

# CAUGHT BY THE GRIP--- RELEASED BY PE-RU-NA.

**Effective Medicine for La Grippe.**  
Robt. L. Madison, A. M., Principal of Colwell High School, Painter, N. C., writes: "Peruna is the most effective medicine that I have ever tried for La Grippe. It also cured my wife of nasal catarrh. Her condition at one time was such that she could not at night breathe through her nostrils."

**La Grippe and Systemic Catarrh.**  
Mrs. Jennie W. Gilmore, Box 44, White Oak, Ind. Ter., writes: "I had La Grippe, followed by systemic catarrh. The only thing I used was Peruna and Mannin, and I have been in better health the last three years than for years before."

**The Power of Man.**  
Have you any idea of what is meant by the physical power of man? Ask the officials of the English prisons, where convicts are required to operate the treadmill. Estimate how many pounds are lifted an hour by the alleged sportsman who shoots pigeons with a seven-pound gun. Give a woodsman a five-pound ax on a ten-day job in the Adirondack and reckon the number of times he raises that weight every eight hours. What of the busy typewriter, capacity 100 words a minute? Each hand weighs a pound (speaking of man now, not the dainty little flippers of woman-kind), and counting each word at an average of four letters we can figure out a movement of 400 times a minute, 24,000 times an hour, and 192,000 times in a working day of eight hours, which is to say he lifts 192,000 pounds with both hands in a day of eight hours.—N. Y. Press.

**Skyscrapers And Suburbs.**  
If skyscrapers in New York continue to mount higher each year, the residential problem of the city may sometime be met in this way. When 20 stories told the height of the highest office building in the world many people believe that the limit had been reached, that climbing skyward had gone as far as it could. But the present proposition to build a skyscraper to a height more than twice as great shows us that in all probability the end is not even yet in sight. If the apartment-houses could have as many stories there would not be so much need to tunnel to Long Island and New Jersey to find sleeping places for business people of New York. Poised between heaven and earth, a unique "suburbia" would be born that would put New York in a position which it need not envy Boston or any other city its suburbs.—Boston Transcript.

**The Modern Handy Man.**  
Applicant—And you might want the leaves swept up sometimes.  
Kind Lady—Oh, yes; certainly.  
Applicant—Well, I could always get a man to do it for you.—The Tattler.

**The Modesty of Women**  
Naturally makes them shrink from the delicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription with its reputation for the cure which dispels all the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating cramps, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those eminent in the several schools of medical practice. Some of those numerous and strongest of professional endorsements of its ingredients will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.  
The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition, it cures weak women strong and sick women well.  
Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held strictly confidential.  
Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

**Wood Rats' Treasury.**  
The Kansas wood rat is small, no larger than a common rat, but his ambition and acquisitiveness are insatiable. His one insatiable desire seems to be to increase the size of his pile of sticks. The neighboring field is placed under tribute. First of all, the nearby sticks are gathered into the pile. Then, as these are cleared up, he goes farther and farther away from home for more sticks. And in this huge pile of sticks he stores his winter supply of nuts.  
Many a time, when we were enjoying farm life by living mostly on sorghum and cornbread, buttermilk and Missouri dried apples, have we gone to the woods with the other boys and taken nicely hulled walnuts from a nest of a wood rat.—Eldorado Republican.

**Mateimony In Indiana.**  
"Miss Smith," said the caller abruptly, "will you marry me?"  
"I will not," replied Miss Smith, with decision.  
"All right. Is your sister in?" I've got to beat this bachelor tax somehow.—Philadelphia Ledger.

**Suffered Twelve Years From After Effects of La Grippe.**  
Mr. Victor Patnaude, 228 Madison St., Topeka, Kan., writes: "I had a severe attack of La Grippe and I never really recovered my health until two years ago. I began using Peruna and it built up my strength in a couple of months I was able to go to work again."

**Pneumonia Followed La Grippe.**  
Mr. T. Barncott, West Aylmer, Ontario, Can., writes: "Last winter I was ill with pneumonia after having La Grippe. I took Peruna for two months, when I became quite well."

**Peruna—A Tonic After La Grippe.**  
Mrs. Chas. E. Wells, Sr., Delaware, Ohio, writes: "After a severe attack of La Grippe, I took Peruna and found it a very good tonic."

