WILBY P. MORGAN - Editor.

Saturday, September 7, 1889.

The mother of John L. Sullivan, the champion prize fighter of the world, died in Boston lately.

Price, Democrat in the third district, is elected by a majority, over Minor, Republican, of 6,683 votes.

How is it that we received two numbers of the Shreveport Times and two numbers of the Vicksburg Commercial Herald on Thursday? Some fault in the messengers.

The Morehouse Clarion says Miss Evans was wounded by the accidental discharge of a gun in a jumper while out riding with Albert Johnson, inflicting a very painful if not serious wound.

The Natchez Democrat of the 3rd says the trouble growing out of the issuing of the bonds of the N. O. N. & F. S. Railroad Co. has been satisfactory arranged and that work will soon begin all along the line.

Sunday morning last M. B. Carney, a citizen of Morehouse, was found dead in the road ten miles north of Monroe. Carney was under a \$3000 bond for being implicated in the murder of young Chas. Pope some time since.

Several cities are bidding for the World's Exposition of 1892, among them Chicago, Ill. No city in the United States has better railroad facilities, and the visit there could be spent pleasantly in their many attractive parks and lakes, but Washington City seems to be the favorite.

Zero, in the News, tries to misconstrue our article in regard to the modes and customs of the Southern girls as compared with the Northern girls. Go into the city of Chicago and you will find from 20 to 30 young ladies clerking in stores. Their brothers are at work in the factories. In the South the custom has been that any kind of employment for the female is degrading. Work is honorable and we would be pleased to see this false pride laid aside and the girls made useful as well as ornamental in Louisiana you scarcely ever see a lady engaged in any store, nursing, &c., and this called forth the article, but Zero seems to be so dull of comprehension as to either misunderstand or intentionally misconstrue our article. There was, in our knowledge, a very nice young lady who was engaged to do honest work about the place; she was scorned at by just such persons as Zero, which is wrong. We admire the woman who tries to earn an honest living in doing honest work.

Governor McEnery urged the importance of establishing an Industrial school for the females but it was ignored. The question came up in the Educational convention which recently met, and it was said that nothing in the law would exclude females from this school. Will Zero inform us of how many applications have been made of females to enter this school? Our advice to all young ladies is "Aide toi, et le Ciel L'aidera."

COTTON BAGGING.

Geo. C. Purvis, Secretary of the Parish Alliance of Richland parish, furnished us with the address of President Macune, and other articles relating to the subject of cotton bagging. Below we copy from the advance sheet:

The following is an extract from a letter written by a large Liverpool cotton house to a strong American cotton firm. The names of the parties are not given for publication, but the letter contains such a remarkable admission that it is of peculiar interest, and is rather amusing:

"The question of cotton bagging requires and shall have our careful consideration. As to what our clients, the English spinners, will say when it is proposed at once to consume \$125,000 bales more cotton in America, we will leave you to imagine. If you in America will reduce the duties upon English yarns and cloths there will be no difficulty about the cotton bagging question."

The following is a list of the grand jury for the present term of court which we consider a good one: C. P. Balfour foreman, J. C. Praytor, J. A. Mhoon, W. C. Montgomery, Geo. B. Stout, W. O. Covington, John Bayou, Jr., Dave Abrams, H. W. Earle, Sol Ingram, E. T. Archibald, W. G. Wright, Thos. Sikes, J. D. Tombs, W. S. Hornsberger, D. D. Morgan.

WASHINGTON LETTER.

(From our Regular Correspondent) Foraker is to be knocked out, said a prominent politician, "and some of the leading Ohio republicans will help the Democrats to do it." "What do you mean General?" asked your correspondent. "Exactly what I said," returned the General. After much persuasion, and the promise that his name should not be used, the gentleman agreed to tell me his reasons for making the assertion. He said: "You are probably aware that the Ohio crop of would-be-great-men has for some years been largely in excess of the demand, and consequently the State is full of that class of men and the most of them are republicans. Foraker has been in the way of these fellows for some time and they recognize the fact that if he is again elected governor there will be no keeping him down; he will either demand to be sent to the Senate or supported for President. They have decided that the easiest way to get rid of him is to help the Democrats defeat him, and to that end the wires are now being laid. Murat Holstead and Richard Smith of the Cincinnati Commercial Gazette are in the plot, as is also Senator Sherman. I do not assert that President Harrison is helping these men to down Foraker, but I know that he is cognizant of their plans and has made no objection thereto. He probably would show few tears to see Foraker put in a position that would make him an impossibility in the race for the republican Presidential nomination in 1892."

