October's Harvests.

When we think of the glowing woods and purple lights and mists of October, it seems impossible that the analysis and descriptions of this month's work can be obtained in meager words and uninteresting narrative.

Theoretically, October should be a sad month, for then the harvests are mostly gathered in, the fields are bare of the Summer's verdure, the woods in the first stages of leafy decay, the birds gone or going to more genial climates, the garden rusty and full of seedy or frost-stricken flowers; every thing telling of the departure of genial Summer and the approach of chill Winter.

How opposite to this is the truth! Now the farmer's heart overflows with the consciousness of his wealth. The rent-roll of the largest land-owner, the stocks and bonds of the richest broker, the ships and warehouses of the most princely merchant, can never give their owners such an overflowing and contented feeling of well-earned labor, as the crowded barns and granaries, and well-stocked litters and folds give the farmer. He has labored hard through the Summer's heat, has cast many anxious glances at the clouds and winds, has listened with strained ear for the creaking of ponderous wagons loaded with hay, as his experienced eye reads the threats in the gathering clouds.

But now under his own roof are gathered the accumulated and condensed rays of the sun and breaths of Summer zephyrs; the earth's fatness and its increase have contributed to make him rich. As he stands on his barn floor with the last rays of the sun just gilding the contented faces of the cattle enjoying their evening meal, or chewing their cud, and hears the rhythmic heating of the milk on the empty pails or its muffled sound as the rapid stream is lost in foam, harmonizing with the quiet cooing of pigeons on the occasional drowsy remembrance of some hen up chicken crowded on the well-filled roost, his heart cannot fail to overflow with gratitude and thanksgiving for God's goodness and nature's bounties.

The undeniable signs of wealth on all sides give him more positive satisfaction than any less tangible property can awaken in its owner. The miser to enjoy his hoard must lock his door and chink the gold pieces together, else half his pleasure is wanting. Bare ownership never rewards men; the reward is in seeing the possession, and showing it to others. The well-filled crib, the high-piled hay-stack or hay, the low of sleek cattle, the peaceful bleat of sheep, all reiterate in tones unmistakable to us and to our neighbors, our prosperity and thrift, and bear constant witness to our Summer's work.

Go to a farmer at such a time if you wish him to contribute to any worthy cause, and you will scarcely be refused.

And it is not the farmer only that October cheers and delights. To the eyes of all who love nature, it offers, not decay and death, but a rich display of her choicest beauties. Every tree is now decked in its most glowing attire; it seems as though all the sun's warmth and the earth's rich fatness had been collected and absorbed, only to be returned infinitely increased and improved. The air feels its duties enlarged, and is changed into blue and purple mists, that envelope all the hills and fills the valleys. Nothing is as it was. The hedge-rows that all Summer long have been the home of the third and the thrush, and whose floral beauties have hidden their heads in the thick verdure and shadow from the too ardent caresses of the sun, are now radiant with the yellow golden-rod and the purple aster; in the brown meadows these flowers are almost put to shame by the rare blue of the gentian. Rising from the meadows through these flower mists of asters and golden-beds, gaining intensity of color as it reaches the birches, maples, chestnuts and oaks, bleended together and yet made more brilliant by the purple atmosphere, the spirit of beauty in color grows more and more wonderful and magnificent, till the splendors of the earth rival those of the sunset. It seems as if a consciousness of the long sleep of Winter, now near at hand, had roused the material world to show its gratitude to its Lord and Master for his constant care and kindness—for the gentle rains and winds of Spring—for the hot and stimulating suns of Summer—for the bounteous harvests of Autumn—into one resounding hallelujah, in whose song the voice of the smallest flower is not lost, though blended with the mighty tones of forest and mountain.

His heart must be dead who can walk the woods and fields now, careless or unconscious of the beauty around him.

