To Ward Off Winter Complexion Ills

To keep the face smooth, white and beautiful all winter, there's nothing quite so good as ordinary mercerized wax. Rough, chapped or discolored skin, inevitable in this weather, is gently absorbed by the wax and replaced by the newer, fresher skin beneath. The face exhibits no trace of the wax, the latter being applied at bedtime and washed off mornings. Creams, powders and rouges, on the other hand, are apt to appear conspicuous at this season, because of alternating expansion and contraction of the skin, due to changing temperatures. I advise you to try this simple treatment. Get an ounce of mercerized wax at any drug store and use like cold cream. This will help any skin, once, and in a week or so the complexion will look remarkably youthful and healthy.

Winds and flying dust often cause squinting and other contortions which make wrinkles. You can quickly get rid of them, however produced, by using a harmless face bath made by dissolving 1 oz. powdered sallote in 2 pint witch hazel. adv.
