OLD-FASHIONED FLOWERS IN DEBUTANTE BOUQUETS

'Sweetheart Roses' and 'Fire-flame' Are Some of the Varieties That Have Appeared at Recent Receptions—Harrisburgers at Carlisle

With the approach of the Yuletide season comes a call for special meetings of boards of directors, the forming of committees and a general planning for the annual bazars, benefit teas, amateur theatricals and the like which are given each year with great success for the benefit of the various charitable organizations of the city.

An attractive feature of the coming-out parties and dinner dances for the debutantes held this far this season has been the profession of beautiful flowers always presented to the one for whom the party is given.

Mr. and Mrs. Frank Payne, Mr. and Mrs. W. Walley Davis, Miss Dora Wick-ersham Coe, Miss Louise Carney, Dr. George Moffitt and Thomas Williamson attended the charity ball given last evening in Carlisle for the benefit of the Carlisle hospital.

How to Shed a Rough, Chapped or Blochy Skin

This is what you should do to shed a bad complexion: Spread evenly over the face, covering every inch of skin, a thin layer of ordinary mercerized wax. Let this stay on overnight, washing it off next morning. Repeat daily until your complexion is as clear, soft and beautiful as a young girl's. The result is inevitable, no matter how soiled or withered the complexion. The wax literally absorbs the flimsy surface skin, exposing the lovely young skin beneath. The process is entirely harmless, so little of the old skin coming off at a time. Mercerized wax is obtainable at any drug store; one ounce usually suffices. It's a veritable wonder-worker for rough, chapped, reddened, blotchy, pimpled, freckled or sallow skin. Pure powdered sassafras is excellent for a wrinkled skin. An ounce of it dissolved in a half-pint witch hazel makes a refreshing wash-lotion. This renders the skin quite firm and smooth; indeed, the very first application erases the finer lines; the deeper ones soon follow.

PARCEL POST ORDER ISSUED

Instructions to Postmasters to Accept Packages For Mailing to Germany and Austria-Hungary

By Associated Press. Washington, Dec. 1.—Instructions were to-day being sent by Postmaster General Burleson to postmasters throughout the country directing them, pending further notice, to accept for mailing to Germany and Austria-Hungary all packages which conform to the prescribed conditions of the international parcel post service. This service between the United States and the countries named has been suspended because of the lack of transportation facilities due to the war. Resumption of the service will make it possible to send Christmas remembrances to European countries which otherwise would have been impossible.

Parcel post packages are now available to all countries with which the United States has parcel post connections, except Belgium, Turkey and the northern and northeastern France, where military operations prevent resumption of the service. Shortly after the war began, Germany, Belgium and France asked that the service be suspended. Neither Austria nor Hungary requested suspension, but the war caused a practical stoppage of the service.

ASTHMADOR GUARANTEED TO RELIEVE ASTHMA

"I have arranged with George A. Gorgas, 16 North Third street and Pennsylvania Railroad Station, that every sufferer from Asthma, Hay Fever or Bronchial Asthma in Harrisburg can try my treatment entirely at my risk," Dr. Rudolph Schiffmann announces. Gorgas and he will return your money, cheerfully and without any question whatever. After seeing the grateful relief it has afforded in hundreds of cases, which had been considered incurable, and which had been given up in despair, I know what it will do. I am so sure that it will do the same with others that I am not afraid to guarantee it will relieve instantaneously. The druggists handling Asthmador will return your money if you say so. You are to be the sole judge and under this positive guarantee, absolutely no risk is run in buying Asthmador."

Persons living elsewhere will be supplied under the same guarantee by their local druggist or direct by Dr. R. Schiffmann, St. Paul, Minn.

PROTEST AGAINST THE FLY

P. S. Platt Declares Vigorous Protection Against Pest Lessens Disease Among Tenement Babies

Jacksonville, Fla., Dec. 1.—Reporting to the American Public Health Association here to-day, some of the returns of last summer's anti-fly campaign in New York City, Philip S. Platt, superintendent of the Bureau of Public Health and Hygiene of the New York Association for Improving the Condition of the Poor, declared that vigorous protection against the fly had been proved a factor in reducing sickness among New York tenement babies.

The general cleanup of a neighborhood, accomplished by a reduction in the number of flies, he said resulted in one-third as much communicable disease as occurred in a dirty, unsanitary, fly-prevalent district. But to determine how great a factor was the fly alone in communicating disease, an extensive campaign was carried out in 1,200 tenement homes. Twelve nurses and three supervisors visited each home every five days. Every effort was made to protect the infants from flies. Over a thousand yards of netting were distributed free of cost and fly killing was also undertaken systematically. The results were definitely indicative of less sickness, but general cleanliness seemed to be more important than simply protecting the infant from flies.