President Green of the Western Union Telegraph company has been in consultation with the Postmaster General, and it is understood that a compromise will be made as to the price of Government messages. At the department they refuse to talk on the subject.

The Navy department has several very interesting and complicated questions to worry over just at this time. First, there is the big battle ship "Texas," being built at the Norfolk Navy Yard, which many experts contend will not float if completed by the present plans; and as if that was not enough, there are three new vessels the Petrel, Vesuvius and Charleston—which, although completed, have for various defects have not yet been accepted by the government. The lot of the Secretary of the Navy is not a happy one.

It is now thought here that the arguments of Representative McKinley have persuaded President Harrison that no extra session of Congress should be called.

The National Republican committee has shipped all of the documents it had left over from the late Presidential election to the four new States for use in the coming campaign. The citizens of the new States have my sympathy.

Representative Campbell, the Democratic nominee for Governor of Ohio, is extremely popular here, and good wishes are expressed on every hand for him.

Two or three spans of the railroad bridge two miles this side of Arcadia were burned Saturday night. A young Mr. Miller discovered the fire during the night and staid up all night to keep trains from running into it. Sunday morning he stopped the passenger train, and in the generosity of his heart, the passenger made up a purse of one hundred dollars as a reward to him but he refused it. The train was backed to this place and sidetracked until late in the afternoon, when the bridge being temporarily repaired, it proceeded on its way.—New Era.

We had a local of the burning of the above bridge and also the burning of Cow bayou bridge, six miles east of this place the next night, but it was crowded out. The railroad officials should give this young man a lifetime free pass over the road. He is, certainly, an exception of a young man to refuse the \$100. We admire his course.

TRIBUTE OF RESPECT.

Rayville, La., Sept. 3d, 1889. C. R. Balfour Lodge No. 12 K. of P., Whereas, on the 23d day of July, 1889, our Bre. Thos. Mc D. Collins departed this life, and whereas, in his demise our Lodge has lost a worthy member. Therefore be it resolved, as a testimonial to the memory of our deceased brother, whose loss we lament, that our Lodge robes be draped in mourning for thirty days; that these resolutions be read on the minutes; that a copy be sent to the family of the deceased, and that the Richland News and Richland Beacon be requested to publish the same.

S. FAULK, R. H. BROWN, T. N. RHYMES, Committee.

The grand jury adjourned on last Thursday after returning about thirty bills—mostly for minor offenses.

DELBI PARAGRAPHS.

The social event of the season was the nuptials of Miss Kate Thomson to Mr. Walter S. Davis, which interesting event took place at the Presbyterian church on Wednesday last, the 4th inst., the Rev. J. D. Harper, P. E. officiating. The church was elaborately decorated by the young lady friends of the fair bride and many wishes for her future happiness were interwoven and garlanded with those pretty wreaths. The couple stood under a lovely parasol of flowers which was a marvel of beauty and artistic taste. The pensive beauty of the bride was, if possible, heightened by a lovely traveling costume of grey camels-hair cloth in the Decoretto style. The groom looked handsome and with pride and dignity upon the gem which he had won. They left on the 11 a. m. train for a bridal trip to Miss, and other places. Miss Laura Morris, of West Monroe, Mrs. Harris, of Jackson, and Miss Hattie Purvis, of Rayville, were the guests of the family for the occasion. There was a large audience to witness the ceremony.

Miss Rosa Emmisch is visiting Miss Clara Stein, Miss Rosa is one of Vicksburg's belles. She is now holding high carnival over the boys' hearts in Delhi.

