Snooks is the young man, it is claimed, who informed Sheriff King of a plot to break jail, and which resulted in John H. Makes Stubborn Coughs Vanish in a Hurry Surprisingly Good Cough Syrup Easily and Cheaply Made at Home If some one in your family has an obstinate cough or a bad throat or chest cold that has been hanging on and refuses to yield to treatment, get from any drug store 2½ ounces of Pinex and make it into a pint of cough syrup, and watch that cough vanish. Pour the 2½ ounces of Pinex (50 cents worth) into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 34 cents, and gives you a full pint—a family supply—of a most effective remedy, at a saving of 82. A day's use will usually overcome a hard cough. Easily prepared in 5 minutes—full directions with Pinex. Keeps perfectly and has a pleasant taste. Children like it. It's really remarkable how promptly and easily it loosens the dry, hoarse or tight cough and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. A splendid remedy for bronchitis, winter coughs, bronchial asthma and whooping cough. Pinex is a special and highly concentrated compound of genuine Norway pine extract, rich in quinine, which is so healing to the membranes. Avoid disappointment by asking your druggist for "2½ ounces of Pinex," and do not accept anything else. A guarantee of absolute satisfaction goes with this preparation or money promptly refunded.