The harvest of the farmer is nearly over, and although

"—Like coals of fire the apples Glow among the withered leaves,"

he has little more to look for. But now is the very high noon of the harvest of beauty, which beginning for the true lover of nature in the violet and May-flower of the Spring, has been constantly swelling by brook and river, in the deep valley and up the hill-sides, all Summer long, till now its fully ripened field is spread out over every inch of the earth's surface, and only waits the sickle of the reapers, who may cut and store away in their memories seed grain which shall feed their minds in all the years to come, and grow and swell in them, shall make them fit to participate in all the bounties that

God so lavishly pours upon his children through nature.

Reminiscences of Senator Broderick.

[We find the following reminiscence of the late Senator Broderick in the N. Y. Tribune of the 12th inst. Mr. Broderick was killed in a duel, near San Francisco, Cal., on the morning of the 13th ult, by Judge Terry. The death of Mr. Broderick was pre-determined by the friends of Dr. Gwin, the administration leader in that State, and his funeral cortege was the largest ever witnessed there, evidencing the general popularity of the man. We commend the following to the attention of those of our young readers who are wasting their lives in drinking and debauchery. It is an excellent lesson for their study.—Ed. Jour.]

REMINISCENCES OF BRODERICK.

Mr. Broderick was the son of a stone-cutter, who practiced his calling in the City of Washington, where Senator Broderick was born. He died himself on this birth; he once said in the Senate, that he could then look around him and see upon the walls the works of his father's chisel. On coming of age (I think before), he went to New-York, and "ran with a machine" for a time. He afterward kept a sort of port-house; but, even under the influence of these associations, he eschewed drinking and debauchery. At an explosion of fulminating shells at a foundry in New-York, some years since, his only brother, who sat astride one of the shells, and in clearing out the contents produced the explosion, was blown to atoms; and thus perished the only person on earth known to me, in whose veins "flowed a drop of my blood" (Broderick to his wife).

In 1848-49 Broderick removed to California, and, in partnership with Fred. D. Kohler, went into the assaying business. When Senator Nathaniel Bennet was chosen Justice of the Supreme Court by the Legislature, Broderick succeeded him as Senator from San Francisco, and was re-elected, serving in the sessions of 1850, 1851, 1852, and 1853. He was a bold and fearless legislator, and resisted to the last the infamous slave-law passed by the Legislature of (I forget the year). His morals were much higher than those of the average of his legislative compatriots. He said in one of his speeches in the late canvass in California that "no man had ever seen him drunk, or at the gambling table, or in a brothel." This was literally true. Moreover, he was no official defaulter to the Government (vide Gwin), and he paid his debts like an honest man. But the great value of his life consists in the example of self-redemption and self-culture which it affords. He early appreciated his deficiencies, and undertook to remedy them. He became a hard student; he was in the habit of applying to judicious friends, stating his special defects, and of asking their advice and assistance in laying out a course of reading and study. Thus he avoided the waste of time which results from desultory pursuits, and his attainments were solid and systematic. He was a young man of great promise. His qualities were sterling; he never forgot a friend; he was placable to his enemies; he was true to his word.

The duello in California is an institution to which public men must conform, or renounce political ambition. It is even a protection to gentlemen against the less regulated violence of sudden encounters and street fights. That Broderick was to be killed, if possible, has been evident from the commencement of the late canvass. He was often provoked and insulted, but publicly announced that he would not fight until the canvass was over. Gwin announced his intention to fight him, but no one thought he would kill Broderick himself. It was done a la Johnston and Ferguson, by one of his pigeons.

HUMPHREYS' SPECIFIC

HOMOEOPATHIC REMEDIES, HOMOEOPATHIC REMEDIES, HOMOEOPATHIC REMEDIES, HOMOEOPATHIC REMEDIES, HOMOEOPATHIC REMEDIES, No. 562 BROADWAY, No. 562 BROADWAY, No. 562 BROADWAY, No. 562 BROADWAY, No. 562 BROADWAY.