**Don't Weigh In Public.**  
"I never get weighed in public places any more," said the thin woman. "The ceremony draws too big a crowd. Just as sure as a person begins to daily around a weighing machine she becomes a magnet for all the idlers in the neighborhood. They cease their chatter and their aimless staring and crowd around trying to read the figures. Then they keep up a fire of comments. 'Gee,' says one, 'I didn't think she'd get that high.' 'I thought,' says another, 'that she'd weigh a little more than that.' For the person who strikes a happy medium these criticisms are perhaps not unwelcome, but for the one who overshoots or undershoots the mark the ordeal is not pleasant."—N. Y. Sun.

**WORKS IN THE GARDEN.**  
Eighty-seven years old, but has a Sound Back.  
Robert Scollan, 87 years old, of 55 Garden St., Seneca Falls, N. Y., a fine, sturdy old gentleman, who works in his own garden, gives thanks to Doan's Kidney Pills for his sound back and kidneys. Mr. Goetchous, his daughter, says: "Father had a severe attack of kidney trouble and lumbago, which caused him much suffering. He began taking Doan's Kidney Pills and was soon cured. We always keep them on hand. My husband was cured of bad pains in the back by taking only part of a box."

**Everybody Worked But Father.**  
Charged with impeding the health of his 7-year-old son Nicholas, Luigi Marelli was committed to the Tombs in default of bail. Frank McCabe, who is a special officer, testified that he saw the boy wearing nothing but a tattered pair of trousers and a thin blouse carrying a large dry goods box through Leonard Street. The boy's legs were naked, and he wore a pair of tattered rubbers. McCabe said he found the rubbers frozen to the lad's feet. McCabe took the boy to the Children's Society. Marelli was found in his home sitting by the fire. His wife, it was said, was out washing to earn money for the family. The boy said it was one of his duties to go into the business section every day and get at least four large boxes for the family stove.

**Twenty-two persons were arrested in the Orpheum Theatre, Fulton Street and Rockwell Place, Brooklyn, the other night, charged with rioting. They were in the theatre when eggs, small stones and vegetables were thrown at the Russell Brothers, vaudeville performers, who were doing a sketch known as "The Irish Servant Girls." The Russells have been criticized because of their make-up, which is declared by some Irishmen to be discredit to the Irish. Several protests have been made. When the Russells appeared at 10.15 o'clock a voice from the orchestra cried, "Let 'er go!" and the bombardment began. The piece was continued after the patrol wagon took away the egg-throwers.**

**Revolution-Maker Pardoned.**  
Capt. George B. Boynton, soldier of fortune and maker of South American revolutions, who was released from Blackwell's Island, pardoned by President Roosevelt. He had served three months of a six-month sentence at hard labor for having been caught in possession of a box of counterfeit Venetian dollars.

**Boiling Coffee Kills Two.**  
Boiling coffee in the home of Leon Wells, 50 Ridge Street, extinguished the gas flame in the stove and the aged man and his wife were asphyxiated. He was 70 years old and his wife 65. Wells got up at 6.30 o'clock, put the coffee on to boil and then lay down for a nap. When he did not make his appearance the landlady made an investigation and found the couple dead in their room. Bank books showed the aged man had more than \$10,000 in banks.

**Judge Gets A Real Lemon.**  
An unusually large lemon was handed to Recorder Hyman Lazarus by Mrs. Mark Hollister of 69 East Fourth Street, whose complaint of disorderly conduct made against her niece, Miss May Murphy, of 39 East Fourth Street, had been dismissed. Mrs. Hollister swept out of the room after the decision, highly indignant. In a few minutes she returned, hurried up to the Recorder's desk and presented the lemon. The Court smiled, accepted the fruit and remarked that lemons are pretty high nowadays.

## NEW YORK DAY BY DAY.

### Some of the Things Done Daily in the Metropolis.

"Starving family wish any work to do for winter; clothing and shoes wanted; landlord will put them on the street; I will give my skin and blood before they go homeless. Janitress, 112 East Eighty-eighth Street."

His wife having put the foregoing advertisement in the newspapers, Alois Hoffman, a baker, declares, as his last resort, that he will sell his skin for grafting purposes and his hair for curling purposes. Hoffman for money to keep his wife and two children from starving. Mrs. Hoffman has until recently managed to get her rent, gas and coal free of charge by acting as janitress of the building, while her husband, traveling from one corner of the city to the other, has endeavored to earn enough pennies to buy his family his meagre daily fare. Several days ago, however, the owner of the building informed the Hoffmans that they would have to vacate their cellar room, because, he alleged, their services as caretakers had been unsatisfactory to the tenants. Mrs. Hoffman said that they were to be put out in the street because the tenants had complained of the lack of hot water.

