

REGULATE YOUR BOWELS AND STOP HEADACHES, COLDS, SOUR STOMACH

Cascarets make you feel bully; they immediately cleanse and sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. A Cascaret to-night straightens you out by morning—a 10-cent box from any druggist keeps your Stomach regulated, Head clear and Liver and Bowels in fine condition for months. Don't forget the children.

THE DAILY HINT FROM PARIS.

Youthful evening gown of yellow muslin de sole over yellow satin. Lace underbodice, silver ribbon tissue sash.

CALLS SLAYING AN ACCIDENT

William McEvoy Accused of Killing Robert McCarron

Norristown, Pa., Oct. 9.—William McEvoy, a Conshohocken quarry boss, charged with the murder of Robert McCarron, of Conshohocken, in the home of Warren Cliniff, Conshohocken, in court yesterday testified that McCarron's death was the result of an accident.

The principal witnesses for the Commonwealth were Mr. and Mrs. Cliniff, in whose home the shooting occurred. Mrs. Cliniff testified she saw McEvoy shoot McCarron, while Cliniff, who was asleep on the parlor floor, says he was aroused by his wife in time to see McEvoy standing near McCarron with a revolver in his hands.

The trial, which began Wednesday morning, will consume another day. The prominence of the principals has attracted a large number of Conshohocken people to the court.

War Booming Marietta Industries

Marietta, Oct. 9.—The war now raging in Europe is booming a number of the industries of this section. The Marietta silk mill is installing new machinery to fill orders that are booked, and the cigar manufacturers are working overtime. There is a scarcity of help in this section among men, women and girls.

Hog Cholera in Lancaster County

Marietta, Oct. 9.—Hog cholera has again made its appearance in the northern end of the county. Many large and valuable hogs have died from the disease, and efforts to stamp it out are in progress. At Ephrata the loss has been the heaviest.

DON'T NEGLECT YOUR STOMACH

If It's Upset Mi-o-na Puts It Right and Ends Distress

If you are one of the thousands who cannot eat a simple meal without its lying in the stomach like lead, fermenting and causing painful distress, sourness and gas, do not delay but get at once from Mi-o-na—a simple prescription to be had at any druggist's—that quickly and effectively ends indigestion and corrects bad stomachs.

You must not allow your upset stomach to go from bad to worse for there will surely be longer periods of food fermentation causing greater agony, more gas, sick headache, unrefreshing sleep, "blue spells," and nervousness.

A few Mi-o-na tablets are just what you need. Use them freely at the first sign of distress. Mi-o-na not only quickly ends the misery, but helps to unplug the liver and strengthen the stomach—then your food is properly digested.

Mi-o-na is not only inexpensive but H. C. Kennedy sells it with agreement to refund the money if it does not give satisfaction. Adv.

CONTRACTION IN VOLUME OF ORDERS CONTINUES

Steel Corporation's Unfilled Orders Expected to Show Large Reduction for September—New Orders Fell Off Last Week

The "Iron Age" says: Contraction in the volume of new orders for steel products continues. Its effect on the operation of mills has not been pronounced thus far, though in some lines specifications also are falling off considerably, but it is plain that running schedules must be cut down more before they improve.

The Steel Corporation's total of unfilled orders which will be published this week is expected to show a large reduction for September. Last week its ingot production was at 60 per cent. of capacity, and this has been substantially the rate for several weeks. New orders have fallen off sharply with all steel companies in the first week of October. Some have booked at 25 per cent. of capacity this month; in the Chicago district the rate has been but little over 10 per cent. Following the record of the year, another buying movement would be due in December. The preceding ones were January-February and June-July.

The posting of the required 90-day notice of wage readjustment by the Carnegie Steel Company has been widely interpreted as pointing to a general reduction. The fact is that, while formerly this notice was given each year, whether reductions were made or not, it has been omitted for two or three years and now its posting is resumed. For the Steel Corporation the statement has been made that it has not now any intention of reducing wages.

Publications of specific export orders for steel in the past week have included much guesswork. Other weeks since the war opened have had larger totals, but the volume is still good. Thus far none of the expected 100,000 tons of sheet bars for Great Britain has come to this country. Wire rod and wire business has been notable. European governments have ordered on a considerable scale in several lines, and the machine tool trade has been particularly encouraged by these orders.

