

THE BUSINESS MEN'S MEETING.

An Enthusiastic Gathering at the News Office Last Evening.

The call for a business men's meeting was heartily responded to last evening and the office of the News was filled with promoters for Carson. Mayor Mackey called the meeting to order and Ed. Walsh was elected chairman and A. A. Chrisler, secretary.

Various citizens were called on to express their views.

Mr. Wiard, the first speaker, dilated on the resources of the county and believed that if Carson was properly advertised and all the citizens put their shoulder to the wheel that we would soon have a population of ten thousand. Though a new comer he was earnest in his desire to see better conditions and all that was needed was a general disposition to pull together. He believed in the sure future of the town. The Southern country was booming and the trade could be diverted our way with a little effort and Carson made a distributing point.

Sam Davis held that the lowering of the tax rate would bring the desired population. The present high tax rate was driving away capital and if men from abroad could make money here as had the Philadelphia investors in the Tonopah mines, they would take their money home because of the high rate.

He claimed that bills to right this condition of affairs were always smothered in the Legislature irrespective of party.

There should also be stringent legislation against wild cat mining. The men who were floating sand banks when they could just as easily promote legitimate mines ought to be in jail. Such work was hurting the State.

The University could easily be moved to Carson as nearly every county in the State was for its removal except Washoe.

George Mills believed in Carson and was willing to do his share to help the town. He was willing to stand in with all the energy at his command to further any movement to add to the resources and business of Carson.

J. T. Davis made a strong talk for concerted action. He thought the time had arrived when the people should wake up and unite for the common good. He believed there was enough brains and energy and opportunities to make a first class city out of one of the most beautiful residence places on the Pacific Coast.

Mr. James Woodbury thought the remarks on wild cat mine advertising wasn't just the thing. He said that advertising these mining promoters had done boomed the country and he didn't think a man should go to jail for booming the country. This raised a laugh at the expense of Mr. Davis and Mr. Woodbury continued to talk of town development and assured the crowd that he was in favor of any movement that would build up Carson although he owned no property here.

Ed. Yerlington was asked to tell about the future of the new railroad extension but he said he would give fuller information next week. He is also a boomer like the rest and believes that an organization could be formed that would life the old town to its feet and double the population.

Mr. Minch of the firm of Gray, Reid and Wright stated that he had begun the work of getting up the organization and had found a liberal response to the call. He believed that there were limitless possibilities in Carson and all that was necessary was some definite plan of action and by such an organization as was proposed a great deal of good could be done.

His firm could be counted on to assist in any scheme of town development that could be named.

Mr. Gotwaldt of the News was called on and made an earnest talk for the formation of some organization to make Carson the leading town in the State. Its pure water and beautiful surroundings ought to attract people from all sections. He was ready with pen and voice to help any movement having for its object the furthering of Carson's interests.

After considerable more discussion Mr. Walsh was made permanent President and on the motion of Mayor Mackey he was authorized to appoint a Committee of Seven to formulate a plan for permanent organization and report to the next meeting together with plans for a vigorous campaign along the line.

The meeting then adjourned until next Saturday evening at 8 o'clock.

The greatest enthusiasm prevailed and all sections were united for the common good. There ought to be a rousing meeting of earnest workers next Saturday evening.

TREDINNICK DIES OF WOUND.

Pistol Shot Fired by Pete Garavanta Proves Fatal.

Roy Tradinnick, shot by Pete Garavanta last Friday, died at 8:30 Saturday evening. Dr. Pickard removed the bullet which penetrated to within one inch of Tradinnick's heart, puncturing the pleura of the left lung in its course.

After being shot young Tradinnick informed his father that he went to the Garavanta home to invite Peter to have supper at the Tradinnick residence. Peter told Tradinnick to get out or he would shoot him and snapped the revolver, with which the wound was inflicted, at Tradinnick two or three times before it was discharged. Young Tradinnick ran to his home and fell prostrate when he entered it.

Drs. Pickard, Sullivan and Hodkins performed an autopsy on the body of Kuhn's underlying rooms yesterday morning and found that death resulted from internal hemorrhage. The bullet had not penetrated the left lung but splintered one of the ribs.—Chronicle.

Ore Shipments.

The ore shipments over the Tonopah railroad this week aggregated 1896 tons, of which 377 tons came from Goldfield. The shipments are divided as follows: From Tonopah—Tonopah Company, 695 tons; Tonopah Extension Company, 490 tons; Montana Tonopah, 130 tons; Belmont, 125 tons; Midway, 30 tons. From Goldfield—Columbia Sampling Ore Company, 377 tons. From Reveille—Southwestern Nevada Mines Company 49 tons.—Miner.

Got Two Years.

Chas Guillelte, who was tried for assault with a deadly weapon and Genoa was found guilty and sentenced to two years in the penitentiary. Guillelte came to this section with a young woman whom he placed in a house of prostitution. After a disagreement with her he went gunning and was safely landed in the cooler. He has evidently received a small proportion of what he richly deserves.

New Line to Tahoe.

Articles of incorporation by the Sacramento and Lake Tahoe Railway Company, which has for its object the construction of a road from Sacramento to the State line, was filed yesterday. The line will be 125 miles in length and will be built from Sacramento via Folsom and Placerville. Three branch roads twenty miles in length will tap different cities along the line of the road. The road will be operated by either steam or electricity or possibly both.

The capital stock of the company is fixed at \$7,500,000 to be divided into 75,000 shares, having a par value of \$100 each.

