The advantage Chillifuge has over the numerous chill tonics, is that it contains not only the alkaloidal Quinine treatment, in a tasteless form, but all the other medicines which are Anti-Malarial. In taking this remedy in its palatable form you practically get the benefit of all the combined chill tonics in use. Again a great many had Quinine Pills and Capsules pass through the stomach and bowels undigested, where as Chillifuge is soluble and readily absorbed by the most delicate stomach, and if taken according to directions, you come under the influence of it before the next expected chill, which is a most important factor, when it is understood that chill No. 3 of the congestive type is a most serious consequence, even if it does not actually prove fatal. So you can readily see the importance of having a mixture that contains all the Anti-Malarial drugs, and in a form that is absorbed by the stomach so as to prevent the re-occurrence of the Malarial Paroxysm.

The Fate of Empires.

Empires tower and fall, and statesmen wonder why they don't totter and fall when speeches are made saying that the ultimate is reached. Thus empires show wisdom, and the statesmen the other thing.

Handsome Bible.

The most beautiful volume in the Congressional Library at Washington is a Bible which was transcribed on parchment by a monk in the sixteenth century. The general lettering is in the German text, each letter is perfect and there is not a scratch or blot from lid to lid. Each chapter begins with a large illuminated letter, in which is drawn the figure of a saint, some incident of whom the chapter tells.
