Tombs Court Room Is Scene of Great Excitement When Missile Is Discovered

COPPER BRAVELY TEARS OFF FUSE

Was Found Directly Beneath District Attorney's Offices Occupied by Governor-elect Whitman—Enough Explosives to Wreck Building

New York, Nov. 14.—A bomb somewhat similar in construction to the one that wrecked the entrance to the Bronx county court house last Wednesday night, was found today in the Tombs court room just under the District Attorney's offices occupied by Governor-elect Whitman. The room was crowded. The bomb contained gunpowder, slugs and bullets. Its fuse was partly burned.

George L. O'Connor, a policeman, saw smoke from the burning fuse of the bomb, ran to the spot, picked it up, tore off the fuse and carried the bomb from the bench in the rear of the court room where the bomb was found. The bomb contained explosive enough, it was estimated, to have wrecked the building.

Court Room Thrown Into Up-roar As O'Connor stripped the sputtering fuse from the bomb, the court room was thrown into an uproar. Approximately fifty persons were in the room awaiting the arrival of Magistrate Campbell to open court. It is believed that his arrival was the signal to fire the fuse.

Examination showed that the bomb was made of a five-pound oil can and that it was filled with gun cotton, slugs and bullets. It was wrapped up in a Jewish daily newspaper tightly bound with wrapping cord.

Magistrate Campbell said he had no idea who would seek to take his life unless it were the writer or writers of threatening letters he had received during the recent trial of Industrial Workers of the World leaders at which he presided.

To Check Inflow of German Loans

Berlin, Via The Hague, Nov. 13, Via London, Nov. 14, 3.25 A. M.—The Reichsbank today took action designed to check the inflow of German loans from abroad. A considerable volume of German bonds, with an English stamp, having recently reached Germany, the Reichsbank sees therein an attempt of the English to depress the price of the bonds and discredit Germany's financial solidity.

1,200 TONS OF CHRISTMAS GIFTS FILL SANTA CLAUS SHIP THAT SAILED TO-DAY

New York, Nov. 14.—With more than 1,200 tons of Christmas gifts from the people of America, a Santa Claus ship, the naval collier Jason, sailed today for Europe. A message of good-will from President Wilson was received by Lieutenant Commander C. F. Courtney, U. S. N., shortly before sailing time. The docks were black with thousands of school children.

The gifts that the Santa Claus ship carried were gathered from every State of the Union. They included almost everything from toys and dolls and clothing and food. So heavy was the rain of Christmas presents for the children of Europe that a force of 90 soldiers and 60 sailors from the navy yard was required to receive and classify the gifts as they arrived and repack them so that an equal distribution might be made in the several countries for which they were intended.

A summary of the cargo made by Commander Courtney shortly before sailing showed the following items: Fourteen carloads of children's clothing, five carloads of women's clothing, one carload of men's clothing, five carloads of toys and 57 carloads of miscellaneous presents, foodstuffs, boots, shoes, etc., a total of 82 carloads.

The ship will call first at Falmouth where the gifts intended for England, France and Belgium will be discharged; then she will proceed to Rotterdam where gifts for Holland and Germany will be discharged. At a later date another consignment will go forward for the people of Russia and Poland.

Nearly all the gifts received were accompanied by notes of good will written by the donors. As the spirit of neutrality of the United States was unviolated in many of these messages it was found necessary to withhold them. A large quantity of clothing was found unfit for immediate shipment will be sent to Ellis Island for cleaning and fumigating and will afterward be taken in charge by wives of army officers who have volunteered for the service and will be patched, made over and prepared for a later shipment.

GERMAN ATTACK AGAINST BRIDGE AT NIEUPORT WAS A FAILURE, SAYS FRENCH

Paris, Nov. 14, 2.47 P. M.—The French official communication this afternoon says the German attack against the bridge at Nieuport resulted in failure, and that various offensive movements of the enemy around Ypres have been checked. The text of the communication follows: "In Belgium a German attack against the head of the bridge at Nieuport resulted in failure, and various efforts at offensive movements on the part of the enemy in the region to the east and to the southeast of Ypres have been checked."

"In the environs of Bixchoote we have progressed one kilometre toward the east. Between the canal of La Bassee and Arras our troops have made minor progress. In the region of Lassigny and in the vicinity of the Aisne, as far as Berry-au-Bac, the Germans have attacked but without success."

"In the Argonne the fighting has recommenced with greater spirit. The enemy endeavored, but in vain, to recapture Four de Paris and St. Hubert. Particularly in the vicinity of Verdun several partial offensive movements on the part of the enemy were checked by the fire of our artillery before the forward movement of the enemy's infantry could be undertaken."

"In the Woëvre district and in Lorraine, where bad weather prevails, there is nothing to report."

Man Who Attempted Suicide in Hospital Seems Better

Harry A. Brown, of Lykens, who yesterday attempted suicide by jumping down the rear stairway at the Harrisburg hospital, was taken to the Pennsylvania hospital for the insane at McLeay and Cameron streets, this morning at 11.15 o'clock. He was to have been taken there yesterday, but a commission having recommended his admission but the injury he suffered in his jump, caused a delay.

It was believed at first that he suffered a broken back and a severe convulsion which he suffered yesterday afternoon, led physicians at the Harrisburg hospital to believe that there was some pressure on the spinal column from a dislocated vertebra. He seemed cheerful this morning and had the use of the lower limbs.

CAPITOL HILL SERVICE COMMISSION WILL HAVE BUSY TIME NEXT WEEK

Hearings Start Tuesday Morning and Continue Until Friday—Harrisburg Grade Crossing at Ninth Street to Be Acted Upon

The Public Service Commission will have a very busy week next week, beginning on Tuesday morning and continuing until Friday. The Philadelphia Electric Company, whose rates have been questioned by Director Cooke, will come in for a hearing and it is expected that, unless an application is made for a postponement, evidence will be taken to sustain Director Cooke's contention that the people of Philadelphia pay too much for their electric service.

The application of the Pennsylvania Railroad Company for the approval of a grade crossing at Ninth street, Harrisburg, will come up next Thursday afternoon. The approval of the contract between the Ephrata and Lebanon Traction Company with the borough of Ephrata will be heard Wednesday afternoon after the Commission gets through with the consideration of the application for the approval of a contract between the city of York and the York Railways Company.

State College Complains

William P. Winter, professor of chemistry at State College, and other chemists in or about that place, call the attention of the Public Service Commission to what is termed a deplorable state of affairs existing at State College, because of a disagreement between the borough council and the State College Water Company over the sale or renewal of the franchise. Many of the patrons of the water company were entirely without water during the day for the past four weeks, and there would be an inadequate supply in the event of a fire. The health of the community is jeopardized by an unsanitary reservoir, and by reason of defects in the construction of this reservoir, water is going to waste.

Appointed Notary

Mrs. M. Elizabeth Walsh, of Eberly's Mills, attached to the State Banking Department, has been appointed a notary public.

TROOPS WILL LEAVE MEXICO

Mexican Factions Will Be Left to Settle Their Differences to Suit Themselves

Washington, Nov. 14.—While plans for the American evacuation of Vera Cruz on November 23 were being carried forward today, hope grew in official circles that further bloodshed between the Mexican factions might be avoided by the truce the Carranza and Villa factions are reported to have entered into until November 20.

Carranza's call to General Gonzales, the leading general upon whom he depends, to come to Mexico City was regarded as evidence that further incursions were at work to prevent a new civil war, which, military experts say, would be the bloodiest yet of the Mexican conflicts.

Meanwhile it was indicated that Villa, holding San Luis Potosi and the railroad running to Tampico, was resting his army on its arms awaiting developments. It seemed to-day that only the most untoward developments could stay the departure of Brigadier General Funston's forces and that the Mexican factions would be left to settle their own differences.