John Wilson leaves for the Com stock this morning where he will be employed.

WANTS TO KNOW.

Franklyn Leonard, Jr., Asks Some Direct Questions.

NEW YORK, Sept. 24.—Franklin B. Leonard, Jr., defeated Democrat candidate for Congress in the seventeenth district of this city, addressed an open letter to Mr. McCall, president of the New York Life Insurance Company asking how much of his money paid on life insurance policy had been used to defeat him.

The letter was prompted by the testimony of McCall that he ordered \$48,000 as a contribution to the Republican campaign fund in 1904. The letter says that if a district was close or doubtful much money was used, and concludes:

"I would like particularly to know how much of the money paid in trust to your company for my little family after my death, together with the funds of more than 23,000 other democrats and friends who cast their votes for me, was used to bring about my defeat and to defeat the will of those voters. I venture the opinion that even my opponents hardly advocate the using of my funds and the funds of thousands of other policy holders in this manner."

Ray Will Pay the Bill.

TRUCKEE, Sept. 24.—John Ray, who attempted to escape jail by the sewer route in the town bastille last night, and who came near meeting with serious results as a consequence was released to day upon his promise to pay the cost of rebuilding the portion of the jail destroyed in the work of rescuing him from the pipe. Ray was just returning from a tour of England and is headed for Mendocino county, where he resides. His escapade will cost him about \$150 according to the latest estimates.

Disgrace to the State.

The Caliente Express says that the rottenness disclosed in the financial affairs of Lincoln county is a disgrace to the State and declares its determination to ferret out the thieves who have been plundering the county treasury.

Born.

In this city, September 24, 1905, to the wife of John J. Winters, a son.

Fireman Weinrich was probably fatally burned by the explosion of the tank of an oil burning engine near Summit station on the S. P. last Thursday.

Wanted—A first class Japanese cook wishes a position as cook in a family. Will cook for \$25 per month. He would also like an opportunity to learn English and will work very much cheaper if some one connected with the family will give him instruction in English for an hour or so each day. Leave word at this office. S254t.

William Wilson a Truckee barber, absconded from that town last Friday after borrowing \$150 from an acquaintance.

A PRISONER ESCAPES.

John Read, From Washoe, Scales Walls and Makes Clear.

Sunday morning John Read, a prisoner confined in the penitentiary and sent there for an attempt to murder, scaled the walls of the prison and is a free man for a time at least.

Read, who was employed in the bakery, selected an opportune time and about 7 o'clock Sunday made his way clear. He evidently left the bake shop and then scaled a pipe leading to the roof, where he crept along and went through the back yard and there into Smiths field, taking a course toward Clear Creek canyon, as his tracks were found in that locality.

Trailers were immediately put out and the man was followed as far as Pedrolli's ranch, when darkness came on and the search had to be given up for the time. Yesterday additional trailers were put out and as they it is more than likely that the man have guarded every avenue of escape will be back in his cell before many days.

He is a fourteen-year man, sent up from Washoe county for shooting a man with whom he was traveling in a box car. He was arrested in Reno and identified as the man who committed the crime by a third occupant of the car.

The case was an interesting one because of the fact that it was difficult to determine whether the crime was committed in California or Nevada, and there were several efforts made by the defense to secure a change of venue.

There is a reward of \$50 for his apprehension, this being the amount provided by the State for such emergencies. Read's description is apt to distinguish him. He is five feet, six and one half inches tall, weighs between 150 and 160 pounds, wears a No. 10 shoe, has blue eyes, brown hair and a fair complexion. On his left hand and near his wrist is a scar an inch and one-half long, and his body is scarred on the back there being one scar some distance below each shoulder. On the inside of his right arm, just below the elbow joint is tattooed in red and blue India ink an eagle and a flag. But the most distinguishing feature is the rolling gait peculiar to seafaring men. This, together with his shifty eye, which appears incapable of meeting the gaze of any observer, are two marks that would make him noticeable in any company.

DIVORCE MADE EASY.

Nevada Statutes Permit Commencement of Action Where Litigants Last Lived.

An important ruling was made by Judge B. F. Curler yesterday in overruling a demurrer in a divorce case which decides for the first time in this state the conditions under which proceedings for a divorce may be instituted.

In the case of Anna C. Marcotte against Harry Marcotte, the court's hold that a divorce suit may be brought where the litigants to the action last lived together, or at the place where the defendant resides. Where the divorce is brought at the place where the plaintiff resides it is necessary for the person seeking the divorce to establish a six months' residence before proceedings can be instituted.

The prevailing impression has been in this state that under all conditions it is necessary for the plaintiff to establish a residence here. But under Judge Curler's decision if the parties have resided here for a few days, and this is the last place where they have lived together as man and wife, suit may be instituted here. Proceedings may also be brought at the place where the defendant resides.

In the case at issue the court granted alimony of \$60 per month to the plaintiff and allowed Mrs. Marcotte \$75 as attorney's fees and \$75 costs.—Journal.

Murderous Assault at Hazen.

E. L. Hall, timekeeper for the Hazen construction crew, was struck on the back of the head by assistant agent Willis, with the barrel of a shotgun, while seated at his desk last Saturday. The blow caved in Hall's skull and he is likely to die. The assault was the outcome of a dispute over the use of telegraph instruments in the Hazen office. Willis is under arrest.

Thomas Record, a sick miner, has disappeared from Goldfield, and his friends are of the opinion that he has strayed off somewhere and died as a thorough search has failed to locate his whereabouts.
