The Mayor's report showing a total collection of fines in Mayor's court for the month of June of \$22 was read to the Council and ordered filed.

There being no further business on motion duly seconded the Council adjourned to the following day, Friday July 8, 1910, at three o'clock p. m.

G. A. MARTIN, Mayor.  
DAN DEBALLON, Secretary.

Lafayette, La., July 8, 1910.

A continued meeting of the Council was held this day with Mayor Martin, presiding, Messrs. Caffery, Broussard, Cunningham, Mouton, and Montgomery, present, and Messrs. Pfefferkorn and Doucet, absent.

The Finance Committee reported to the Council that as far as it could ascertain that out of the lists of delinquents furnished by the collector under section five of the ordinance adopted March 7th, 1910, to the Superintendent of the water and light plant, who was required under section six of said ordinance to cut off the said delinquent consumers of water and light, had failed to cut off consumers who were indebted to the town in the sum of \$95.50 less \$42.65, paid by some since the reception of said lists by the Superintendent, leaving a balance due the City of \$52.85; that under Section 6 of said ordinance if the Superintendent failed to cut off said delinquent consumers after having been notified by the collector, that he would become personally responsible for the amount of loss sustained by the result of his non-compliance with the ordinance; and that as a result, the committee would recommend that demand be made on the said Superintendent for said balance due of \$52.85.

Moved, seconded and carried that the Secretary make demand on the Superintendent for the sum of \$52.85, amount due the City of Lafayette by consumers of water and light, but now due the said City by the Superintendent under section 6 of the ordinance of this city adopted March 7th, 1910.

The report of the Superintendent of the plant for expenses amounting to \$1348.70 incurred for the laying of water mains on Seventh street, between Magnolia and St. Charles street, and on Vermilion street between Johnston street to the residence of J. J. Mouton, a distance of 2000 feet, making the cost of laying of said mains sixty four cents and four mills per foot, was read to the Council and ordered placed on file.

The Mayor and Chief of Police were ordered to instruct Mr. E. Meleton to repair his gallery on Lafayette Street immediately as the same was and is in a dangerous condition.

The attention of the Street Committee was called to the fact that there was no drainage under the switch tracks of the Morgan's Ls. and Tex. R. R. and S. S. Co., one leading into the yard of A. E. Mouton, one into the lot of Cumb. Tel. and Tel. Co., and another into the yard of Merchant's Grocer Co., and that the matter of draining the water impeded by hose switch tracks should be attended to at once.

The following ordinance was adopted:

Be it ordained by the City Council of the City of Lafayette that the Pound to keep animals found roaming at large in violation of the ordinance in this town be and is henceforth to be established at the residence of D. L. Herpin in said town on Convent St. between St. John and Washington Streets.

In the matter of the bill of Adelma Martin for \$425, balance due him on quarter ending July 5, 1910, the Finance Committee stated that before the approval of the bill it would like to state that it thought that such expenses as the sharpening of ploughs, grader blades, and ordinary repairs on the grader should be paid by Mr. Martin; but that the City had paid for such expenses to the extent of \$76.55; and that said committee thought this amount should be refunded to the city.

After discussion it was moved, seconded and carried that the matter be referred to the street committee and that said committee report at the next regular meeting of the City Council.

There being no further business before the Council on motion duly seconded it adjourned to Monday July 11th, 1910, at three p. m.

**Inexperienced Hunters Paid Dearly for Their Temerity in Attacking Bear That Was a Fighter.**

It happened on the 18th ult., shortly before sunset, that some surveyors accompanied by laborers, were still surveying a field at Uyenni in Esashi-gun, Hokkaido.

While engaged in this work a bear made its appearance from a cave near by, and ambling threateningly toward the party, sprang upon one of the workmen who was in the act of running away. The man escaped with a lacerated arm and the bear was left victor, the field being cleared of its human occupants in a remarkably brief time.

The incident came to the knowledge of some local Nimrods, and some days later Bruin was tracked to his lair. One of the gallant hunters fired, but there was something wrong with his gun. Unfortunately it did not go off; it went off, but in a rather irregular way, the gun being rusty and the powder damp. All these things, however, only served to enrage Bruin, who attacked his enemies. The other hunter took the opportunity when the bear's attention was centered upon his companion, and fired his gun, but this weapon, too, was useless.

