Post Office Affairs. In all probability the free delivery service will not be inaugurated until April 10, or about the middle of the month.

Most of the appointees for carriers have already got their bondsmen and every effort will be made to get the system in working order as soon as possible.

It is desirable that residents get mail boxes and have them placed on the houses for their own convenience and security.

The carriers are required to deliver the mail into the house, but it is often afterward lost or misplaced.

The postmaster also wishes that residents would have their correspondence and papers addressed with the house number and street, otherwise the carriers will not be required to deliver it.

Post Office Inspector Ralph Bird and son, of Milwaukee, are in the city.

A Man Indeed! "Look here, upon this picture, and on this, the countenance of the man who was what a grace was seated on this brow: Hyperion's curls, the front of Jove himself; eye like Mars, to threaten and command; a station like the Herald Mercury; Now lighted on a heaven-berming hill. A combination and a form indeed, Where every God did seem to set his seal To give the world assurance of a man." This splendid description is that of yourself, after your photograph has been taken at Herman's studio.

The case of Jacob Berg vs Maglone Lajunise for the theft of a clothes wringer, which was to have been tried in Justice Curtis' court yesterday afternoon, did not materialize. Lajunise returned the wringer to its rightful owner, said he was sorry and that it wouldn't happen again and the case was dismissed, the costs of prosecution being borne by the court.

TIN AND TIN.

What a difference! A wash boiler is a wash boiler, you may say, but if it's made out of cheap, low priced tin, and sold for less than a dollar, you are throwing away your money when you buy it. We don't try to sell such stuff, and when you find your boiler full of holes in a short time, then, perhaps, you will wish you had put a few cents to the amount you spent for the cheap boiler and came to us and bought one of our extra heavy

One-Seam Copper-Bottom Boilers.

Guaranteed not to rust. They cost a little more at the start, but are good when two of the cheap ones are worn out.