Plate mills have been the hardest hit by the stagnation in railroad and other home-buying and there is a larger percentage of idle plate capacity than in any other line. At Chicago prices have gone to a 1.10c Pittsburgh basis, and 1.15c Pittsburgh can readily be had in the East. The two battleships on which bids were opened this week will each require 13,000 to 14,000 tons of plates.

The Lackawanna's latest rail order, about 13,000 tons, has been virtually closed, going to an eastern Pennsylvania and a New York State mill. The Southern railway will buy 3,500 tons additional. For the present the C. H. & D. orders for 2,000 cars reported placed some weeks ago are held up for lack of financing.

Scattering inquiries for galvanized sheets for South Africa, India, China, Cuba and the Philippines is an interesting feature as the home market drags.

In the tube trade, with merchant demand still halting, two line contracts have been taken—10 miles of 6-inch pipe for the Greensboro Natural Gas Company in Pennsylvania and five miles of 10-inch for the Oklahoma Natural Gas Company.

Pig iron production fell off in September, the total being 1,882,577 tons, or 62,753 tons daily, against 1,935,261 tons, or 64,363 tons a day, in August. There was a net loss of 11 furnaces and the capacity active October 1 was 60,427 tons a day, the smallest since July, 1911. Merchant furnaces turned out 16,409 tons a day in September, which is their smallest rate in three years.

J. BORDEN HARRIMAN DYING

Former New York Banker in State of Coma Many Hours

Mr. Kisco, N. Y., Oct. 9.—J. Borden Harriman, a former New York banker, is in a dying condition at Uplands, his country mansion. Dr. Charles Chapman says the patient has been in a state of coma thirty-six hours.

Mr. Harriman's condition is very critical," said the physician. "He is suffering from digestive trouble, with which he has been afflicted many years. He has not recognized any one for two days."

Mrs. Harriman is at her husband's bedside. All the members of the Harriman family were at Uplands yesterday, among them being Mr. and Mrs. Oliver Harriman, Herbert and Joseph Harriman.

BAND LEADER DIES SUDDENLY

Professor Fred Gerhard Directed Third Brigade Organization

Pottsville, Pa., Oct. 9.—Professor Fred Gerhard, leader of the Third Brigade Band, and founder and conductor of the Gerhard Symphony Orchestra, died yesterday in the midst of a party of friends with whom he was talking, apparently in the best of health. He fell on a table with a slight attack of vertigo, did not lose consciousness and nothing serious was anticipated, but even with medical aid at hand he began to sink and died quickly.

He was fifty years old, and was regarded as the master musician of this end of the anthracite region. He only recently completed a tour of Europe, enlarging his knowledge of musical technique.

THE TORTURES OF RHEUMATISM

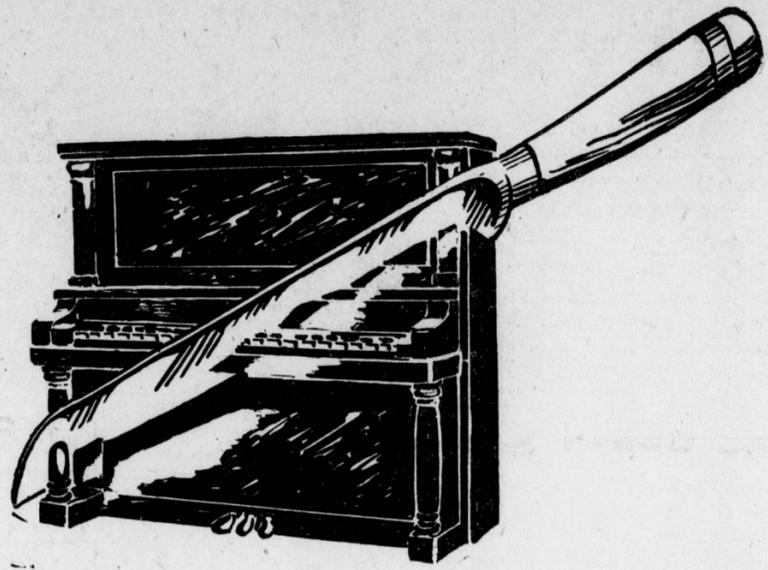

are always aggravated during damp, changeable weather and ordinary treatments are often useless.

