HOME CHARITY ASS'N.

Acknowledgement of Collection Mother's Day—Funds Needed for Work.

A collection of \$9.05 taken up at the union celebration of "Mothers' Day" in the Methodist church last Sunday, was generously donated to the Home Charity Association. The act was a most becoming one in that it reflected the spirit of the occasion and typified the mother-love which finds its highest expression in ministering to the happiness of others.

Due acknowledgment of the contribution is hereby made, and it is doubly appreciated at a time when the funds of the association are running very low owing to the heavy drain being made by no less than twelve dependent families in the community.

The limited resources of the association calls for the utmost economy and discretion in extending help, and only the most deserving persons are admitted to its list of beneficiaries.

The present revenues of the association, from membership dues of twenty-five cents a month, amounts to only \$35 a month, which is \$10 less than current disbursements for bread, meat and milk a month. At this rate the small surplus now in the treasury will soon be exhausted. When this happens the association will be compelled to make a direct appeal to the public for special contributions to enable the association to continue to minister to the widows and orphans who are absolutely dependent upon charity for the barest necessities of life.

The best way in which the men and women of Lafayette who feel any interest in supporting the work of the Home Charity Association can do so, is by enrolling themselves as members of the Association and pay the regular monthly dues of twenty-five cents. Those who wish to join the Association may send in their names by mail or telephone to either one of the following officers: Mrs. J. Davidson, vice-president; Mrs. W. A. LeRosen, secretary; Mrs. F. V. Mouton, treasurer. For the convenience of members the monthly dues are collected from them at their homes by Miss Marie Josse.

Donations of clothing, shoes, etc., suitable for women and children will be received by whichever one of the following members of the Association whose home may be nearest to the donor: Mrs. J. R. Jeanmard, Mrs. J. J. Davidson, Mrs. H. L. Ducrocq, Mrs. P. D. Beraud, Mrs. Chas. O. Mouton.

Checks for cash contributions may be mailed to one of the officers of the Association, and acknowledgment of the same will be duly made.

WONDERS OF THE WORLD.

Shown by Colored Photography with Lecture by Rev. Beiver—Benefit New Catholic Church.

Itself one of the wonders of the century, colored photography has been made the ally of the stereopticon to portray the World's Wonders in all their natural beauty and charms. Lovers of the beautiful and the wonderful will have the opportunity Thursday, May 29, of seeing the wonders of the world thrown upon one of the local screens, and of hearing one of the South's most noted lecturers give their description and history. The views to be shown and described include not only those things and places to see which tourists travel thousands of miles and pay an annual tribute of millions of dollars, but also the wonders of insect life disclosed by the microscope. The lecture treats of everything there is most wonderful in every department of human life and energy, and unfolds the mysteries of insect life that lie hidden beneath our very eyes.

This will be the first time that this interesting and instructive lecture is delivered in the State outside of the city of New Orleans—an honor and privilege which the people of Lafayette should acknowledge by attending in large numbers. The lecturer is well known throughout the South—Rev. Albert Beiver, S. J., until a few weeks ago President of Loyola University. Some years ago, it will be remembered by many, he delivered a lecture at the Industrial Institute, the subject being Liquid Air. The slides will be handled by Mr. Claudel, of New Orleans, who is well known for his experiments with colored photography.

The lecture will be given Thursday, May 29th, at 8 p. m., for the benefit of the New St. John Catholic Church, for which cause the speaker and Mr. Claudel have tendered their services.

An interesting and instructive evening is in store for all. Negroes Arrested for Assault. Marshal F. M. Latiolais arrested Fred Alexander and Charming Voorhies, negroes, Tuesday, for beating and robbing an old negro named Tom on his way home from Broussard, where he had sold some fence posts and bought some grits.

doing a necessary work in the community, in a systematic way and in a sympathetic spirit, and for the fulfillment of this mission its officers must depend upon the generosity and good will of the public.

First Use of Cocoa in England.
Until sixty years ago cocoa was taxed in England as a patent medicine, and could be sold only in packets with a stamped wrapper.

Accidents on British Streets.
About 100 street accidents a day occur in the whole of Great Britain.

Keeping Lemons.
To keep lemons, wipe them with a clean, dry cloth, then wrap well up in tissue paper and place them on a shelf so that they do not touch each other.

His Revenge.
"Let me take that wretched thing home," said the patient, as the dentist relieved him of his aching molar. "I want to take it home and poke sugar in it and see it ache."

Didn't Do Her Much Good.
Mrs. Chance—"Oh, Henry, I wish you had been to church this morning. Dr. Dives preached one of the loveliest sermons on 'Love your neighbor,' and the way his remarks made that spiteful, hateful Mrs. Gabbers squirm was something that would have done your heart good."

Woman's Impelling Idea.
Every woman feels that she ought to join a society for the suppression of something or other.

Can Be Too Eager.
Many a man has burned his fingers in his eagerness to strike while the iron was hot.

Simple Fire Extinguisher.
A siphon of soda is an excellent fire-extinguisher, as the carbonic-acid gas in the soda water helps to stifle the flames. The siphon can be tilted, and the fluid will carry to a considerable height, such as the top of a blazing curtain, etc.

Owe "Sandwich Man" to Dickens.
The "sandwich man," whom many correspondents are trying to trace to birth, existed long before the '40s. And it seems highly probable that Charles Dickens invented his nickname, for in one of his "Sketches by Boz," written about 1835, he remarks: "So he stopped the unstamped advertisement—an animated sandwich, composed of a boy between two boards."

Zoologically Mixed.
A little boy near here was given a pair of white rats, and when they had their first litter of young ones he took his little sister to the cellar to see them. She came running upstairs all excited and called to her mother: "Mamma! Mamma! Come quick! The hea rat has nine kittens."