THE GREAT FEATURE THE GREAT FEATURE THE GREAT FEATURE

Of this series of Domestic Remedies is that each particular medicine is a Specific for the particular disease or class of diseases whose name it bears, and may be relied upon for the cure of that particular affection. Hence, persons suffering from a chronic disease or long-standing ailment, in buying a case of HUMPHREYS' SPECIFICS, obtain the particular one desired in their case, and thus themselves make a cure which otherwise would cost them many dollars, and no small amount of time and medical attendance, if, indeed it could be obtained at all.

Thus multitudes suffer from DYSPEPSIA, BILIOUS CONGESTION, COASTSSES, BAD TASTE, COATED TONGUE AND DENSITY, which is perfectly controlled and cured by the

DYSPEPSIA SPECIFIC.

There is scarcely a phase or form of this disease which is not promptly controlled and ultimately cured by the use of this Specific. Thousands who have suffered for years with this "Bilious Condition" having purchased a case of these Specifics, have obtained a perfect cure and immunity from their old complaint.

COUGHS, COLDS AND SORE THROATS, which so frequently lead to BRONCHITIS AND CONSUMPTION, are all in their early stage secured by the

COUGH PILLS.

Many cases of long standing Bronchitis and irritating Coughs have been perfectly cured by this specific. But more! many persons have a specific liability to colds and take them from the least exposure. This will be entirely relieved by the use of the COUGH PILLS, as scraps can testify from experience. So

CATARRH

is one of our most common and most troublesome diseases, against which the Old School Medicines and even Homoeopathic Prescriptions, are of very little use. Yet hundreds of persons have been cured of not only recent and fresh, but even long standing and obstinate cases of CATARRH by the use of this specific.

One aged lady in Syracuse was thus perfectly cured of a Catarrh, which had annoyed her all her life. A young lady at one of our first-class boarding schools, who was so afflicted with this disease as to require more than forty handkerchiefs a week, was entirely cured in a single week by this Specific.

PILES.

bleeding and blind, is one of those common and obstinate forms of disease which are so difficult to cure on the ordinary methods, but which find an entire and fundamental cure in the Piles Specific. True, time is required; but the Specific is pleasant to take, requires neither diet nor restraint, and being followed up a perfect cure is the result. Hundreds of persons, in purchasing a case of Specifics, have obtained a cure for this most trying and obstinate form of disease, which has been worth to them ten times the cost of the entire set. Cases of over twenty years' standing have been cured with this simple Specific, and we believe all may be cured by perseverance. The case contains the best

FEVER AND AGUE SPECIFIC

known. A remedy without any deleterious or poisonous substances, which not only cures the ague, and old, mismanaged agues, but may be relied upon as a preventative when persons are residing in a fever and ague district. It prevents or protects upon the same principle that vaccination prevents small-pox or belladonna prevents scarlet fever, by pre-occupying the system with true Specifics. Hundreds have been thus protected and cured.

The Ophthalmic Specific

has proved a most invaluable remedy for SORE EYES AND EYELIDS, and for WEAK AND BLURRED SIGHT. One lady in Indiana, who had been a sufferer from sore eyes for many years, and for two years was entirely blind, was cured perfectly by the Ophthalmic Specific alone.

HEADACHES,

to which so many are subject, finds a curative in the case. There is a specific which relieves at the time of the attack, and also one which corrects the condition of the system upon which it depends, and so destroys the predisposition to return.

The Specific for the various forms of FEMALE COMPLAINTS

have proved invaluable. Old long standing LEUCORRHOEA OR WHITES, are attended with debility of exhaustion, and for which other forms of medicine are of little value, are fully controlled and cured by the FEMALE PILLS, while the specific for irregularities control almost every form of scanty, painful or irregular menstruation.

DIARRHOEA AND SUMMER COMPLAINTS

in adults or children are controlled like magic by the Diarrhoea Pills, while it may be averred without the possibility of successful contradiction, that the Dysentery Pills are the most perfect Specific for that disease known.