Miss Mai Belle Fontaine left on Sunday's train for her home in Vicksburg. We heard lots of compliments and sweet things some one said of this little beauty.

Misses Kate Draughor and Annie Herring have also taken their departure for Goshen and Floyd, where (tho' not water nymphs,) like Undine, they will be lonely and sigh for the Ulyses that is—not there.

Mr. A. B. Armstrong's pleasant and genial face was seen on the street on Monday eve., always glad to see him.

Capt. McKee was over Monday looking like he had just jumped out of a band-box and as pleasant as he looked.

Mr. Frank Miles was courting in Rayville the first of the week, thence to Monroe to have his picture struck for his best girl.

Mr. John Scott went up to Goshen Sunday morning, but the bird had flown farther on.

Mr. Hunt was out driving with Miss Kate Draughor on Sunday eve. last; we are sure they had a delightful drive.

Mrs. Maggie Johnson, the handsome daughter of Mrs. P. C. Hunter is now visiting her mother with her lovely little family; her many friends are glad to see her in their midst. Oh dear! what can the matter be with Parrot? hope she will not bid us adieu for the more the merrier.

Mr. Bennie Stein has been quite sick but we are glad to see him up again.

The handsome Mrs. Buchanan and her lovely sister, Miss Emma Dullerhide, were out paying quite a number of calls.

Peter must close as he has not much news this week, having been off visiting.

ORDINANCE NO. 2.

Be it ordained by the Police Jury of the Parish of Richland, That the Sheriff be allowed twenty-five dollars a year for taking care of the Court House and grounds.

Prof. S. D. Lucas made the following report which was received and ordered published: To the Hon. Police Jury of Richland Parish: I, S. D. Lucas, regularly appointed immigration agent for the Parish of Richland, hereby beg leave to submit this report of the work done during the summer:

In the appointment, it was specified that the work was to be done in the State of Iowa. Arriving in the State of Indiana, a feeling of unrest and dissatisfaction was perceptible. It was deemed advisable to take advantage of this condition of things, and a period of two weeks was set apart therefor.

In this time about 50 persons were individually interviewed, most of whom were farmers. A great number of these could readily see how their circumstances could be materially improved, providing they could dispose of their farms without too great a sacrifice. A few having already disposed of their lands, are renting this year, and awaiting what decision they may make in regard to emigrating. These few I consider most easily induced to come to this section, and shall keep up a correspondence with them in regard to the matter, keeping them fully posted as to important developments.

Here, also, are to be found Hub and Spoke factories, that have in the past, been doing a big business but are now suspended or moving away on account of the lack of good hickory and oak timber. A conference with the proprietors of these factories developed the fact that only two elements were necessary to insure the successful operation of these factories, viz: An abundance of suitable timber and good shipping facilities. With the present prospects of railroads, and the proper concessions on the part of the citizens, at least two of these factories can be induced to locate within the bounds of the parish.

It is impossible now to determine the actual results, or even to predict what good will come of the work, but below will be found an estimate of what has been done: No. of weeks actual work..... 5 No. miles traversed by rail or other public conveyance, about..... 3775 No. miles by private conveyances, about 75 Total No. miles..... 3850 No. persons interviewed, about..... 250 No. counties visited..... 12 No. towns visited..... 23 No. persons expecting to visit parish this fall and winter..... 10 No. persons expecting to locate in parish: Stock farmers..... 5 Truck-farmers..... 2 General farmers..... 4 Proprietors Hub & Spoke factories..... 1 Proprietor Saw mill..... 1 Investors, Speculators, Traders &c..... 3 Total..... 17

In conclusion, I would say that my efforts have proved, to me, very satisfactory, and with the concurrence of the local press, may be conducive of great good for the parish, but should certain recent issues fall into the localities which I have canvassed, a feeling of serious doubt would be produced in the minds of the more thoughtful.

I would suggest to the Hon. Police Jury that the work is at a point now at which the local press can conclude the labor that it was in the power of your agent only to begin.

Respectfully submitted, S. DECATUR LUCAS, Immigration Agent of Richland Parish.
