

NOVEMBER AILMENTS

THEIR PREVENTION AND CURE.

November is the month of falling temperatures. Over all the temperate regions the hot weather has passed and the first rigors of winter have appeared. As the great bulk of civilized nations is located in the Temperate Zones, the effect of changing seasons is a question of the highest importance. When the weather begins to change from warm to cold, when cool nights succeed hot nights, when clear, cold days follow hot, sultry days, the human body must adjust itself to this changed condition or perish.

The perspiration incident to warm weather has been checked. This detains within the system poisonous materials which have heretofore found escape through the perspiration. Most of the poisonous materials retained in the system by the checked perspiration find their way out of the body, if at all, through the kidneys. This throws upon the kidneys extra labor. They become charged and overloaded with the poisonous excretory materials. This has a tendency to inflame the kidneys, producing functional diseases of the kidneys and sometimes Bright's Disease.

Peruna acts upon the skin by stimulating the excretory glands and ducts, thus preventing the retention of poisonous materials which should pass out. Peruna invigorates the kidneys and encourages them to fulfill their function in spite of the chills and discouragements of cold weather.

Per-una is a World-Renowned Remedy for Climatic Diseases.

Peruna is a combination of well-tried harmless remedies that have stood the test of time. Many of these remedies have been used by doctors and by the people in Europe and America for a hundred years.

Peruna has been used by Dr. Hartman in his private practice for many years with notable results. Its efficacy has been proven by decades of use by thousands of people, and has been substantiated over and over by many thousands of homes.

NOTHING FUNNY ABOUT IT.

Man Has Good Reasons for Looking at Inside of His Hat.

"I see here that a woman writer wonders why a man always looks in his hat before he puts it on," said the reflective man as he looked up from his paper. "Here is what she says: 'When a man puts on his hat he most always looks inside it first. What he expects to see remains a mystery, but he looks for it all the same.' That's easy. He looks in his hat to see if the knot holding the inside band together will be at the back of his head when he puts it on. Now if she'll tell me why a woman always pulls down her veil and purses up her mouth before she steps out of doors, we'll call it square.

"Funny, the things you read in the Sunday papers. I see here that another Chicago professor got up on his hind legs to declare that 'there should be schools of love, and the young should be educated in love.' Slush! Schools of love aren't necessary. The young of the softer sex inherit a sufficiently large stock of knowledge on this subject from their mothers, and what they can't teach the young men it isn't necessary for them to know."

Master of Seventy Languages.
Jeremiah Curtin, at present living at Bristol, Vt., is the master of 70 languages. He began life on a farm, but by diligent study acquired one language after the other. He is at present doing special work. Besides his many translations he is the author of a large number of books. He graduated at Harvard and shortly afterward President Lincoln appointed him secretary of the legation at St. Petersburg.

RHEUMATISM STAYS CURED

Mrs. Cota, Confined to Bed and in Constant Pain, Cured by Dr. Williams' Pink Pills.

Rheumatism can be inherited and that fact proves it to be a disease of the blood. It is necessary, therefore, to treat it through the blood if a permanent cure is expected. External applications may give temporary relief from pain but as long as the poisonous acid is in the blood the pain will return, perhaps in a new place, but it will surely return. Dr. Williams' Pink Pills cure rheumatism because they go directly to the seat of the disorder, purifying and enriching the blood.

Mrs. Henry Cota, of West Cheshire, Conn., is the wife of the village machinist. "Several years ago," she says, "I was laid up with rheumatism in my feet, ankles and knees. I was in constant pain and sometimes the affected parts would swell so badly that I could not get about at all to attend to my household duties. There was one period of three weeks during which I was confined to the bed. My sufferings were awful and the doctor's medicine did not help me.

"One day a neighbor told me about Dr. Williams' Pink Pills and I decided to try them. After I had taken them a short time I was decidedly better and a few more boxes cured me. What is better, the cure was permanent."

Remember Dr. Williams' Pink Pills do not act on the bowels. They make new blood and restore shattered nerves. They tone up the stomach and restore impaired digestion, bring healthful, refreshing sleep, give strength to the weak and make miserable, complaining people strong, hungry and energetic. They are sold by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

LOUISIANA NEWS

Vote on the Amendments.

