

Notice to School Teachers.

The County Superintendent of Potter County will be at the following places, and at the times here specified, for the purpose of examining teachers, viz:

- CLYDESSE, Thursday, the 26th of November next, at the school-house in Lewisville.
- HARRISON, Friday, Nov. 27th, at the Cummings' school-house.
- BINGHAM CENTRE, Monday, Nov. 30th, at the school-house.
- OSWAYO VILLAGE, Wednesday, Dec. 2d, at the school-house.
- SHARON, Thursday, Dec. 3d, at the school-house near the mouth of the Honeycree.
- HEBRON, Friday, Dec. 4th, at the Cranford Hill school-house.
- ROULETTE, Saturday, Dec. 5th, at the red school-house near Mr. Weimer's.
- PIKE, Tuesday, Dec. 8th, at the school-house near the mouth of the West Branch.
- COUDERSFORT, Saturday, Dec. 12, at the Academy.

The examination at each of the above places is to commence at 10 o'clock, A.M. It is expected that all the teachers will make their arrangements to be at one of these places, whichever may be the most convenient. Those, however, who attend the Teacher's Institute during the entire session, will be examined and receive a certificate (if qualified) before leaving.

Each Teacher is also requested to furnish a reading-book of the kind generally used; also a pen and ink, together with at least two sheets of paper, as a portion of the answers, in the different branches, will be required in writing. As there are increased facilities for teachers to qualify themselves for the duties of their calling, the time has come for more thorough examinations.

The "Department of Common Schools" has issued new forms for certificates, both "Provisional" and "Permanent;" the State Superintendent has also given instruction to the County Superintendents to re-examine these teachers now holding Permanent certificates, and give new Permanent certificates to such as are worthy of them; and Provisional certificates to others; also to annul the Permanent certificates of those who do not submit to a re-examination.

These instructions will be complied with, and a higher standard of qualification will be required hereafter.

It is hoped that the friends of education, and Directors especially, will be present at the examinations. A Lecture will be delivered at either of the above places, on any subject relating to Common School education, on the evening of the day of examination, if desired.

J. HENDRICK,
County Superintendent of Potter County,

American Safety-Paper Manufacturing Company of New York.

CAPITAL \$500,000.
A. NICHOLAS, President. Office 70 Wall-St.

A Perfect Security against all manner of Fraud by Counterfeiting on Paper.—To Prevent Photographic and Analytical Counterfeits, Engravings, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the new Chemical Paper in America, invented and patented in England by HENRY GUYSS, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Messrs. Brothers, extensive and skilled photographers. The Paper is made on a check or bank note printed on the Safety Paper. Below is our list of prices:

- Bank Checks, 35 cts. per lb.
- Bank Bills, \$18 for 1000 sheets.
- Bills of Exchange, \$25 for 1000 sheets.
- Promissory Notes, 40 cts. per lb.
- Sight & Time Drafts, \$25 for 1000 sheets.
- Insurance Policies, 40 cts. per lb.
- Railroad Stocks & Bonds, 40 cts. per lb.
- Bank and State Stocks, 40 cts. per lb.
- Bonds and Mortgages, 40 cts. per lb.
- Wills and Deeds, 40 cts. per lb.
- For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. per lb.
- For Indentures and Agreements, 40 cts. per lb.

All State and County Records should always be printed or written on this Paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it lasting as stone.

For Southern Climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the southern states, Cuba, the West Indies and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this Paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall Street. 10-10-5mo.

THE NEW YORK TRIBUNE.
1857-8.

THE TRIBUNE was first issued as a Daily on the 10th of April, 1841. Its Weekly edition was commenced in September of the same year; its Semi-Weekly in May, 1845. It was the first daily in America to issue a double or eight-page sheet at a low price, and it has kept at least even with the foremost of its rivals in the rapid expansion of Newspaper enterprise, which the great extension of Railroads, and the establishment of the Telegraph system have crowded into these last sixteen eventful years. No larger journal is afforded at so low a price in any quarter of the world; none in America, no matter at what price issued, pays an equal amount, weekly or monthly, for intellectual labor. It employs correspondents regularly in the leading capitals of Europe, and at the most important points on this continent, with a liberal staff of writers and reporters at home, regarding full, early and accurate information as the first object of a Newspaper, and the timely and thorough elucidation thereof as the chief end of its Editorials. In that spirit, THE TRIBUNE has been and will be conducted, extending and perfecting its correspondence so fast as the increase of its patronage will justify the expense. Should the current attempt to connect the Old with the New World by the magnetic wire prove successful, we shall very soon, at a heavy cost to ourselves, and we trust, a corresponding advantage to our readers, publish each morning a synopsis of the preceding day's occurrences throughout Europe, Northern Africa, and Western Asia, with regular reports of the markets, the monetary aspects, and harvest prospects of higher Europe. With a good staff beside him, and his daily paper on his fireside table, the American farmer or artisan within a day's ride of the city may then study each evening the doings of the civilized world throughout the day preceding; and it seems hardly possible that any man who can read, but especially one who has children to educate will longer deny himself the pleasure and profit of a daily journal. The same is true measurably of those who live further inland; though, where mails are infrequent, a Semi-Weekly, or even a Weekly paper, may seem sufficient.