**American Flag Not A Toy.**  
Under no circumstances is the American flag to be regarded as a toy, according to the Board of United States General. The Collector of Customs Board decided that Takito & Co., of Chicago and other Japanese importers cannot bring in the Stars and Stripes under the toy schedule of the Dingley tariff. The flags, in the test case, were made of silk and were not over an inch and one-half in length. The Collector of Customs of Chicago exacted duty on the flags at the rate of 50 per cent. ad valorem under the provision in the tariff for "manufactures of silk." The importers asserted that the flags should be admitted at 35 per cent. ad valorem. In his decision General Appraiser Sharrett says: "We do not think that the American flag, however diminutive, is commercially, commonly or nationally regarded as a plaything for children, and we find that the flags in dispute are not toys."

**A Youthful Musical Prodigy.**  
A youthful prodigy in the person of Moses Levin, 8½ years old, amazed a large audience at the knowledge of the piano at the graduation exercises of Public School 37, on South Fourth Street, Williamsburg. The boy, who is a native of Russia, rendered four selections, one of which, a fantasia of his own composition, captivated everybody. The boy's correct name is Michel Levitsky, and he is the son of Mr. and Mrs. Moses Levitsky, who live at 198 South First Street, Williamsburg. The lad came to this country two weeks ago with his parents, who were driven from Russia. The steamer stopped at Antwerp, where the boy played before the Royal Society, and made such an impression that a committee was formed to further his musical education. He studied for a short time at Warsaw.

This does not include 2,200 acres of public land granted by Congress, valued at \$1,275,000. The institute now has over 1,800 pupils in all its departments and is growing every year.

## COMMERCIAL COLUMN.

### Weekly Review of Trade and Latest Market Reports.

New York.—R. G. Dun & Co.'s Weekly of Trade says: Although the average of the 60 most active railway securities fell during the week to the lowest point since 1904, there was no corresponding reaction in commercial activity, which continued beyond precedent. Reports from leading manufacturing centers indicate that scarcely any idle machinery can be found, preparations for future trade evidencing a confidence in well maintained consumption. Forward business is most extensive in the iron and steel, machinery and the cotton industry, but other prominent producers have liberal contracts on hand also, and the mercantile outlook is bright. Wholesale houses receive large contracts for spring delivery, especially in dry goods lines and the settled winter weather has produced a wholesale reduction in retail stocks of heavy-weight wearing apparel and other seasonable merchandise.

Notable strength is still the feature in the primary markets for cotton goods, and predictions of further advances are being realized constantly, despite apparent overproduction. The contrary, a general resume of the situation discloses a level of prices and scarcity of supplies that has not existed since the Civil War, while there is the additional factor of no element threatening weakness, although quotations are conceded to be abnormally high.  
Commodity markets have shown very little activity during the past week, and variations in prices were fractional.

**NO RELIEF FROM ECZEMA**  
For Over Two Years—Patent Medicines, Quack Cures, and Even Doctors Fail—Cuticura Succeeds.  
"I was very badly afflicted with eczema for more than two years. The parts affected were my limbs below the knees. I tried all the physicians in the town and some in the surrounding towns, and I also tried all the patent remedies that I heard of, besides all the cures advised by old women and quacks, and found no relief whatever until I commenced using the Cuticura Soap, Cuticura Ointment and Cuticura Resolvent. In the Cuticura Remedies I found immediate relief and was soon sound and well. C. V. Beltz, Tippecanoe, Ind., Nov. 15, 1905."

**Cat In Love With Doll.**  
Did you ever see a cat in love with a doll? Probably not.  
Cats have been known to fall in love with chickens and even hatch eggs and bring up feathered children, but a cat in love with a doll, not to mention a doll—that is something entirely new.  
Yet a Chicago woman, Mrs. John J. Keith, has just such a cat.  
The cat is one of the male persuasion and is a handsome Angora, eth a big fluffy tail, a winner of honors at cat shows, and of a color that is best described by his name—'each.  
Each's sweetheart is a doll that Mrs. Keith used to play with when she was a little girl. It is not an ordinary doll, because he is as big as a small baby, and instead of having the perishable head which is wont to decorate the sawdust stuffed body nowadays has a head of porcelain. The doll is a brunette, having lark hair (of porcelain) and big blue eyes. Then, too, it is lavishly dressed and with attractive, big eyes.  
Each fell in love as suddenly as the proverbial swain. One day, a few weeks ago, Mrs. Keith ran across the doll in a trunk through which she was rummaging, and got it out to admire it and recall the happy days of her childhood.—N. Y. Herald.

