

STOCK ON THE BOOM.

The Comstock Now Takes the Lead With Ophir.

The days of the old mining excitement seem to have returned with renewed life. The tremendous trading in the Tonopah and Comstock shares bears witness to the interest taken in the mines in this section.

Of late the southern country has been having an inning, but the wise ones have kept their holdings on the Comstock and, from all indications, are about to reach a rich harvest. For the past few days the excitement of the Ophir boom has been intense, and just as much so in this city as elsewhere.

Those who are in a position to know claim that the present development in the Ophir is the most important since the last of the big bonanzas and if the big ledge that is now being developed continues to hold its strength and course the excitement that is sure to follow will compare with that of the days gone by. The recent discovery is in entirely new ground. The latest strike was followed downward from the 2150 level for a depth of 100 feet. At that point sinking was stopped and a large zinc station was opened. From this station southwest and northeast drifts are being run parallel to the ore body. It has been stated it was the intention of the management to crosscut into the ledge when the drifts had reached a certain distance, but recent developments support the rumor that the ledge has opened out a big bonanza. At any rate the appearance of the market the past few days goes to show that something of unusual merit has been encountered.

In this connection a few words regarding the history of the strike would not be out of place. As has been stated before, the ledge was discovered on the 1250 level and followed down a distance of 100 feet. At that the ledge is said to be from six to ten feet wide and assays of an average of over \$130 are obtained. The strike is in the territory that was formerly flooded, and in which it is claimed no ore existed. But before Ophir and fickle fortune have finished their little sennance all the other properties to the north and east of the discovery will be probably reaping like benefits. The ore body lies under the catholic cemetery, and seems to be making in to the territory of the Mexican, Union, and other Comstock properties and from surface indications seems to extend to the seven-mile canyon mines. It is entirely new ledge, in ground that has never been opened and everything connected with the strike promises a bonanza that will again attract the eyes of the world to Nevada.

Yesterday the stock sold as high as \$11.50 per share and was hard to get at that price. The regular weekly letter will be published today and it is predicted that it will be of such a character as will send the stock soaring. The lucky holders of the stock in this vicinity are holding out for higher prices and say they will not sell for less than \$25 and their determination to hold out seems to be backed by sound advice and the event of some big operators in the market, when the shorts begin to fill something is on the tapis.

There is no reason why the ore should not extend downward for a considerable distance. The amount in sight at present is sure to yield at least a million dollars will be extracted from Ophir and other mines. The rumors of the past few days have been many and of all sorts. The general impression seems to be, and it is supported by the rapid advance in values, is that the ledge has increased in size and value as the drifts mentioned above were extended. If the report proves true the scene of twenty years ago will be equalled, if not surpassed. Meanwhile an interested public is waiting anxiously for the developments and the by-word is "What of Ophir?"

Dog Tax.

The time is due for collection of dog tax and the license collector is ready to receive the same and issue tags. All parties having dogs will call at the Marshals office and secure the necessary tags.

Cattle and Horses.

The City Marshal gives warning that all loose stock found on the streets from this time on will be impounded. A strict attention to this parties owning stock will take warning ordinance will be enforced and impounding fines will be imposed in every case.

Wm. Kinney, Marshal.

Narrow Escape.

RENO, April 7.—Hreb Peck, an employe of the electric light company had a very narrow escape from death today. He was on top of one of the light poles when he received a shock that loosened his grip and he started to fall to the earth. Fortunately a horse was hitched under the pole and the semi-conscious man fell onto the animal and bounced into the street. Peck was unhurt and in a few minutes returned to his work at the top of the pole.

No New Developments.

SAN FRANCISCO, April 7.—No new developments have transpired in the murder of the Italian boy, whose body was found on a door step on Taylor street. Fifty of the best police in the department have taken up the matter with the hope of tracing out some clew that will lead to the discovery of the crime.

Kintoscope Tonight.

The Kintoscope opens for business this evening with one of the finest lines of films that have been shown since the place opened its doors.

This home amusement theatre has produced a great deal of pleasure for those who enjoy an hour of amusement and at a very nominal fee. The management is keeping abreast of the times and always secures the very latest in the line of moving pictures. Tonights performance will be a generous scale. Those who wish to thoroughly enjoy life had better be on hand at 8 o'clock this evening.

Big Strike Near Lida.

There has been a big strike at the foot of Mount Magruder, about three miles south of the town of Lida, says the Tonopah Sun. There is a vein two feet wide which assays \$325 across. Ore from the hanging wall assays as high as \$20,000. The find was made about ten days ago, but the discoverers kept it quiet in order that they might secure all choice locations.

Will Be Buried in Oakland.

Deputy Sheriff Mannon the brave officer who was wounded while attempting to capture bandits near Tonopah a few days ago, died at Tonopah Tuesday. The funeral ceremonies were held at the Bonanza camp under the auspices of the Eagles Wednesday morning. Last evening the casket containing the remains passed through Reno en route to Oakland. Interment will be held at that city last week.

May Regain His Sight.

Harry Heller the young musician who was stricken with blindness at Tonopah a few days ago, was improved yesterday, and Dr. Cameron, the attending physician, now has hopes of restoring the young man's sight.—Journal.

Call at Day's and see what pretty embroideries you can get for from three to five cents a yard.

Construction of the Hazen cut-off to Fort Churchill is suspended until a right of way is secured.

pletely furnished, fruit and shade trees, cellar and the best of location. Apply at Mrs. Sha-key's, opposite Central School building. 1w

THE GOLDFIELD TROUBLE Governor May be Called on in the Matter.

GOLDFIELD April 6.—Goldfield is excited tonight. In fact the feeling is so intense that one act or one war or the other may bring trouble.

Deputy Sheriff Jennings is safe. This much is known. He is out on the desert some place between here and Reno to-night but where is a mystery that only the half dozen or more on the inside know. They won't tell.

Jennings has friends in Goldfield, despite his bull pen record from Colorado. He is not popular with the masses though.

To-night two separate meetings were held one by Jennings' friends, the other by men who it is alleged, though not proven, belong to the Miners Union. Jennings' friends are determined that they will not be bulldozed and on good authority it is reported that Governor Sparks will be appealed to for protection. This failing, the President of the United States will be asked to step in and prevent what promises to become a miniature rebellion. It is unfortunate for Goldfield, for those who have the interest of this great camp at heart do not approve of it.

Those intent upon fighting are making an effort to have Jennings brought back here and defy those who seem intent upon carrying out the damnable methods instituted by Governor Peabody of Colorado.

Stealing for a Year

Harry Niblets, a partner in a Reno saloon, was arrested yesterday and charged with theft. He was suspected of being one of the men engaged in robbing cars, and when the officer entered his room they found the place filled with all sorts of plunder. Niblets has been systematically robbing hotels and railroad cars for over a year and he stole articles of every description. A term in prison is sure for the thief.

Believe in Fun.

Citizens of Tonopah and Goldfield have guaranteed a purse of \$2,500 for the purpose of having the D. O. K. s of Reno visit those bustling cities and institute branches of the order.

Suspected of Robbery and Murder

A man named Harry McNamara was arrested in Reno yesterday on suspicion of being the highwayman who held up a street car near Santa Monica, Cal. last summer and in a fight which followed three people were killed.

The Donner Ice Company, at Truckee is now icing 50 cars a day and a large force of men will be engaged in the work for the rest of the season.

The Masonic temple, situated on Sierra street and Commercial Row in Reno, has been sold for \$19,000.

Wm. H. Purviance, one of the old time stage drivers in this State died in the Soldier's Home at Los Angeles on January 24th.

Chas. McGlashan the widely known editor of the Truckee Republican, paid Carson a visit yesterday. Mac don't grow any older than he was twenty years ago.

Fire at Sparks yesterday burned the Union saloon, there being no other water available to fight the flames.

OLINGHOUSE.

District Producing Bullion and Gold Mines.

Richard Bellam, son of Rev. T. L. Bellam, is here from Mojave, where he worked as an engineer. He is also an assayer. He has worked in several of the largest assay offices in the country. He came to Sparks after visiting several of the mining properties at Olinghouse.

He says the Ingalls find of ore, some of which runs \$60,000 per ton, is genuine, and as pretty ore as he ever saw. He says the situation at the mine now promises a wonderful ledge.