THE TRIBUNE deals with questions of Political Economy, Public Policy, Ethics, Material Progress, and whatever may affect the Intellectual, Moral, Social and Physical well-being of mankind, dogmatic Theology alone excepted. Its leading idea is the honoring of honest, useful work in whatever sphere or capacity, and the consequent elevation of the Laboring Class in knowledge, virtue and general esteem. It is necessarily hostile to Slavery under all its aspects, to Intemperance in whatever form or degree with its accessories, to War, save in the defense of Country and Liberty against actual invasion, and to every form of Gambling. Desiring to see Production extended and unobstructed, while wild Speculation and useless Trade are curtailed, it favors the policy of sustaining and diversifying Home Industry by a discriminating Tariff—a policy which tends to increase the price of Grain to the farmer while diminishing that of Bread to the artisan, by reducing the distance across which their respective products are exchanged, and, of course, reducing the cost of their transfer. Regarding Fubsterism in all its phases, and every form and device of National covetousness, with unqualified abhorrence, as the bane of Republics and in their triumph the grave of Equal Human Rights; we seek by every means to woo and win the attention of our countrymen from projects of aggression abroad to enterprises of development and beneficence at home, foremost among which we rank a Railroad through the heart of our territory to connect the waters of the Atlantic with those of the Pacific. Believing that the goods of this life are not yet fairly distributed, and that no one ready to work should ever furnish in unwilling idleness, it lends an open ear to every suggestion of Social improvement which does not contravene the dictates of eternal Morality nor war upon that natural right of every one to whatsoever he has fairly produced or honestly acquired, whose denial must sink mankind into the chaos and night of barbarism and universal squallor. With a profound consciousness that idlers, drunkards, libertines and profligates can never be others (in the main) than needy and wretched, it holds aloft the great truth that Prevention is better than Punishment—that the child trained up in the way he should go, will rarely in after years

desert that way for the thorny paths of Vice and Crime—That a true Education—Religious, Moral and Intellectual as well as Intellectual—is the most effective temporal antidote to the errors and woes of our race. Recognizing in the most degraded specimen of Humanity a divine spark which should be reverently cherished, not ruthlessly trodden out, we have charity for all forms of evil but those which seek personal advantage through the debasement of our fellow-beings. The champion of no class or caste, the devotee of no sect, we would fain be the interpreter to each other of general concord between Labor and Capital, and among those whom circumstances or antagonism. A cotemporary one observes that he never knew a hard, grasping, nigardly employer, who did not hate THE TRIBUNE, nor a generous, large-souled, kindly one, willing to live and let live, who did not like it. We ask no higher praise, no warmer attestation.

The circulation of THE TRIBUNE is at this time as follows: Daily 32,000 copies; Weekly, 176,800 copies; Semi-Weekly, 16,000 copies; California and European, 6,000 copies; Total 230,800 copies. That of the Semi-Weekly and Weekly we believe to be exceeded by no other newspaper published in the world; that of the Daily falls behind that of some of our cotemporaries. Had our hostility to Human Slavery and the Liquor Traffic been more regarded and policed, our Daily issues would have been some thousands heavier and our Advertising far more lucrative; but of our patronage generally we have no reason, no wish to complain. Of late, a concerted effort has been made to diminish our rural circulation through the influence of the Postmasters, some of whom embark in it eagerly, others under political constraint; while a large number, we are happy for the sake of Human Nature to state, refuse to be dragged into it at all. Still, we have been made to feel the heavy hand of Power, and have doubtless lost thousands of subscribers in consequence. Pretends to which no individual in his private capacity would have stopped have been relied on to justify the stoppage of the rural circulation, and their retention in the Post-office till their value was destroyed. Postmasters have been schooled by rival journals—several of them living on their self-proclaimed ability to serve as an antidote to THE TRIBUNE—as to their political duty to promote at our expense the dissemination of gazettes of adverse politics. We shall outlive this warfare, but we do not affect indifference to it. In the open field of discussion we fear nothing; but in the tents of thousands of rural neighborhoods where the Postmaster can induce many of his quiet neighbors to take the journal he recommends, we have already lost some patrons, and expect to lose many as our subscriptions for this year expire. We appeal, therefore, to the hearty, faithful, fearless advocates of Free Labor and Free Soil throughout the land to take care that this official warfare on our circulation be not prosecuted without counteraction. We employ no traveling agents, for we will not consent to have the public harassed with the solicitations of strangers in our behalf. We strike the name of each subscriber to our Weekly or Semi-Weekly from our books so soon as his term has expired, for we will not haunt our patrons with duns for arrears which they may say they never intended to incur, for papers which perhaps they never read; we rely for the renewal of our club subscriptions solely on the volunteered efforts of those who, liking our paper, believe its influence salutary and worthy to be extended; and thus far our reliance has been justified, as we trust it may continue to be.