**Custodian Of Dynamite.**  
The New York State senate has voted to give its clerk the power to expel a reporter from the floor of the senate. The clerk did not ask for this accession of authority, and is not likely to exercise it impudently. It may be interesting to be made the custodian of the senate's dynamite, but a wise man would as soon not be too much flattered.—Harper's Weekly.

**GUIDES CHILDREN**  
Experience and a Mother's Love Make Advice Valuable.  
An ill mother writes about feeding children:  
"If mothers would use Grape-Nuts more for their little ones there would be less need for medicines and fewer doctor bills.  
"If those suffering from indigestion and stomach troubles would live on Grape-Nuts, toast and good milk for a short period they would experience more than they otherwise would believe.  
"Our children have all learned to know the benefit of Grape-Nuts as an appetizing, strengthening food. It is every evening, with few variations, like this: 'Mama, let's have toast and Grape-Nuts for breakfast; or, let's have eggs and Grape-Nuts'—never forgetting the latter.  
"One of our boys in school and 15 years of age repeatedly tells me his mind is so much brighter and is every way he feels so much better after having Grape-Nuts as a part of his breakfast. Name given by Postum Co., Battle Creek, Mich. Read the little book, 'The Road to Wellville,' in page. 'There's a Reason.'"

**Of Interest to Women.**  
Every woman naturally should be healthy and strong, but a great many women, unfortunately, are not, owing to the unnatural condition of the lives we lead. Headache, backache and a general feeling of weakness are prevalent among the women of today, and to relieve these conditions women rush to the druggists for a bottle of some preparation supposed to be particularly for them, and containing nobody knows what. If they would just get a box of Brandreth's Pills, and take them regularly every night for a time, all their troubles would disappear, as these pills regulate the organs of the feminine system. The same dose has the same effect, no matter how long they are used. Brandreth's Pills have been in use for over a century and are sold in every drug and medicine store, plain or sugar-coated.

It has to be a mighty good day to make a girl cover up her neck if it's the prettiest thing about her.

Yet a Chicago woman, Mrs. John J. Keith, has just such a cat.  
The cat is one of the male persuasion and is a handsome Angora, eth a big fluffy tail, a winner of honors at cat shows, and of a color that is best described by his name—'each.  
Each's sweetheart is a doll that Mrs. Keith used to play with when she was a little girl. It is not an ordinary doll, because he is as big as a small baby, and instead of having the perishable head which is wont to decorate the sawdust stuffed body nowadays has a head of porcelain. The doll is a brunette, having lark hair (of porcelain) and big blue eyes. Then, too, it is lavishly dressed and with attractive, big eyes.  
Each fell in love as suddenly as the proverbial swain. One day, a few weeks ago, Mrs. Keith ran across the doll in a trunk through which she was rummaging, and got it out to admire it and recall the happy days of her childhood.—N. Y. Herald.

**Custodian Of Dynamite.**  
The New York State senate has voted to give its clerk the power to expel a reporter from the floor of the senate. The clerk did not ask for this accession of authority, and is not likely to exercise it impudently. It may be interesting to be made the custodian of the senate's dynamite, but a wise man would as soon not be too much flattered.—Harper's Weekly.

**GUIDES CHILDREN**  
Experience and a Mother's Love Make Advice Valuable.  
An ill mother writes about feeding children:  
"If mothers would use Grape-Nuts more for their little ones there would be less need for medicines and fewer doctor bills.  
"If those suffering from indigestion and stomach troubles would live on Grape-Nuts, toast and good milk for a short period they would experience more than they otherwise would believe.  
"Our children have all learned to know the benefit of Grape-Nuts as an appetizing, strengthening food. It is every evening, with few variations, like this: 'Mama, let's have toast and Grape-Nuts for breakfast; or, let's have eggs and Grape-Nuts'—never forgetting the latter.  
"One of our boys in school and 15 years of age repeatedly tells me his mind is so much brighter and is every way he feels so much better after having Grape-Nuts as a part of his breakfast. Name given by Postum Co., Battle Creek, Mich. Read the little book, 'The Road to Wellville,' in page. 'There's a Reason.'"
