Alum in food causes stomach disorders—Its continued use means permanent injury to health.

Following the advice of medical scientists, England and France have passed laws prohibiting its use in bread making.

LA FRANCE SHOE For Women

In shoes, as in many other things provided for your use, comfort and satisfaction, it's the parts you don't see which generally determine the true value.

The toe-box which supports the tip is a fitting example.

Because of the prominent position of the tip, its breaking down destroys the appearance of the entire shoe.

The "La France" particular way of preparing the toe-box assures a lasting life and tone to the entire shoe.

TOE BOX. Made of best leather procurable; scrupulously selected, tested and inspected; and carefully prepared by unique methods which guarantee its durability, and rigid, shape-retaining qualities.