THE TRIBUNE is printed on a large imperial sheet, 32 by 44 inches, folded in quarto form, and mailed to subscribers at the following TERMS:

- DAILY TRIBUNE, per annum \$6 00
- SEMI-WEEKLY TRIBUNE, One Copy, one year \$2 00
- Two Copies, one year 5 00
- Five Copies, one year 11 25
- Ten Copies, to one address 20 00
- WEEKLY TRIBUNE, One Copy, one year \$2 00
- Three Copies, one year 5 00
- Five Copies, one year 8 00
- Ten Copies, one year 12 00
- Twenty Copies, to one address, and any larger number at the rate of \$1 per annum 20 00
- Twenty Copies, to address of each subscriber, and any larger number at the rate of \$1, each 24 00

Any person sending us a Club of twenty or more, will be entitled to an extra copy. Subscriptions may commence at any time. Terms always cash in advance. All letters to be addressed to

SUFFER NOT!
When a CURE is guaranteed IN ALL STAGES OF SECRET DISEASES.

Self-Abuse, Nervous Debility, Strictures, Gleet, Gravel, Diarrhea, Diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, Diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancer, Dropsy, Epileptic Fits, St. Vitae Dance, and all diseases arising from a derangement of the Sexual Organs.

SUCH as Nervous Trembling, Loss of Memory, Dimness of Vision with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the face, Pain in the back and head, Female irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all the means of cure, causing no sickness and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret Diseases are the greatest enemies to health, as they are the first cause of Consumption, Scrofula, and many other diseases, and should be a terror to the human family. As a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the disease but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid Consumption.

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions on other affections of the skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self-Abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferer that millions have their constitutions ruined by the vile compounds of quack doctors, or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so called Patent Medicines and find that nearly all of them contain Corrosive Sublimates, which is one of the strongest preparations of mercury and a deadly poison, which instead of curing the disease disables the system for life.

Three-fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and females treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the United States or Canada, by patients communicating their symptoms by letter.—Business correspondence strictly confidential. Address:

NEW GOODS—A Fine Assortment just received at OLMSTED'S.

GREAT REVOLUTION IN MEDICAL SCIENCE. The best Therapeutic Agent ever introduced.

DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE is existing the absorbing attention of the Medical Profession and a large portion of the intelligent laymen of the land. It is now clearly demonstrated that the lancet, mercury, and all other internal "drug medication" may be laid aside with perfect safety to the patient and abiding benefit to posterity. Wherever these machines have been introduced, they excite the highest wonder and praise. The apparatus is adapted to prevent, relieve and cure every disease incident to humanity,—more particularly all those painful and formidable diseases which have for centuries baffled the profoundest learning, and skill of physicians.

From whatever cause there may be an excess or deficiency of the nervous fluid—producing an excess or deficiency of the acids and alkaline secretions—the magnetic principles of the system are deranged, and can only be safely restored to their normal condition by an application of magneto-electricity, by means of DR. DICKINSON'S MAGNETO-ELECTRIC MACHINE. This apparatus will positively prevent, and speedily relieve and cure Consumption, Scrofula, Rheumatism, Palsies, Neuralgia, Spinal Diseases, and all other painful maladies, however hopeless and of long standing. They are eminently useful in all sexual and urinary disorders, particularly where the Constitution has been broken down and ruined by unnatural solitary habits, to which too many of the young of both sexes are so lamentably prone.

It is, in fact, a handsome parlor ornament; may be applied by a child; and will last a life-time, to the great saving of Doctor's bills, &c.

PRICE OF THE MACHINE \$10. It will be safely packed and sent to any part of the United States. Sold wholesale and retail at the Medical Office, No. 28 NORTH SEVENTH STREET, Philadelphia. Address: A. C. DICKINSON, M.D.