For the various forms of FEVERS, SCARLET FEVER, MEASLES, and other diseases of children, the Fever Pills may be safely and surely relied upon. These Specifics are the prescriptions of Prof. HUMPHREYS, used for years in his extensive practice, and to the perfection of which he has devoted the resources of extensive knowledge, experience and study.

The public may rest assured that during the life-time of Dr. H. no one has been or shall be entrusted with the preparation of his Specifics, and he offers the guaranty of his professional life and reputation that they shall be just as he represents them.

They have now been before the public for five years, and have everywhere won golden opinions from the many thousands who have used them.

Simple, free from intricacy, technicality, or danger, they have become the ready recourse and aid of the parent, traveler, nurse, or in-

valid, and have become the family physician and medical adviser of thousands of families. Nowhere have they been tried without having been approved, and their highest appreciation is among those who have known them longest and most intimately.

Every Family will find these Specifics all they have been recommended: prompt, reliable, simple and efficient; often a friend in need and a friend indeed.

SOMETHING NEW.—B. T. BABBITT'S BEST MEDICINAL SALERATUS.

Is manufactured from common salt, and is prepared entirely different from other Saleratus. All the deleterious matter extracted in such a manner as to produce Bread, Biscuit, and all kinds of Cake, without containing a particle of Saleratus when the Bread or Cake is baked; thereby producing wholesome results.

Every particle of Saleratus is turned to gas and passes through the Bread or Biscuit while baking; consequently nothing remains but common Salt, Water and Flour. You will readily perceive by the taste of this Saleratus that it is entirely different from other Saleratus.

It is packed in one pound papers, each wrapper branded, "B. T. Babbit's Best Medicinal Saleratus"; also, picture, twisted loaf of bread, with a glass of effervescing water on the top. When you purchase one paper you should preserve the wrapper, and be particular to get the next exactly like the first—brand as above.

DR. MORSE'S INDIAN ROOT PILLS.

Above we present you with a likeness of DR. MORSE—the inventor of MORSE'S INDIAN ROOT PILLS. This philanthropist has spent the greater part of his life in traveling having visited Europe, Asia, and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sulfuriferous, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage to the lungs; and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a diuretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out beautifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely rout out, and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your day.

CAUTION:

Merchants and Traders will be on their guard and not be imposed upon by a Counterfeit of Dr. Morse's Indian Root Pills, signed A. B. Moore. All genuine Pills will hereafter have the name and signature of B. LAKE JUDSON, (successor to A. J. White & Co.) on each box.

Scrofula, or King's Evil.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, pervades the whole body, and may burst out in disease on any part of it. No organ is safe from its attacks, nor is there one which it does not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, and filthy habits, the depressing vices, and above all, by the venereal infection. When ever by its origin, it is hereditary in the constitution, descending "from parents to children, into the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which renders the blood, deprives the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which estimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from it, and are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must remove the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla.

the most effectual remedy which the medicinal art of our times can devise for this ever-recurring and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptions and Skin Diseases, ST. ANTHONY'S FIRE, ROSA, or ERYSIPELAS, PIMPLES, PERRIEN'S BLOTCHES, or BLAISES AND BOTTING, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SCURVY, and GONORRHOEA, LEUCORRHOEA, DYSENTERY, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITiated or IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth; for scrofula is a degeneration of the blood. Its particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSICIAN, so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of the properties, the invalid who is bowed down with pain or physical debility is astonished to find health or energy restored by a remedy at once simple and invigorating.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named, pleased to furnish gratis my American Almanac containing certificates of their cures and directions for their use in the following cases: Catarrh of the Stomach, Nausea, Indigestion, Pain in and Derangement of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints arising from a low state of the body or obstructed functions.

Ayer's Cherry Pectoral.

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons who have been restored from almost every desperate disease of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to need observation, and where its virtues are known, it is no longer hesitated to employ it to cure the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon
