DECLARES COFFEE HELPS IN MAKING ALCOHOLICS

W. C. T. U. Doctor Says Drunkenness Is Often Caused by Children Drinking Tea and Coffee

In its fight for prohibition the National W. C. T. U. is now considering some of the feeders of the alcohol appetite. Two of the most common of these feeders, almost universally disregarded in this connection, are tea and coffee, avers Dr. Charlotte Abbey, superintendent of the New York Woman's Directory of the W. C. T. U.

"Drunkenness," says Dr. Abbey, "is the result of the children drinking tea and coffee, by which the nerves are continually stimulated until a craving for something stronger is formed. Children should be taught the danger of this in the schools, as parents are too apt to disregard the importance of it. Tea and coffee are just as harmful to children as alcohol is to grown-ups."

"The thing for parents to do," says Dr. E. A. Peterson, Medical Director of the Cleveland public schools, "is to keep coffee and tea out of the reach of our little citizens. The most unkind thing a mother can do is to place a cup of coffee before her child."

MAKING INVESTMENTS

Safety of Principal Is More Essential Than Big Returns

First, here is a quotation from a thrift preacher: "Many fortunes have been made and many more will be made through wise investments. Many fortunes are lost, too, through unwise investments. But thrifty habits and consulting with experienced persons like conservative bankers will give one the wisdom necessary to handle money wisely."

The second, I set down a quotation from the advertisement of a wise and conservative investment banker: "In lending or investing money all possible care should be taken to guard against hasty or impulsive decision. Every endeavor should be made to assemble such reliable information as will permit of the exercise of intelligent judgment. The man who assumes this responsibility to have an increasing regard for the element of conservatism, and is ordinarily the first man to seek the co-operation of investment experts."

Conservatism in investment means, first of all, keeping the principal sum safe. What profits it to get 7 or 8 per cent. a year on your money for three or four years if at the end of that time misfortune of any sort overtakes the economy you invested in to such an extent that you would find what you have paid \$100 for is worth only \$75? And when you leave the road of conservatism in putting your money out you are likely to have.

Better keep your money in the savings bank, where it will earn about 4 per cent. and where, if you wish, interest will be compounded, until you are positively certain of the soundness of the investment, and you receive. Adding to the saved sum in a savings bank, too, is a mighty good way to fasten the thrift habit upon yourself. Choose as your first adviser in investment some one who has selected investment from his learn what the elements of sound investment are. Go slow!—John M. Oskison in Chicago News.

LURE OF THE OPIUM PILL

And the Way the Cost Piles Up as It Enslaves Its Victim

In the "American Magazine" appears an article entitled "A Modern Opium Eater," written by a former newspaper man, who became a victim of the habit and is now a convict in a penitentiary. The following extract from his article gives an idea of the amount of money required by an opium eater:

"By this time the cost of opium had become a very appreciable and permanent expense. From a few pills at first I increased my allowance day by day until it took thirty or forty 'fun' (a Chinese measure; there are seventy-six fun in an ounce) to give me the mental relief I craved. The physical craving—the body's demand for it—can be satisfied with approximately the same amount each day. The mental craving—the mind's demand—increases daily. What satisfies to-night is too little to-morrow, and so on. To feel even normal I now needed three or four times the half dozen pills which at first gave me such exquisite pleasure. To get the exhilaration, the soothed nerves, the contentment I craved, I like each of the millions before me, had to use more and more each day.

"Thirty-six fun of opium at retail costs, at an average, \$3. A 50-cent tip to my 'cook' and a quarter for the privilege of the room in which I smoked made my habit cost me about \$4 a day, which made a ghastly hole in even the good salary I earned. I began to buy my opium by the can, paying from \$25 to \$30 for this averaging 450 fun. The elimination of the same from his profit helped temporarily, but the ever-increasing demands of my habit soon overcame the saving."

The Sweetest Days

After all, the sweetest and the sweetest days are not those on which anything very splendid or wonderful or exciting happens, but just those that bring simple little pleasures, following one another softly like pearls slipping off a string.—L. M. Montgomery.
