Wanted

To get in touch with property owners about to paint. HAMMAR paint costs the least because it takes less and lasts longer. Denbo & Nicholson Co. Ltd.

Nap for Italian Soldiers. Soldiers in the Italian army are allowed two hours in the middle of the day for a nap.

London's immense Population. One out of every seven of the inhabitants of England is a Londoner.

Had Forgotten His Own Work. Edmund Burke once showed a painting to Sir Joshua Reynolds, whose opinion he invited. Sir Joshua looked long and attentively at it. "Well," he said, "I really don't know what to say. It's a cleverish thing, but whether there's sufficient promise in it to justify my advising the young man to adopt art as a calling I really cannot say." It was Reynolds' own work done many years before.

Monster Sea Snakes. Sea serpents date back to the days of Aristotle, who wrote: "The serpents of Libya are of enormous size. Navigators along the coast report having seen a great quantity of bones of oxen, which they believe without doubt to have been devoured by the serpents. These serpents pursued them (the seamen) when they left the shore and upset one of their triremes."

Wage War on Mosquitoes. The Paris Academy of Medicine, in view of the excellent results obtained in divers countries by the mechanical protection of houses against mosquitoes, has resolved that the military authorities should adopt similar precautions, more especially in the French colony of Madagascar, where mosquitoes which spread malaria abound.

Beads and Pebbles. In Africa the sorcerer carries a small bag of pebbles as an essential part of his equipment. Modern cylindrical glass beads are descended from the beryl and quartz crystal. Babylonian cylinders, Egyptian scarabs and Mycenaean gems are not, as has been generally supposed, primarily signets, but amulets.

The advantage Chillifuge has over the numerous chill tonics, is that it contains not only the alkaloidal Quinine treatment, in a tasteless form, but all the other medicines which are Anti-Malarial. In taking this remedy in its palatable form you practically get the benefit of all the combined chill tonics in use. Again a great many had Quinine Pills and Capsules pass through the stomach and bowels undigested, where as Chillifuge is soluble and readily absorbed by the most delicate stomach, and if taken according to directions, you come under the influence of it before the next expected chill, which is a most important factor, when it is understood that chill No. 3 of the congestive type is a most serious consequence, even if it does not actually prove fatal. So you can readily see the importance of having a mixture that contains all the Anti-Malarial drugs, and in a form that is absorbed by the stomach so as to prevent the re-occurrence of the Malarial Paroxysm.

Work of Women's Clubs. According to a feminine writer, the work of the woman's club is threefold—to educate its members mentally and morally; to create public opinion; to secure better conditions of life. Its worth, personal and social, is in proportion to its effectiveness in securing these ends.

Chinese Gamblers. In China drunkards as well as total abstainers are almost unknown. Gambling debts are pre-eminently debts of honor there and are more willingly and speedily paid than any others. To pay them a Chinaman will pawn all his property and even sell his children.

A Telephone Conundrum. The Reading Hustler asks: "If Ann is 24 years old and goes out into the orchard and eats a green apple and gets the colic, what is her telephone number?" and a contemporary replies. "You might try sick's sicksty, but the chances are that the line is 'busy.'"

Trick of Magnetic Needle. A German professor says that over a large area of central Russia the magnetic needle does not point north or south. It is in one part deflected to the west, and at another part deflected to the east, and at one place it points due east and west.

Pears! By the dozen, bucket or barrel. Preserving pears 5 cents a dozen, 25 cents a bucket, \$1.00 per barrel. Eating pears 10 cents a dozen, 35 cents a bucket, \$2.50 per barrel. Prompt delivery. Address P. O. Box 35. 7-20-4t.

Notice. Road taxes are now due and will become delinquent August 15, 1904. LOUIS LACOSTE, Sheriff and Ex-officio Tax Collector. Lafayette, La., July 11, 1904.