The Secretary of State has compiled the vote of the State in the recent election, and has issued the official returns. Following is the official vote as promulgated on the amendments:

For No. 1, 21,472; against 3,043.
For No. 2, 21,199; against 3,304.
For No. 3, 18,977; against 4,676.
For No. 4, 21,028; against 2,891.
For No. 5, 19,701; against 3,100.
For No. 6, 19,969; against 3,113.
For No. 7, 21,204; against 3,490.
For No. 8, 20,005; against 4,352.
For No. 9, 19,172; against 4,690.
For No. 10, 20,527; against 3,743.
For No. 11, 21,032; against 2,893.
For No. 12, 3,566; against 24,997.

Lynching May Follow.
Charles Alexander, a negro desperado, armed himself with a shotgun at Bay Hills, ten miles from Marksville, and shot and fatally wounded a negro named Lindsey. Lindsey ran to the place of Jules Chatelain, a prominent planter, where he had been employed, and fell in Chatelain's doorway in a dying condition. Alexander followed Lindsey, and when Chatelain appeared to ascertain the cause of the trouble the negro blew his head off with a shotgun. Alexander escaped, but the sheriff is in pursuit. A lynching will no doubt occur if he is captured.

Durbin Gets Four Years.
J. K. Durbin, of Natchez, Miss., formerly agent for the Iron Mountain railroad at Lake Providence, was arraigned in the Ninth District Court, charged with embezzlement of funds from the railroad company at Lake Providence. He pleaded guilty and was sentenced to serve four years in the State penitentiary at hard labor. The accused was formerly a resident of Tensas parish, and was railway agent at Waterproof.

Penitentiary Population.
The population in the State penitentiary keeps up its hovering around the 1,700 mark, the exact number at the last reckoning being 1,697, and the influx being about the same as the output of the institution. The convicts are reported to be uniformly in good condition and the various farms of the Board of Control of the State penitentiary are reported to be in good condition.

Governor Issues Proclamation.
Gov. Blanchard has issued his proclamations calling for an election to be held in the parish of Caddo on January 15 for the election of the additional district judge created by the acts of 1906 and recently approved by the people at the election of November 6. Likewise an election to be held throughout the State on November 16, at which the new Circuit Courts of Appeals for the country parishes, created by the acts of 1906, will be elected.

Drainage District Election.
An election has been called by district drainage No. 3 for the purpose of levying an annual tax of five mills on the dollar for twelve years on the immovable property in the district. The proceeds of this tax will be used in digging and dredging canals in the district. The officers of the district will advertise for bids for the dredging of drainage canals. This election will be held on the 8th day of December.

State Fair at Shreveport.
The State fair at Shreveport was a great success in every way. Every foot of space in the building was occupied and the various products on display showed Louisiana as a rich and important agricultural State and also a place where other industries are receiving much valuable attention. Nearly all of the stalls for cattle and horses and the pens and coops for swine, poultry and other such exhibits were comfortably filled.

Bridge Toll Reduced.
The police jury of Lafourche parish, in conjunction with the city of Thibodaux, has resolved to make a cut of 50 per cent in the tollage of the Thibodaux bridge, this reduction to take effect on January 1.

Buying Lands.
George F. Hart, a Pennsylvania capitalist, has bought 2000 acres of land near Bogalusa, upon which he will erect a sawmill and build many houses.

Courses in Agriculture.
The Louisiana State University is sending out circulars calling attention to the short winter courses in agriculture for farmers. There will be ten-day courses and ten-week courses. The ten-day course will begin Tuesday, January 8, 1907, and end Friday, January 18, 1907. The ten-week course will begin Monday, January 7, 1907, and end Friday, March 15, 1907. In the ten days' course it is the intention of the university to confine itself to judging and demonstrating and without any ordinary classroom or book work.

Higher Saloon License.
The campaign for a higher saloon license went out at New Orleans. The new ordinance raises the minimum license from \$100 to \$250 and adds \$150 to the other grades.

