following Directors were elected: D. O. Mills, F G Newlands, H. M. Yerington, D L Bliss, J W Eckley, W E Sharon, W E F Deal, J E Wrafton and Geo Mills. At a meeting of the following officers were elected: D O Mills, President; H M Yerington, Vice President and General Superintendent; E B Yerington, Secretary; D A Bender, General Freight and Passenger Agent; Bank of California, Treasurer. The Vice President made the following appointments: W H Kirk, Chief Engineer; W E F Deal, Attorney; Geo Mills Auditor and Paymaster; A M Ardery, Supt of Telegraph and Master of Transportation; Hume Yerington, Supply Agent; I N Fording, Master Mechanic; Charles Brulin, Master Car Builder, Joe Castle, Master Car Painter.

Company F Election.

Company F has elected the following civil officers for the ensuing year: President, Wm Hy Doane; Vice President, J M Benton, Jr.; Secretary, Tom Tennant, Jr.; Financial Secretary, D G Kitzmeyer; Treasurer, Geo W Kitzmeyer; Trustees, Geo Cowing, J W Holbrook, Geo Cagwin; Captain of Shooting Team, George Cowing.

A Superior Judge in San Francisco was informed by a litigant in his court that the San Francisco Post had proposed for \$500 to publish a favorable report of the trial of the litigant. Judge Belcher directed the District Attorney to investigate the incident. The report completely exonerated the Post, but we have information which we deem reliable that the District Attorney in his investigation discovered the unmistakable evidence that the proprietor of a San Francisco paper did approach the litigant and did offer for \$500 to publish a favorable account of the proceedings in court in which he was defendant.—Record Union.

This is pretty plain talk. What has the District Attorney to say of it?

Tramps fired at the conductor of the Portland overland at Sacramento Sunday night. The conductor was attempting to put them off the train.

Awarded Highest Honors—World's Fair

DR. PRICE'S CREAM BAKING POWDER
MOST PERFECT MADE.
A pure Grape Cream of Tartar Powder, Free from Ammonia, Alum or any other adulterant.
40 YEARS THE STANDARD.

A. COHN'S
