Died of His Injuries.

August Skoglund, a mason and plasterer, died last evening at 6 o'clock at his home on Kearns street, Laurium, from the effects of injuries received by a fall about a month ago. Skoglund was building a chimney on the addition to the Laurium town hall, when he fell from the top of the building to the ground and sustained injuries which caused his death.

He was a married man, 32 years old and leaves a wife and two young children. He was born in Sweden, but had lived here for some time and was employed by Mr. Fred Roehm this summer. His parents and most of his relatives live in Sweden. He has a brother here. Skoglund was a member of the Swedish Benevolent society and that organization has charge of the funeral arrangements and will be held tomorrow afternoon at 2 o'clock from the Swedish Lutheran church in Newtown and the remains will be interred in Lake View cemetery.

To Voters.

Under the amendment to the constitution voted on in November, 1894, no person of foreign birth is entitled to vote on his first papers unless they were taken out prior to the 8th of May, 1892. Quite a number of persons who have taken out their first papers since that date are no doubt laboring under the impression they are legal voters, as they actually were before they were disfranchised by the amendment as passed; but now, in order to be entitled to the franchise, they must obtain their second or full citizen's papers, that is of course, if they are entitled to them. To assist these persons the circuit court will, at its session on

Monday morning next, act upon applications for citizenship and to help the good work along, the Mineral Range will on that day issue return tickets between Red Jacket Lake Linden and Houghton for 50 cents.

In the Courts.

William Downing obtained a warrant for the arrest of J. F. Hendrickson, on the charge of assault and battery and Hendrickson was brought before Justice Curtis this morning, when he pleaded not guilty and demanded a jury trial. Accordingly, next Monday afternoon at 3 o'clock was the time set for the case. Hendrickson was released on a \$50 bond.

Miss Kaisa Hendrickson, who had loved not wisely, but too well, got out a warrant for the arrest of Ulrich Niemela. Niemela was at Ielpeming and Deputy Sheriff McNamara, of Houghton, brought him up from that city today. He was taken before Justice Curtis this morning, but the case was settled by Niemela paying the girl \$300.

Prof. Favour.

"The electrical entertainment of Prof. Favour, given on Monday, February 19, 1894, in the Schoville Institute lecture course, was very satisfactory to our people and attracted one of the largest audiences that we have had in our course this season. The experiments were performed deftly and without mishap, and, while interesting to all, were especially enjoyed by our young people, whose attendance we took special pains to secure."—E. H. Pitkin, Oak Park, Ill.

ECKLES AGAINST THE GREENBACK.

Only Safety for the Government Lies in Their Annihilation, He Says.
CHICAGO, Jan. 17.—Comptroller of the Currency James H. Eckles spoke last night at the annual banquet of the real estate board on "Our Currency System." He discussed particularly the "greenback" element of the system, citing it "because the harm which it is doing must be manifest to all; because every bond issue made to preserve the gold reserve in the treasury bears testimony to the expense it is to the taxpayer, and every measure introduced in congress to cancel the indebtedness which it represents, or prevent too great a repetition of the presenting of it for redemption, proclaims its harmfulness."

"The legal tender issues of the government ought and must be redeemed and retired, if the American people are to be rid of recurring danger and loss arising from their being part of our currency issue. It is asserted that when the revenues of the government exceed the necessary expenditures bond issues will cease, and no further trouble follow. The difficulty, however, goes beyond the question of revenue and touches a vital point in trenching upon the confidence of those dealing with us in our ability to always pay these obligations in gold."

"Complete confidence cannot be restored by simply increasing the governmental income, but even if it could there would be no guarantee against future impairment of it through the same cause. There is but one road to absolute safety, and that lies through their payment and cancellation."

ADAM SCHAAF!

PIANOS.

MR. ADAM SCHAAF has, after long and careful study and experiments, succeeded in producing Upright Piano Fortes which are the most perfect instruments of their class ever constructed. The volume of tone is fully equal to any of the best Square Grand Pianos, while the quality is of the most exquisite character—pure, sympathetic, and in the highest degree pliable. The durability of these new Upright Pianos, and their capacity of standing in tune is unparalleled in the history of piano making, and even greater than that of the best Grand and Square Pianos.

Upright Grand, style 3, and Cabinet Grand, style 5, in their interior construction, power, volume and exquisite singing, sympathetic quality of tone, are substantially Parlor Grands in upright form. In a word, the Adam Schaaf Piano is made to stand, not merely as an ornamental piece of furniture, but as a musical instrument—not for a day, but for a lifetime.

Too much cannot be said in favor of these Upright Pianos; in fact, they must be seen and heard to be appreciated. An immense demand has already sprung up for these instruments, which are rapidly becoming