International Law Invoked.
The arrest at New Orleans of the Mexican vice-consul for alleged violation of the Louisiana State game laws, which provide that no foreigner or non-resident can hunt without a license, threatens to involve questions of international law.

CRISIS OF GIRLHOOD

A TIME OF PAIN AND PERIL

Miss Emma Cole Says that Lydia E. Pinkham's Vegetable Compound has Saved Her Life and Made Her Well.

How many lives of beautiful young girls have been sacrificed just as they were ripening into womanhood! How many irregularities or displacements have been developed at this important period, resulting in years of suffering!

Miss Emma Cole

A mother should come to her child's aid at this critical time and remember that Lydia E. Pinkham's Vegetable Compound will prepare the system for the coming change and start this trying period in a young girl's life without pain or irregularities.

Miss Emma Cole of Tullahoma, Tenn., writes:

Dear Mrs. Pinkham: I want to tell you that I am enjoying better health than I have for years, and I owe it all to Lydia E. Pinkham's Vegetable Compound.

"When fourteen years of age I suffered almost constant pain, and for two or three years I had soreness and pain in my side, headaches and was dizzy and nervous, and doctors all failed to help me.

"Lydia E. Pinkham's Vegetable Compound was recommended, and after taking it my health began to improve rapidly, and I think it saved my life. I sincerely hope my experience will be a help to other girls who are passing from girlhood to womanhood, for I know your Compound will do as much for them.

"If you know of any young girl who is sick and needs motherly advice ask her to write Mrs. Pinkham, Lynn, Mass., and she will receive free advice which will put her on the right road to a strong, healthy and happy womanhood. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

North Carolina a Woodworking State.
"North Carolina," said C. J. Field, of High Point, "is rapidly becoming the greatest woodworking state in the country. We are now second only to Michigan in this particular industry and at the present rate of increase will soon pass that state. In the city of High Point we have 60 furniture factories and make everything from a hall rack to the finest bedroom suits.

"Nine hundred solid carloads of furniture are shipped out of High Point every month. Our trade is not confined to the United States, for we ship furniture daily to China, Japan, Australia, Cuba, England, France, Germany, and in fact to nearly every civilized country in the world."—Washington Post.

American Expert Leads World.
Gardner F. Williams, the American mining engineer who directs the diamond output of the world, was born in Michigan, but became a resident of California at 15 and a student at California college in Oakland, afterward the state university. He perfected his education at the mining Academy of Freiberg, among the lead mines of Saxony. He was assayer in the mint at San Francisco two years and spent some time in practical work in the mines of Nevada and northern California. He then went on an exploring expedition for the Rothschilds to Maschonaland and made the acquaintance of Cecil Rhodes. He took charge of the mines of the De Beers company in 1886, through the influence of Rhodes and has been at their head until recently, when he returned to America, leaving his son, Alpheus Williams in his place.

RATTLE OF THE RIVETER.
The Man from Oklahoma Thought It Was a Woodpecker.

Charley's uncle from Oklahoma was up town being shown the sights, he having come in the day before with a few loads of steers, and Charley was doing the honors.

They were walking along on Grand avenue discussing the tall buildings, when all of a sudden one of those ratchet riveting machines began hammering away at high speed on a top story of a steel skyscraper building.

The old man stopped as if he'd run against something. He turned his eyes in the direction of the sound but could make out nothing. When he turned to his bewildered nephew his eyes were fairly popping.

"Great Scott!" he exclaimed. "But I'd like to see that woodpecker. 'T'd be a whopper."—Kansas City Star.

DODD'S KIDNEY PILLS

CURES RHEUMATISM, BRIGIT'S DISEASE, DIABETES, GRAVEL, NEURALGIA, MIGRAINE, SCIATICA, AND ALL KIDNEY DISEASES.

Prepared by J. C. Dodd, New York.