Such conditions need the oil-fool in Scott's Emulsion to reduce the injurious acids and strengthen the organs to expel them.

Scott's Emulsion, with careful diet for one month, often relieves the lame muscles and stiffened joints and subdues the sharp, unbearable pains when other remedies have failed.

NO ALCOHOL IN SCOTT'S.

One-Half Price One-Day Cash Sale

Any piano you select in this half-price sale will cost you less than wholesale cost. Three reasons force the necessity of this move upon us:—

- 1st—We desire to keep our Factory running during these dull times so as not to lose any of the skilled workmen which the Factory has spent years to train.
- 2nd—We have a surplus of stock owing to the discontinuance of our rural business for the winter, therefore bringing many pianos back to the store which were not sold.
- 3rd—The fact that we were obliged to repossess a number of instruments used only a few months on which the payments were not kept up.

You may select any instrument in the store and pay exactly one half of what it is worth or the regular price.

\$250 Pianos will be \$125, up to \$750 Player Pianos which will be \$375. This offer needs no argument. It speaks for itself and if you fail to take advantage of it, it is not our fault.

The store will be open from 8 o'clock in the morning until 11 o'clock at night—Saturday, October 10th, which will be the only day for these prices.

These prices will be for spot cash or we will accept a good note bearing interest, in payment. Remember the day, SATURDAY, OCTOBER 10th at the

WINTER PIANO STORE 23 NORTH FOURTH ST.

PREDICT BUSINESS REVIVAL

Pennsylvania Hardware Dealers Say Trade Outlook Is Brighter

Reading, Pa., Oct. 9.—The Pennsylvania Wholesale Hardware and Supply Association held its convention here yesterday with delegates present from Wilkes-Barre, Reading, Scranton, Lancaster, Hazleton, Pottsville, Lebanon, Lewisburg, Danville, Kingston, Ashland, Williamsport, Huntingdon, Johnstown, Allentown and Bradford. Later they proceeded to Mineral Spring Hotel here and an executive session was held, followed by a discussion of trade conditions.

The visitors expressed the unanimous sentiment that the country is on the eve of a remarkable revival of business and that the trade outlook at this time is considerably brighter than it was a few months ago. Not a few made the prediction that better times are sure to follow the November election.

MRS. GOULD DEFENDS SISTER

Breaks Silence of Years Concerning Wife of Chinese

San Francisco, Oct. 9.—Mrs. Howard Gould, of New York, yesterday rallied to the defense of her sister, Mrs. Wong Sun Yue, wife of a San Francisco Chinese. Pausing during the trial yesterday of her suit for slander, brought against Harry Lewis, a Chinatown guide, Mrs. Gould broke her silence of years regarding her feelings for her sister who married an Oriental.

"I not only love my sister dearly," said Mrs. Gould, "but I like her husband and have been calling on them in their home in Chinatown almost daily. If my sister wishes to live in China with her husband it is her own affair, and I for one do not condemn her—I admire her courage."

"I am waging this fight against these Chinatown guides as much for my sister as for myself," she continued. "I want to go back to my friends in New York with this slur taken from my name and my husband's name. The circulars and pictures of my sister taken in front of her home in Chinatown are sent broadcast. I refused to stand the injustice any longer."

Lewis was held for trial before the Superior Court on a charge of criminal libel.

Mrs. Wang Sun Yue leaves for China on October 24, to make her home with her husband's people.

WINNIPEG "FIRE BUG" CAUGHT

\$200,000 Blaze Starts Soon After He Receives Sentence

Winnipeg, Man., Oct. 9.—Fire, believed to be of incendiary origin, broke out yesterday in the J. A. Banfield warehouse, and it is estimated that the damage will be more than \$200,000.

Several days ago Banfield received Black Hand letters, saying that if \$500 were not produced, his warehouse would be burned. Police arrested Alex Stewart as the author and yesterday he was sentenced to five years in the penitentiary. A few minutes later Banfield's warehouse was on fire.