An Excellent Shampoo

The following is a recipe for a shampoo that will make the hair fluffy and easy to dress: Take half a cake of white castile soap, shave it up finely and boil in a pint of water until it jellies. Allow it to become cool; then beat up the yolks of three eggs and add them to the soap jelly with a teaspoonful of eau de Cologne. Shampoo the hair in the usual way, rubbing the mixture well into the scalp and rinsing out with soft water.

ALL IN EXCEPT ALLEGHENY

Judge Frazer Must Show a Majority of 73,246 in His Home County in Order to Beat Judge Kunkel

With all of the official returns in the Frazer-Kunkel contest for the Supreme Court bench, received at the State Department except those from Allegheny county, Judge Kunkel this morning had a lead of 73,245. The vote now stands, according to the returns from 66 out of the 67 counties, Allegheny out, as follows: Kunkel 267,191; Frazer, 293,946.

In order to defeat Judge Kunkel, Judge Frazer must have a majority of 73,246 in Allegheny county. Unofficial counts give Frazer a lead of from 70,000 to 80,000 in his home county of Allegheny. There is nothing official about this, however, and Judge Kunkel's friends still have a shred of hope. It is argued by the Kunkel people that in the vote of a large county like Allegheny there is reason to believe that any calculations may be wrong, and that the official count may cut down Frazer's majority, the tendency always being with claimants to claim much more than the official figures show. If Judge Frazer's majority is not at least 73,246 in Allegheny county he does not defeat Judge Kunkel.

A dispatch from Pittsburgh this afternoon from the Tri-State News bureau says that in computing the vote for Judge Frazer in Allegheny county, the court found that Judge Kunkel received 52,445, while Judge Frazer received 5,693, making Frazer's majority in the city 46,752. The totals of the State, then, with Pittsburgh included, and Allegheny outside of Pittsburgh uncounted, give Kunkel 372,284 and Frazer 346,391. To win out Judge Frazer must have 26,944 votes in Allegheny outside of Pittsburgh.

The official returns from Allegheny county have been delayed for some reason, the excuse being that there are more than 400 voting districts in the county, and computing returns is slow work. Philadelphia, with many more districts, finished its count on Thursday and certified it to the State Department last night.

If Judge Kunkel is defeated for the Supreme Court judgeship his defeat, according to three friends, may be attributed to three things: First, three days before election day the word was passed to all Republican organizations in the State, acting with the State Republican organization, to mark all ballots for Supreme Court Judge for Judge Frazer; second that Judge Frazer resided in a county that had a vote many times larger than the county in which Judge Kunkel resided, and third, that Judge Frazer's name came first on the official ballot, which in a general election such as that of this year means thousands of votes to the first man on the ballot.

The official election returns, as computed at the State Department, with Allegheny out, for United States Senator and Governor, are as follows: Governor—Brumbaugh, 527,235; McCormick, 466,749; Brumbaugh's majority, 120,266.

United States Senator—Palmer, 235,740; Pinchot, 235,096; Penrose, 463,515.

BOOKS FOR U. OF P. STUDENTS

Volumes Are Placed at Their Disposal at Both State and City Libraries

Professor Wendell P. Raine, of the Wharton and Extension School faculties, paid the local school a visit and made the announcement before the class that State Librarian Montgomery had already secured twenty volumes each of every text and reference book needed not only for this year's work but for next year as well. Mr. Raine strongly urged the class to take advantage of this most unusual condition, thereby showing Dr. Montgomery their appreciation of his interest in the general welfare of the school.

It is expected the new president of the association will follow the scheme so successfully carried out in Wilkes-Barre and Scranton last year, which consisted in the appointing of committees on athletics, pins and button publicity, songs, employment, social functions and debating.