Suggestions for Christmas Gifts

Will be found in great number and variety in the catalogue just issued by the well-known New York house of Lord & Taylor. This catalogue contains photographic reproductions of over 500 articles, such as fancy lace and linen handkerchiefs, ladies' neckwear of exquisite design, fancy goods of all kinds, jewelry and silver toilet articles, ladies' silk and leather belts, chatelaine bags, and leather goods of many kinds, umbrellas, gloves, house coats, bath robes, dressing gowns and various men's furnishings, in fact almost everything to suit the fastidious taste of either man or woman. The half-tone illustrations picture the goods as they actually are, enabling out of town customers to order their gifts intelligently, and the high reputation of the house ensures absolute satisfaction. A copy of this catalogue will be sent to anyone interested by addressing Lord & Taylor, Broadway, Fifth avenue and Twelfth street, New York City.

Green Apples.
"Yes, the party was a big success— plenty of eating and all that."
"I suppose the table grained with all the delicacies of the season."
"Yes, but that wasn't a circumstance to the way some of the delicacies made the guests groan."

CARING FOR PETS.

PROPER TREATMENT IN HEALTH AND IN SICKNESS.

Characteristics of the Popular Pugs— Hand-Reared Kittens—Salt Baths for Sick Goldfish—Birds' Need of Sunlight.

Pugs are very affectionate and good tempered dogs; their great fault is greediness, and this is all the more serious as they are naturally inclined to be fat, and want less food than most dogs of their size, and more exercise.

When a kitten has to be reared by hand the best thing to do is to bring it up on the bottle; a miniature feeding bottle such as is sold in toy shops will answer the purpose admirably. The method is much superior to spoon feeding, as the latter involves much handling, and kittens should be handled as little as possible until they are six weeks old.

The most common and fatal of the diseases which attack goldfish is a fungus growth which first appears as a tiny white speck on the tail, fins, head or body of the fish, and which spreads with great rapidity unless it is treated at once. The sick fish should be placed in water containing a strong solution of salt. It should then be taken out and wiped with a soft cloth so as to remove as much of the growth as possible, after which it should be given a second salt-water bath. This seems to enable the fish to throw off the disease sooner than anything.

If your canaries have laid eggs out of season it is safer not to allow them to be hatched, but to take them away and either destroy them or blow them and put them on a string. The reason of this is that the moulting season may be at hand, and it is too great a strain on your birds' constitutions to bring up another family. Plenty of sunlight greatly beautifies a bird's plumage. If it is daily placed where the sun's rays can fall upon it, the feathers will become far brighter and more richly hued than if it is always kept in the shade. Take the precaution, however, to cover a portion of the cage so that the bird can retire out of the glare of the sun when it chooses.

Retrievers learn to fetch and carry more quickly than other dogs, and may be made very useful in bringing one's slippers and other small articles, and in carrying things in the street.

Meringue for Lemon Pie.
Allow twice as many level table-spoonfuls of sugar as there are whites of eggs, and as many whites of eggs as are conveniently at hand. Two whites will do, but three are better, and four will be required, if the last of the meringue mixture be put on with pastry bag and tube. Beat the whites until dry, then gradually beat in half the sugar. Continue beating until the mixture is very glossy and firm, then "cut and fold" into it the last half of the sugar. Let the pie cool a little before the meringue is spread over it. Set the pie in a moderate oven, to cook the meringue. After ten minutes longer if the meringue is very high, increase the heat, if necessary, to color the meringue slightly.

Chicken in Jelly.
Prepare a chicken as for boiling. Place it in a saucepan with sufficient water to cover it "cold," add a sprig of thyme and a thick slice of lemon, and salt to taste.

Cook gently till tender. Meanwhile, soak half an ounce of gelatine in sufficient water to cover it. When the chicken is done add the gelatine to the liquor in which the chicken was boiled, and reduce. Skin the chicken when cool, and cut it up into neat joints.

Place in a round basin, or shape, if preferred, and when the liquor is reduced enough strain over chicken and leave till set.

Useful Cement.
An efficient cement for mending china can be made at home with very little trouble. A paste is made of powdered quicklime, the white of an egg, and the whey of milk and vinegar in equal parts, and the mixture must be beaten well and warmed, not heated. The broken edges of the china must also be exposed to heat before the cement is applied. A very thin coating is sufficient, and the joint should be held firmly in place until the cement has dried, when it will prove a most durable solution.

HUMMING BIRD CHASED BEE.

Movements of Couple Resembled Flashes of Lightning.