Two Burned to Death

Duluth, Minn., Oct. 9.—Bert Clark and Frank L. Leary lost their lives and several other persons had narrow escapes yesterday in a fire that destroyed Leary's home.

DEFIES THREATS OF LYNCHING

Will Stay in Atlanta and Work to Save Leo Frank

Atlanta, Ga., Oct. 9.—Attorney W. M. Smith, who declares that he now believes his former client, Jim Conley, murdered Mary Phagan and that Leo M. Frank is innocent, issued a remarkable statement yesterday. In it he defies his foes and threats of lynching, which he says have been made against him. Smith says in part:

"I want it understood that though I am condemned by every citizen in this town, county and State as a traitor, a scoundrel and a man who has sold out, I intend to stick by my guns, figuratively and literally."

"I do not intend to be intimidated by the cowardly character assassins who will use a brute who has choked and murdered this sweet little Southern girl, to damn and destroy me among these people."

"I shall stay here and work to save Frank, although I have taken the precaution to send my wife and children elsewhere, so as not to endanger them. Frank is innocent and Conley is guilty, and it will be proven."

WHITE GIRL WITH GYPSIES

Child in Indiana Camp Thought to Have Been Kidnapped

Gary, Ind., Oct. 9.—A white girl, 6 to 9 years old, was seen by school children in a gypsy camp here. A boy, Emil Belosa, 11 years old, says he recognized her as a girl he went to school with in New York last year. The story was told to the police and Mayor Johnson.

A posse of officers has surrounded the woods in which the gypsy camp is located in an endeavor to locate the child. It is believed she has been kidnapped.

Acquit Brother-in-law's Slayer

Media, Pa., Oct. 9.—The jury yesterday acquitted Ferdinando Spilitino, charged with the murder of his brother-in-law, Louigi Davero, at Glen Mills, the night of August 16, Spilitino admitted the killing but showed by witnesses that he acted in self-defense.

In Their Own Coin

When S. R. Crockett offered his first book to a certain firm of publishers they returned it with a curt note informing him that there was "no market for this sort of work." In the corner of the note was the index mark "No. 396C."

Some time later, when Mr. Crockett had become famous, this same firm wrote asking him to allow them to publish his next book. Mr. Crockett, who had carefully preserved their former rude letter, politely replied by asking them to refer to their own letter book under the sign "No. 396C." That closed the correspondence.

Dreams

The seven-year-old boy who told his sister that "dreams are only moving pictures in your mind" gave a better definition of the fancies of slumber than can be found in the dictionaries.

Similar Situation

Arthur—Ferd says it costs him no more to live now than it did ten years ago.

Egbert—He's quite right. He was living on his father then, and now he's living on his father-in-law.—Philadelphia Bulletin.

DON'T LIKE GOLD COINS

Why Some Federal Employees Prefer Their Pay in Paper Money

"Worth its weight in gold," is an old saying, but government employees of certain departments in the federal building say time has not worn off any of its edges. When it comes to the gold, however, especially gold coins, it is a different story. That is why certain government employees spurn gold and demand notes. They say that they lose money every time they are paid in gold because the coins become worn through constant circulation and the government will pay in redeeming them only what they are worth in weight.

In some of its departments the government always pays in gold. The heavy coins make bulky pocket pieces, and there is a rush to get them exchanged for notes. Recently local banks have apparently been flooded with gold currency, and when the government employees go to bank and ask for notes in exchange for the gold coins they are informed that the bank already has much gold on hand and advised to go to the sub-treasury.

When the gold coins are tendered at the sub-treasury clerks there carefully weigh them and then deduct for loss of gold which may be born off the edges and surface of a coin by constant circulation. In some instances the deductions amount to as high as 50 cents. Those who have been docked are asking why the United States pays its employees with money which it will not redeem at face value.—Philadelphia Inquirer.

Moon Theories

There is a theory that the circular, crater-like Mountains of the Moon are not of volcanic origin, but are the result of the moon's being hit by planetoids. Another theory is to the effect that the earth was at one time encircled by a ring similar to that which now encircles Saturn and that this gradually coalesced, gathering first around a large number of nuclei and finally uniting in a single sphere—the moon.