Over three times as much diarrhea occurred in the poorly protected, dirty homes, as in the well-protected, clean ones, he found.

SHOT BY PLAYMATE; DIES

Boy Picks Up Gun in Garage and Pulls the Trigger South River, N. J., Dec. 1.—"I didn't know it was loaded," said Milton Wright, aged 14, on Saturday, when a gun in his hands was discharged and fatally wounded Albert Abrams, 12 years old. The Abrams boy was rushed to St. Peter's hospital, New Brunswick, where he died last evening.

The boys had been playing in the street near their homes when they went to a garage. They saw a gun there and young Wright picked it up, pointed it at his companion and pulled the trigger. The charge struck the Abrams boy in the abdomen.

WHIRLED AROUND SHAPTING

Quarry Manager Has Narrow Escape at Billmeyer Marietta, Dec. 1.—Scott Longenecker, manager of the Bary Quarries at Billmeyer, just above town, was badly injured Saturday by being caught in the shafting in the engine room. He was passing one of the large wheels, when his coat caught in the shaft and he was hurled around at a rapid rate.

The engineer, seeing Longenecker's peril, shut off the power and ran to his assistance. His coat was so tightly woven to his arms that it was torn to shreds, and had the wheel made another turn he would have been released and thrown against the wall and probably killed. In revolving around the rapidly moving machinery what saved him from being killed is a miracle. His body is badly contused and lacerated.

SUBMARINE DIVING ACT ON THE ORPHEUM STAGE

Captain Sorcho Lectures While His Men Perform With Tank Equipped With Telephone—Tech Football Team as Guests Make Evening Lively

Of uncommon interest is the illustrated lecture on deep sea diving by Captain Louis Sorcho at the Orpheum theatre this week. The captain does none of the diving in his act but adds greatly to the interest by lecturing while another diver dons the uniform and does the illustrating in a tank on the stage. The setting in the tank represents the stateroom door on the deck of a sunken ocean liner.

The act is interesting, first because the ordinary landlubber has only the smallest conception of the nature of a diver's outfit, and second because it is a very rare chance one has to see a diver working under water, with the assistants overhead operating the air-pumps and the telephone. The submarine telephone is a recent innovation. The life-line no longer is used to send messages to the surface but the diver is in constant communication with the surface by telephone.

Albert F. Hawthorne, "direct from Brazil where the nuts come from," is back again with a company this week. The "company" is Jack Ingalls and all the stage hands of the Orpheum theatre. What he does is designated as act and it is called "A Fool There Is." He is a comedian of the Fitzgibbon type.

Dolly Connolly is a clever impersonator by permission of none other than Julian Eltinge. Her full, rich voice lends itself readily to the rendition of one of his most famous songs. Female impersonators have been with us for three weeks and this sort of makes the regulars feel at home.

An interesting skit in which three types of burglars are presented is "Tricked," featuring Alma Hearn. A takeoff on the vaudeville jokemish is "Going Into Vaudeville," a farce, funny in its incongruities. O'Donnell Brothers and Edwin George fill in a bill of merit.

Last night was Technical High School night at the Orpheum and the players of the victorious Tech football eleven were guests of the management in a box party. Many other Tech students were in the front rows and the cheers for the actors made the evening an interesting one.

DAPP GETS A CLERKSHIP

Jury Commissioner Succeeds A. S. Cooper in Insurance Department

It is announced that Edward Dapp, Jury Commissioner of Dauphin county, has been appointed to a clerkship in the Insurance Department to succeed A. S. Cooper, who to-day assumed his new position as Assistant Senate Librarian. Mr. Dapp made a successful contest for the nomination of Jury Commissioner a year ago and won out after a strong contest. He is an ex-railroader, and while in the performance of his duties was so badly hurt that he was obliged to engage in other work for the railroad company. When he ran for the nomination for Jury Commissioner Mr. Dapp made a personal canvass. During the last campaign he traveled all over the State in the interest of Judge Rankel for election to the Supreme Court bench. He assumed his new place to-day.

"The Dummy"

The most unique play of the New York season is "The Dummy" which comes to the Majestic to-night. "The Dummy" has been furnishing audiences with all the thrill and mystery of a yellow-back detective story, four acts of good laughs and the heart-throb that holds the public for the past four months. "The Dummy" was made in New York, out of the real human nature and native material to be found all the way from the Bowery to the Tenderloin, with a flavor of Fifth Avenue and Broadway. It was made by Harvey O'Higgins and Harriet Ford, who have that sensational detective drama, "The Argyle Case," to their credit, but it is the one "different" play in all the detective plays of history.