Here is a story as told by a gentleman who spends the greater portion of his time studying the habits of birds:

A humming bird with an angry dash expressed its disapproval of the presence of a big bumblebee in the same tree. The usually pugnacious bee incontinently fled, but he did not leave the tree. He darted back and forth among the branches and white blossoms, the humming bird in close pursuit. Where will you find another pair that could dodge and dart equal to these? They were like flashes of light, yet the pursuer followed the track of the pursued, turning when the bee turned.

In short, the bird and the bee controlled the movements of their bodies more quickly and more accurately than he could control the movements of his eyes. The chase was all over in half the time it takes to tell it, but the excitement of a pack of hounds after a fox was no greater. The bee escaped, the bird giving up the chase and alighting on a twig. It couldn't have been chasing the bee for food, and there is no possible explanation of its unprovoked attack, except that it wanted all the honey itself.

The Original Porous Plaster.
It's Alcock's, first introduced to the people sixty years ago, and to-day undoubtedly has the largest sale of any external remedy—millions being sold annually all over the world. There have been imitations, to be sure, but never has there been one to even compare with Alcock's—the world's standard external remedy.

For a weak back, cold on the chest or any local pain, the result of taking cold or over-strain, nothing we know of compares with this famous plaster.

Records of Wagers.
Betting is neither so general nor so promiscuous as it was 150 years ago, when books for recording wagers were always kept on the tables in the much frequented coffee houses of London. Some of these books are still to be found among collections of antiques, and they make interesting reading. All manner of bets are entered there, on marriages, births and deaths, on the duration of a ministry, on the length of the lives of prominent personages, on the possibility of earthquakes, and even on hangings.

How's This?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.

WALLACE, KINNAN & MERRIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Schools Teach Card Playing.
Card playing has become so general among German women of the upper classes that regular lessons in playing are now given in fashionable boarding schools for girls.

A Harmless Laxative.
If you must take a laxative, take a harmless one. Lax-Fos does not gripe, therefore does not irritate. Irritation is what does the harm. Price 50 cents.

Picquart's Army Nickname.
Gen. Picquart was always so gentle in his manner while about his regimental duties that his nickname in the French army was Georgette.

Nothing so increases one's reverence for others as a great sorrow to one's self. It teaches one the depth of human nature.—Charles Buxton.

He who hurries cannot walk with a stately step.—Chinese proverb.

"THE MARRYING SQUIRE."

Justice Geo. E. Law, of Brazil, Ind., Has Married 1,400 Couples.

Justice Geo. E. Law, of Brazil, Ind., has fairly earned the title of "The Marrying Squire," by which he is known far and wide, having already married some 1,400 couples. Ten years ago he was deputy county treasurer. "At that time," said Justice Law, "I was suffering from an annoying kidney trouble. My back ached, my rest was broken at night, and the passages of the kidney secretions were too frequent and contained sediment. Three boxes of Doan's Kidney Pills cured me in 1897, and for the past nine years I have been free from kidney complaint and backache."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Disobedience Brought Death.
An Italian prince had strictly forbidden one of his daughters to smoke, but so great a hold had the habit obtained over her that she secretly engaged in the practice at every opportunity. One day she was indulging in a cigarette as she reclined on a balcony attired in a dress of the lightest muslin. Suddenly her father appeared on the scene. In the hurry to hide the evidence of her disobedience the princess placed her hand with the burning cigarette behind her back. The result was startling and tragic—her frock was immediately in a blaze, and she was fearfully burned from head to foot, dying after suffering intensely.

If you must waste time waste your own. Do not waste other people's.

MUSCULAR AILMENTS

The Old-Monk-Cure will straighten out a contracted muscle in a jiffy.

ST. JACOBS OIL

Don't play possum with pain, but 'tends strictly to business.

Price 25c and 50c

When you buy WET WEATHER CLOTHING you want complete protection and long service.

These and many other good points are combined in TOWER'S FISH BRAND OILED CLOTHING. You can't afford to buy any other.

AL TOWER CO. BOSTON U.S.A.
TOWER CANADIAN CO. LTD. TORONTO, CAN.
