ICE. ICE. ICE.

The only pure ice in the market is that sold by Dr. J. M. Benton. It is cut on the Carson River—from pure, running water and not formed on stagnant pools, swarming with animal life. It is ice from mountain water that has its origin in the snow capped peaks of the Sierras and means health as well as coolness to the consumer.

She clung to Castoria.

The Fair Will.

The Administrators of the Fair estate now claim that the second will produced by Mrs. Haskins is a forgery. This state of affairs developed in the fight over the will of James Haskins who died last year. It is charged that his wife, the same woman who produced the Fair will, forged her husband's will.

It is stated that Mrs. Haskins was skilled in penmanship to a remarkable degree often imitating the signatures of her friends for amusement. It is now charged that Mrs. Haskins forged the second Fair will and also that of her husband.

A contest for James Haskin's estate has been commenced by his nephews. If the Haskins will is proclaimed a forgery, the executors of the Fair trust will also charge Mrs. Haskins with forging the second Fair will.

Anything that money can procure will turn in this contest.

Wont Be Undersold.

A man in Douglas county who takes the APPEAL read that Leslie Bell had made a cut on everything he sold. So he sauntered in yesterday and wanted to buy 25 cts. worth of postage stamps for 20 cts. Bell was equal to the emergency, and handed him the stamps, took his quarter and handed him 10 cts. change. The man was quite surprised, but Bell said that the Post Office had made a 20 ct. cut, so he had to go lower or lose a big stamp trade.

It is charged that since the Pacific Mail has been running its steamer lines, the Company has lost over 1,200 passengers. This is a big death roll, especially when one considers, that the big Atlantic Companies run along for years and never lose a passenger. The Colima disaster was due to gross carelessness and bad seamanship, and the more the case is investigated the worse it grows.

People are wondering where Gen. Agramonte is at during the Cuban rebellion. Years ago he and his brother started an insurrection in Cuba and made things dance for a while. They left the Island after the defeat of the insurgents, with a price on their heads. About a year ago Agramonte was in Mexico and his friends have predicted that he would show up in Cuba before long.

General Gordon of Georgia tells the following story of the war period to illustrate the shrinkage of the Confederate currency: "One day a cavalryman rode into the camp on a reasonably good horse. 'Hello, cavalryman, said a foot soldier. 'I'll give you \$2,000 for your horse.' 'You go to blazes,' was the horseman's reply. 'I just paid \$1,000 to have him curried.'"

Hard to Convince.

Well old fellow what do you think of the situation now?

Don't know what you are talking about.

The rise in wheat. It benefits you don't it?

Yes guess it does, have a few tons for sale.

Do you notice that its going up right along side of silver?

Hadn't noticed that part of it.

Well that's what its doing and the silver men have done it. I guess now you are willing to be a silverman yourself.

Not quite yet the Republican party is good enough for me.

Did they send up silver or wheat? No but they saved the country in the war.

Say aint you about through quoting the war of the Rebellion?

I was allurs taught that the Grand Old Party saved the Union.

But haven't they kept your wheat down for twenty years?

Well its been down, but if the Republican party kept it down they must have had some good reason.

If the Republican party insists on keeping wheat and silver down are you still wish them?

Yes, I'd have to be, its hard to break away from old ties. I've allurs voted the old ticket and I ain't going to sell my political principals for a few bushels of wheat. If the Silver men get hold of the country their liable to make things so prosperous that everybody will get dissipated and reckless, better let well enough alone.

Rickey Shot At

Harry Coles has been arrested for shooting at T. B. Rickey. He is held to answer on two charges of assault to murder. His bail was fixed at \$10,000 on each charge. Not being able to secure this amount he was sent to jail.

The above is in the Bodie Miner. It appears that the sheep men near Topez and Tom Rickey don't hitch very well. Sheep men and cattle men seldom do, and the outcome of these old cattle and sheep troubles was a shooting match in which Coles took three shots at Rickey and one just grazed his cheek. The fattened ball was found and will be placed in evidence.
