Chinders for sale at factory or delivered. Consumers', phone 550.

## Society.

**Woman's Club Notes.**  
Owing to the fact that Mrs. Clark was to be hostess to the Woman's Club on Saturday, March 29th, being called home by the illness of her mother, the Club meeting was held at the Moss Music Hall. After the roll call the program for next year's work was discussed, and the study of Current Events through the magazines will be the subject of next year's work. Committees were appointed for next year. \$5.00 was subscribed for the flood sufferers. After the business meeting the following program was given:

Roll call.  
Quotations from book, I. Pendennis.  
Lesson: Book, I. Pendennis, leader Mrs. Demanade.  
Seeing the World Through Thackeray's Eye. Mrs. Bissat.  
After the program the Club adjourned to meet with Mrs. Davis on April 12th.

Mrs. C. M. Parkerson entertained at the Elks Home Wednesday at Auction Bridge and Euchre. The euchre was given complimentary to Mrs. B. N. Coronna and Miss Rosalie Coronna, of New Orleans. The hall was beautifully transformed into a bower of red roses and lilies touched by the artistic fingers of Mrs. Parkerson and Miss Elece Shackford, making it indeed artistically beautiful.

The buffet table was a dream of loveliness with a center piece of red roses banked against a tall glass vase bearing red lilies. The table spread was scattered with roses and filled with the good things of life which Mrs. Charlie so well knows how to make temptingly. Mrs. LeRosen assisted Mrs. Parkerson in both receiving and serving, assisted by Mrs. Dan Deballon, who kept score cards for bridge, while Miss Eppie Moss kept score for euchre.

Ten interesting games were played, at the close of which prizes were awarded to Mrs. A. Doucet, 1st Club Bridge prize, a handsome cut glass celery tray. Mrs. B. J. Pellerin, was presented with guest prize, a handsome cut glass vase. Miss Rosalie Coronna won first prize at euchre, a handsome piece of statuary. Mrs. Coronna was presented guest's prize, a beautiful handkerchief case with two lovely hand-made lace handkerchiefs. Miss V. Martin and Miss Agnes Martin tied for consolation. Miss V. Martin, at second cutting, captured the lovely prize, a beautiful cut glass bowl.

Mrs. Parkerson then served a buffet luncheon, assisted by Mrs. LeRosen, Mrs. Dan Deballon and a bevy of beautiful young girls.

Those present on this delightful occasion were: Mmes. LeRosen, Denbo, Marshall, Agate, Wodson, Tolson, Coronna, Deballon, Roy, A. Martin, Keith, Doucet, Givens, Herrington, Masters, Mouton, Geo. DeClouet, Arthur Honnet, Coronna of New Orleans, J. C. Nickerson, McIver, Slabotsky, Abramson, Rosenfield, Pellerin, Misses Stella Roy, Nell Lacour, Ruth Mouton, Agnes Martin, Clara Long, May Bowden, Martha Pellerin, Hazel Bateman, Vivian Mouton, Near Melancon, Eunice Barranger, Lucille Roy, Eppie Moss and Rosalie Coronna of New Orleans.

Mr. and Mrs. Claude Bertrand are rejoicing over the arrival of a fine baby boy, which interesting event happened on the 26th in Donaldsonville, where Mrs. Bertrand is visiting her parents.

O. B. Hopkins, of Greenville, Texas, came Tuesday morning to look after some business matters and visit relatives. He will leave tomorrow.

Oats, Corn, Purina, Nutriline, Rice Polish, Bran and Shorts, Chicken Feed, Alfalfa and Lespedeza Hay, also WOOD. Ramsey Elevator Mills, phone 410.

H. F. Richard and family have moved back to Lafayette from Italy, Texas. Mr. Richard has returned to engage in the cotton business, believing that cotton growing will again become as in former years. He will also buy produce. They have a large number of friends here who are glad to have them come back here to live.

Mrs. Belle Hall, Spirella Corsetier, Elizabeth avenue 117, phone 344. Will have new samples in a few days. Latest styles. 3-21-6t.

Just received beautiful patterns, size 9x12, call and see them.—The Pelican Furniture Co., Ltd.

Now is the time to get your matting art squares, we have them, size 9x12.—The Pelican Furniture Co., Ltd.

## POINT THAT ATTRACTED HIM

Vegetarian Dinners Had at Least One Good Idea That He Could Appreciate.

After steadfastly declining many invitations to public dinners a man astonished his friends by attending three vegetarian dinners.

"Are you a convert?" they asked. "I am not," said the man. "I go because the vegetarians have one custom that deserves to be encouraged. Their speechmaking precedes the dinner. Anyhow, it did at the three dinners I attended. That is a most commendable custom. It ought to be adopted at all dinners. Everybody is in a hurry to begin eating, and they don't take time to meander through a lot of dull speeches.

"I don't know why the vegetarians reversed the usual order. None of them that I asked could tell. Personally, I think it is because they are so anxious to get away and order a square meal somewhere after their appetites have been whetted by their own little snack that they can't wait for the speaking. I may be wrong but the speeches are put out of the way first. That is the main thing."

**Art of Cookery.**  
The art of cookery is as old as history; its development measures the development of civilization. More people are engaged in cooking all or a part of their time than in any other occupation. On the selection and preparation of food depends, more than on any other single factor, the health and consequent happiness and prosperity of mankind.—American School of Home Economics.

**Too Near.**  
"What animal," said the teacher of the class in natural history, "makes the nearest approach to man?" "The flea," timidly ventured the little boy with the curly hair.

**Notice.**  
The annual meeting of the stockholders of the Improvement Co. L., will be held at the First National Bank on Wednesday, April 9, 1913, at 3 p. m. C. M. PARKERSON, Secretary.

**NO ALUM, NO LIME PHOSPHATE**

## Ants Eat Through Lead Cables.

White ants are causing much trouble in South Australia in telephone cables and also in the underground electric light lines. On the lead sheathed telephone cables crosses between the circuits began to occur. Upon withdrawing some of this cable from the ducts it was found that the ants had eaten through the lead in many places. On the Sidney system of electric lighting the ants ate through the bitumen compound and then through the lead and high tension insulation next to the wire. To stop the ravages which will incur an enormous expense if not checked, arsenious oxide mixed with bitumen, a sort of pitch, is being applied to the cables. Carbon bisulphide is also being tried with the idea that the odor will drive the ants away.

## Oblivion.

"If our men doesn't make a record in the legislature," says the Whiteoak Courier, "we'll send him to congress, where he'll be lost sight of and never heard from again."

**Albino Puzzle.**  
The albino is still one of the puzzles of science. Beyond the knowledge that albinism is due to a lack of the normal pigment in skin and hair the physiologist and pathologist are about as much at sea regarding the real explanation of this freak of nature as they were a hundred or a thousand years ago. As to the ultimate why of the problem—why the pigment is missing in the albino—there is nothing but a collection of unconvincing guesses. Regarding the statistics of albinism nothing satisfactory is obtainable except in two countries. In Italy the albinos number about one in every twenty thousand of the population, whereas in Norway the rate is twice as high, with one in every ten thousand.

## Hawthorne's Desk Kept.

The desk at which Nathaniel Hawthorne worked when he was surveyor of the port of Salem, is still carefully preserved in that quaint old city by its custodians. The salary of \$1,200 enabled Hawthorne to live in comparative comfort during his incumbency of four years.

"DON'T CRY, DEAR, IT DOESN'T MATTER." And it doesn't a bit—if the floor and window sills are varnished with