Already the University Chronicle, the university's official roster of events, has been received by the school, keeping it in touch with the University of Pennsylvania. Mr. Raine stated that he was having sent to the school sufficient copies of "Old Penn" for each member of the class.

NEW HOTEL STORY BOBS UP

Indianapolis Man Comes Here and Talks About Building One

Again the story of a new hotel for Harrisburg bobs up. Charles P. Henderson, of the firm of Henderson & Marshall, attorneys, Indianapolis, who, he says, is East for the purpose of locating sites for new hotels to be built by a party of capitalists who are interested in the hotel business, stopped off in Harrisburg yesterday afternoon to look about here, having this city on his list and being charged with looking over available Harrisburg properties.

Henderson took interest in two sites, that on which the Commonwealth hotel is now located, which he said he understood could be purchased, and the site of the old opera house at Third and Walnut, vacant since the fire, and owned by the Weightman estate in Philadelphia. Mr. Henderson made many inquiries regarding the latter site, obtained its dimensions, spoke of its facilities and availability as a hotel location, with a large rear and side entrance and the Capitol Park for a front yard. When told the site was in charge of Hampton L. Carson, of Philadelphia, as attorney, to dispose of, he left for Philadelphia on an afternoon train with the avowed purpose of having a conference with Mr. Carson to-day.

Mr. Henderson said that the capitalists he represents make a specialty of building hotels, find tenants for them and see that they are started right. He instanced, as some of the enterprises of the people he represents the construction of new hotels in Indianapolis and Toledo, and said that arrangements have been made to construct a new hotel in Hagerstown to take the place of the one recently destroyed by fire.

\$1 IS ADDED TO ROUND TRIP TO PHILADELPHIA

Continued From First Page

night the Pennsylvania Railroad Company said the changes were being made because the Interstate Commerce Commission had declared it to be a matter of public policy that each branch of the railroad service "should contribute its proper share to the cost of operation and of return upon the property devoted to the use of the public."

"The purpose of the company," continues the statement, "is to embody the policy established by the Commission, and so spread the changes in fares that the burden will fall only lightly on any single traveler. The proposed changes in suburban rates have been so adjusted that no person traveling on commutation tickets will have to pay more than one cent a day additional fare."

The action of the Pennsylvania Railroad Association in filing the new tariffs to-day will be in line with the general movement of railroad all over the country to advance passenger fares. Travel rates generally are to be increased to a uniform basis of 2 1/2 cents a mile.

With all roads charging this uniform rate for interstate passenger fares, it is estimated the total additional revenue accruing will be more than \$50,000,000 annually.

Pottsville, Pa., Nov. 14.—Two were killed, the third so badly injured that amputation of both limbs may be necessary, and the fourth so badly bruised and cut about the face and body is the result of a train on the Reading railroad striking the automobile driven by Peter McCormick, the Philadelphia and Reading station agent at Girardville, while crossing the tracks at St. Nicholas, about 11 o'clock last night. It was necessary to bring out the wreck train with a derrick in order to remove the bodies of some of the unfortunate, who were under the engine. Much time was consumed and the worker's toiled incessantly until the victims were removed.

LIVESTOCK BOARD ENDORSED

Alrieks' Association Praises Its Work After Hearing Lecture

Unanimous endorsement of the work of State Veterinarian C. J. Marshall and the State Livestock Sanitary Board in its conservation of the livestock industry of the State was given last night by the Alrieks Association following an address by Dr. W. S. Gimper, director of the Division of Milk Hygiene of the State Board.

The association held a regular meeting at St. Andrew's parish house and Dr. Gimper had been invited to give a talk upon the prevalent foot and mouth disease. In discussing it he also gave a brief summary of the preventive and protective work of the board generally. In addition to endorsing the work of the Livestock Board the men in the association tendered Dr. Gimper a rising vote of thanks for his address.

Much of last evening's session was taken up with a business meeting. On November 27, the night after Thanksgiving day, the Alrieks Association will hold a social evening.