The claim of J. H. Sheehan is very rich in gold. The ledge is probably the strongest in the camp and will endure for all time. It will be worked for years.

The Ora group of claims, the Morning Star, the Forlorn Hope, the Belcher, the Wonder, all in the vicinity of the claims recently located by Denver people are all producing ore.

The group of seven claims lately discovered by Denver people show in places ore that gives \$700 in gold.

E. Olinghouse's mine is producing more and higher value than ever before.

The Springfield-Nevada Co's mines are now producing ore.

The placers belong to the D. Cozens & Co. are richer than expected.

Wm. Woodruff's claim, the No. 1 owned by Short Bros. and leased, the Hutchison, all produce high grade ore.

The Emma L. produces ore up to \$7000 per ton. The Nellie has \$10,000 ore.

The mineral belt in which the above mines are found is at least ten miles long and three miles wide, and with thousands of acres open to prospectors. It has been the greatest thing for the poor man ever found in Nevada.

The best way to reach the camp is to go to Wadsworth where the Nevada House, the Wadsworth Hotel and the Columbus Hotel furnish the best of accommodations.

There are some immense ledges of low grade ore in the district and as we are now seeing, some of the richest ledges in the world.

The greater part of the district has not been prospected. Walking over ground is not prospecting it.

Olinghouse offers one of the best fields in the world to make a fortune at mining.—Sparks Dispatch.

To Locate Wells.

There is a man in this city who wants to make a divining rod location of wells and says that he don't want a cent until water is struck at a depth he designates. He says that good artesian water can be had here about Carson at a depth of between four and five hundred feet. He might try his hand on the Captol well.

A Warm Reception.

A couple of men who looked like laborers out of luck were looking for a warm place to sleep Tuesday night and discovered the Southern Pacific Company's "steam box" near the Winnemucca water tank, used for the purpose of blowing out steam to clean out the boilers of the company's locomotives. They crawled way down in the "box," where it was good and warm, and during the night a locomotive pulled up to the tank and turned a stream of hot steam into the chest with all the force of a catapult. The men were blown out the end of the box by the current of steam and were badly scalded.—Winnemucca Silver State.

The Eagle Market.

We offer you choice meats fresh or cold storage as you please, lard, bacon, Hams and Baked Hams in quantities to suit you, eggs and butter, strictly fresh. Are goods are all good, put up in good shape. Our service is good, our prices are good for you. Give us your order for chickens or turkeys, we have them.

S. E. Davis, Manager.

Born.

In Carson City, Nevada, April 5, 1905, to Mr. and Mrs. R. N. Drake, a son.

Sam Follett returned to Truckee last evening.

A two foot vein of \$1,000 ore, is reported as the latest strike three miles from Lida, Esmeralda county.

The weather man is doing his best to stir up another storm. There is plenty of wind at any rate.

Ward has all the latest magazines and novels.

The Emporium Carson City, Nevada

"THE KING" (PLAIN BELTED BACK) COPYRIGHT 1903 MICHAELS, STERN & CO. ROCHESTER, N. Y.

First Class in Every Particular.

A Company That Keeps its Promises.

The following letter explains itself:

Chicago, March 11, 1905.

Mr. F. W. Day, Carson City, Nevada.

Dear Sir:

When showing our line do not fail to impress upon your customers that we guarantee fit and satisfaction. It is an old adage and well read that "A satisfied customer is the best advertisement." This is the kind of advertising that has helped to make us the biggest tailoring concern in the World, and right now, at the beginning of the season, we wish to impress upon you that we will satisfy your customers. The Point we wish to make is simply this: we don't want you to have a single dissatisfied customer. We use the best hair cloth, consequently fronts of our coats will not break. Should however, an exceptional garment lose its shape, do not hesitate to return the garment to us and we will put it back in proper shape and if this cannot be done, we will make a new one for you, no matter how long during the season the customer has worn it.

The same applies to the linings. We guarantee our linings to wear and if any linings do not give entire satisfaction we will reline garments free of charge.

Trusting that you will use your efforts to prove the merits of our made-to-measure garments and with best wishes for a successful Spring business, we are,

Yours truly,

THE INTERNATIONAL TAILORING CO.

P. S. The Spring and Summer line is complete, there are no "Outs" or Temporary "Outs."