The bear apparently now had both men at his mercy and in a short time they were lying seemingly lifeless and mangled on the ground. A passing mail car carried the vanquished hunters to the nearest village, where one of the men seems to be on the way to recovery under treatment, but the other died of his wounds.—Hakodate correspondence Japan Advertiser.

**SELF-DENIAL OFTEN WRONG**

**Parents May Make Mistake in Carrying Effacement Beyond Limits of Common Sense.**

Selfishness to a certain point is not only allowable but commendable. The mother who, meaning to be unselfish, allows her husband and children to ride over her rough-shoulder is not only preparing trouble for herself but, still worse, trouble for those whom she is spoiling day by day. She would be doing her duty more truly by her family if she remembered that she, as well as they, had certain rights which must be respected and preferences which must be honored.

A family is a little kingdom, in which the mother and father are sovereigns, who must rule wisely, rendering justice to all—themselves among the number—if the kingdom is to remain happy and prosperous. Mother, as queen, must fit herself to stand comparison with other queens, so that her growing sons and daughters may think proudly and fondly that "no other chap's—or girl's—mother is fit to hold a candle to ours."

Our duty to ourselves begins when we first realize that the world contains an interesting person called "I," and continues as long as that person remains in this troublesome world.

A very lively game was played on the Carencro diamond on Sunday, July 9, between Carencro and Lafayette, resulting in a score of 5 to 4 in favor of Carencro. Batteries: Carencro, Prejean, S., Miller, P., Guilbeau, E. E., and Francez, L. H. Lafayette—Peck, W., Melancon, E., and Suarez.

Manager Ed Miller of the Carencro team is now ready to play any junior team in the parish. Capt. James A. Moss, U. S. A., visited relatives here several days last week and left Saturday evening for his new post of duty at Fort Ontario, N. Y. **Stopped the Wheels of Justice.**

Somebody scattered snuff in the night court of New York one evening recently. A line of policemen sneezed one after another as if they were answering to their names. "If I find out who scattered this sneeze powder," said the magistrate, "I'll send him to the workhouse for—atchoo!—30 days. Open windows finally cleared the air."

**Last Words of Daniel Webster.**

The words, "I still live," were not the last spoken by Webster, nor were they spoken under the circumstance you mention. Being very weak, it was ordered by the doctor (in an undertone to the nurse) that if "he still lived at a certain time to give him another spoonful of brandy." At the time designated the illustrious patient exclaimed: "I still live," and pointed over toward the brandy. Dropping in soon after this, the doctor whispered to him the words, "Yea, though I walk through the valley of the shadow of death I will fear no evil," when Webster replied: "No, doctor, I do not fear." Then his mind seemed to wander off to some great argument, and, exclaiming: "Show me the point, show me the point," he passed away.

**MERCY UNKNOWN TO NATURE**

Life Hard and Cruel for All the Lower Creatures, According to Theodore Roosevelt.

In an article in Scribner's, Theodore Roosevelt made the following complaint of the cruelty of nature:

Death by violence, death by cold, death by starvation—these are the normal endings of the stately and beautiful creatures of the wilderness. The sentimentalists who prattle about the peaceful life of nature do not realize its utter mercilessness; although all they would have to do would be to look at the birds in the winter woods, or even at the insects on a cold morning or cold evening. Life is hard and cruel for all the lower creatures, and for man also in what the sentimentalists call a "state of nature."

The savage of today shows us what the fancied age of gold of our ancestors was really like; it was an age when hunger, cold, violence, and iron cruelty were the ordinary accomplishments of life. If Mathew Arnold, when he expressed the wish to know the thoughts of earth's "vigorous, primitive" tribes of the past, had really desired an answer to his question, he would have done well to visit the homes of the existing representatives of his "vigorous, primitive" ancestors, and to watch them feasting on blood and guts; while as for the "pellucid and pure" feelings of his imaginary primitive maiden, they were those of any meek, cowlike creature who accepted marriage by purchase or of convenience, as a matter of course.
