The Winnemucca Silver State reports the arrival at that place of W. H. Stanley, a Virginia City mining expert. He left for Willow Creek, to look at mines in that part of the county. He was accompanied by C. B. Hanson.

Henry Bash of Winnemucca has purchased a gold-washing machine, the invention of John Frye of Paradise valley. The Silver State says a number of the machines are being successfully used in California, and orders for more have been received.

George Weston, who has been fixing the pipes at Steamboat Springs, found on a section of pipe recently about two and a half inches in diameter which was almost filled with a deposit of pure crystals of silica and soda. It was supposed that the Springs had ceased to flow, but the cause was the filling of the pipes by the deposit. When the pipe was drilled out the water shot through as of old to a height of several feet and at a temperature above the ordinary boiling point.

William W. Wright, who had an eye injured during the sham battle at the late University encampment, is improving, having had to undergo a serious operation. His eye was cleansed of the powder, and the oculist told him that he would not only have lost the injured eye entirely, but would probably have lost the other had he not attended to it immediately. He was allowed to sit up for the first time last Friday and is expected home in a few days.—Journal.

THE CORRECT THING.

Forms of Etiquette to be Used With U. S. Prisoners.

It is said that Heney will not surrender himself because he has not been assured of fair treatment.—News.

The above gives rise to all sorts of questions of etiquette in dealing with U. S. prisoners. The APPEAL would suggest that the citizens call a meeting and decide on the sort of treating a man ought to receive who is supposed to have stolen \$22,000 worth of bullion from the U. S. Mint.

By way of suggestion it would seem that a military parade and procession of citizens to wind up with a ball and banquet, would be about the proper way to treat Heney when he shows up.

The APPEAL called on officers Grant and Humphries yesterday and found them disputing. Humphries thought Heney should have a ball, brass band and fire works, but Grant who is fresh from Chicago and has literary tastes, thought the reading of a poem by the News editor, and an oration by Tremor Coffin, would be the business to give the affair the correct literary swag.

A thousand dollar bail bond presented on a silver plate with the names of leading citizens on the bond, seal of State and blue ribbon with an engrossed copy of the apologies of the arresting officer, would be all that could be desired. In case of absolute confinement, Lake Tahoe trout, Washoe quail, and Bay City oysters, a la poete, should be guaranteed by the Government before the prisoner would consent to a cross-examination on the stand.

The reporter asked Mr. Humphries if it was a fact that he arrested Jones on a rainy day as charged. He said it was not actually raining at the time, but it was cloudy and such weather might be a trifle depressing to the prisoner. He blamed the signal service man however, who predicted a clear day. He had forwarded a complaint against the weather service to the Weather Bureau at Washington and should endeavor to have the man fired. It has always been his aim to arrest U. S. prisoners on clear days, in order that they might feel cheerful and happy at the time. In future he had rather see a man get away than to have the weather wrong when he is nailed. He wishes to say in his own defense that he did not use an umbrella on that day as he did not deem it absolutely necessary.

MEMORIAL DAY EXERCISES.

For Free Silver.

New Orleans, May 22.—State Treasurer John Pickett is in New Orleans to arrange for a convention of free silver men next month in order to place Louisiana in line with other Southern and Western States. Pickett declares that North Louisiana is practically unanimous for free coinage, Governor Foster and the supporters of the State Administration favor the gold standard. It was decided to-day to hold a silver convention next month.

CONGRESSMAN TOM WATSON

He Believes There Will be United Opposition to Contraction and Class Rule in 1896.

In a letter on the political situation and the probability of the success of the free coinage men in 1896, Congressman Tom Watson says:

I do believe that an understanding will be reached between the Populists, the American Bimetallie party and the free silver elements of the Democratic and Republican parties which will amount practically to the formation of a united opposition to the extreme contraction, protective, corporation and class rule tendencies so developed in the policies of such Democrats as Cleveland, Brist, Gorman, Bayard, Hill, Vilas and Olney, and of such Republicans as Sherman, Allison, Reed and McKinley.

Disguise it as we may, the feeling exists that a life and death struggle has begun between the principles upon which this Government was founded and the principles against which its formation was a protest.

The question is, can we restore the landmarks of the fathers? Can we defend the heritage of the Revolution, against the socialist, anarchist, communist, on the one side, and against the plutocrat, the corporate feudalism, the special privileged millionaires, on the other? I believe it can be done, and that it will be done. But a union of all the anticlass rule elements is absolutely necessary.

To bring about this union without any sacrifice of principle will be a heavy task, but I believe that honest, earnest able men are now at work upon hopeful lines and that the result aimed at will be accomplished by 1896.

I am a Populist from the shoe up, but I will work heartily with any man who opposes the Rothchild-Cleveland policy and the utter destruction of our liberties which it threatens.

Excepting a strong opposition in the cities where the banks naturally control many business men and many newspapers, the anticlass rule elements I have mentioned would carry with them almost everybody in this State who does not hold an office.

No Digging Done

The stories about people digging for Heney's buried gold are all pure fabrications. Prof. Krall who now occupies the premises, says that he can say without fear of contradiction that no digging has been done on the premises by anybody. The barn is kept locked, and Prof. Krall carries the key. He pronounces the yarns pure fakes.

Keep Your Money at Home.

It should be the policy of Carson people to patronize every home industry. Support those who support the town by living among us and spending their money here. Such a man is Prof. Geo. Lamy, the instructor and tuner. Prof. Lamy's ability in all branches of his profession has been sufficiently demonstrated, and above all he is a resident and citizen of Carson. Engage him and keep your money at home. m12
