Copper Country O. D. H. S. Lodge Will Unite

And Celebrate at Hancock.

Mr. L. Hennes Entertains a Number of Guests With a Pleasant Outing-Other News

On Thursday, August 20, occurs th ounty reunion and picnic of the O. D. H. S. lodges of the copper country at the Hancock grove under the auspices of Lake Superior Lodge, of Hancock. The grand parade will commence at the Portage Lake bridge, where the visiting lodges will be met. It will be under the direction of Dr. A. Gasser, as grand marshal, with George Widmeyer, Arno Jach nig, Joseph Class, Joseph Widmeyer, H. Saam, H. Ernest, Christ Zimmerman, G. Hofer and G. Wren as aids. The parade is expected to start at 10 o'clock a. m. Arrived at the park an address will be made by Paul Schenk, of Lake Su perior Lodge. Dinner will be served at the grove and there will be music for dancing during the afternoon and even ing. The Quincy Excelsior band has been engaged for the entire day. The following committee of arrangements has made every effort looking toward the enjoyment of the visitors: Albert Gutsch, Christ Zeigler, Nick Donglinger George Wren, Paul Schenk, Arno Jachnig and George Schneider. The following gentlemen will receive the visiting brethren and generally look after everyone's comfort: Fred Belling, Henry Drit tier, Sr., Andrew Link, Conrad Reyer and William Mertz. Admission to the grove all day, 25 cents, ladies free

The reception given last evening at the Armory Opera House in honor of the graduating class of the Michigan Mining School was a pronounced social success and no doubt the students, the end of whose years of hard work it marked, will remember it with pleasure for a long time

The fact of the party coming after a tearth of amusements of like character made the enjoyment of the young people the more keen and dancing was kept up until old Sol had begun to light up the eastern horizon. The inspiring music of the Fifth Regiment band added to the zest of the dancing. The band rendered some new music and was particularly good in the rendition of the various two steps on the program. The guests were received by Judge Hub

bell and Hon. T. B. Dunstan, of the board of control, with their wives; Mr. and Mrs. A. F. Rees, and a reception committee of students. During the reception proper the band rendered several fine se

A very pleasant outing was given yes terday by Mr. L. Hennes in honor of his guests from Detroit. The party left Lake Linden on the tug Annie R. Hennes and at Houghton were joined by another party, and the pleasure barge Pilgrim was there taken. They then went to the canal, where a few hours were spent on the beach. An orchestra was aboard and dancing proved a source of pleasure during the day. The whole party numbered about thirty-five and included ome from Calumet. Mr. and Mrs. F. A. Schulte and daughter, Miss Laura Hennes, Frank Huetteman, Fred Cramer, and Tony and Charles Boddo, in whose honor the excursion was given, left today by boat for their homes in Detroit. They have been visiting friends here for some time past, and the last five gentle men were most favorably impressed with their first visit to the copper country.

A. Mr. Carlyle, an actor of years of experience, will give a Shakesperean reading at Hartman's Hall next Wednesday evening. Romeo and Juliet is the play selected. Mrs. J. A. Hubbell and Mesers. W. D. Calverly and J. F. Hambitzer have taken upon themselves the arrangements for the evening. A more extended notice will be given later. Mr. Carlyle hopes to arrange for an outdoor rendition of "As You Like It" some time next month, probably at the Onigaming club with a number of local people in the cast. These latter entertainments are very popular just now below.

The Baraga base ball team will play the Houghtons at the Mining School park Saturday and Sunday afternoons The Houghton boys will make beroic efforts to take a game from the sawdust team and a good many of their admirer think they will break even if not win both games. If they can avoid the disastrous inning in which they usually loose their games with the Baragas the boys should give a good account of themselves. With the exception of one vellow inning in each game the Houghtons have played superior ball to their rivals and the score has usually been a close one.

A minister of the gospel living on Portage Lake has been studying the financial question and has evolved some unique deas. With "Coin's Financial School" in one hand and the bible in the other the expounder of the scriptures has come to the conclusion "that God in his infinate wisdom has placed the two metals, gold and silver, in the ground at a ratio of 16 to 1." This goes a little ahead of Bryan's cross of gold and the crucifixion

Indeed he would seldom be permitted, except as a domestic servant, to enter a private house When Khama, the famous chief of of admittedly high character, who has ruled his people with singular wisdom and ability, was in England last autumn and ere entertained at lunch by the Duke Westminster and other persons of socia eminence, the news excited general anno-ance and disgust among the whites i South Africa. A story was told me of a arden party given by the wife of a least ing white ecclesiastic, the appearance at which of a native elergyman led many of the white guests to withdraw in dudgeon. Once, when I was a guest at a mission tation in Basutoland, I was asked by my host whether I had any objection to his bringing in to the family meal the native pastor, who had been preaching to the na-tive congregation. When I expressed some surprise that he should think it necessary to ask, he explained that race feeling w so strong among the colonists that it wou have been deemed improper and, indeed at the same table with a black man unles special permission had first been given Thus one may say that there is no social intercourse whatever between the race. CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Aug. 16. Comment by Rev. S. H. Doyle. Topic.-Seeing God in nature.-Ps. xix, 1-6;

The thing created always speaks of the Creator. It proves the existence of a Creator, and more than that it tells us much of His character and His power. beginning God created the heavens and the earth." Naturally, therefore, we would expect nature to speak of God, and that much about God could be seen in nature. This is the fact. The invisible things are seen by the things that

1. In nature we see proof of God's existence. The existence of the world proves God's existence. A thing created must have had a creator. Every effect must have had a cause. The world is an effect. There was a time when it did not exist. Science as well as Scripture teaches this fact. It must have had a beginning and a creator. The adaptabeginning and a creator. The adapta-tion of everything in the universe proves that the world must have had an intelligent cause. If there is no God, who made the world is a question athesm has never been able to satisfactorily answer, and never will be. There only one explanation of this world's ex stence and that is that it was brought into existence by an intelligent and all powerful Being. That supreme Being is God.

2. In nature we see the glory of God "The heavens declare the glory of God, and the firmament showeth His handiwork." All nature, from the brilliant orb of the heavens to the tiniest dew drop that nestles in the bosom of the blade of grass at our feet, testifies to the exceeding riches of the glory of God.

8. In nature we see the ownership of God. "The earth is the Lord's and th fullness thereof, the world and they that dwell therein." As a part of the world we belong to God. He has made us. The thing made belongs to the maker. In giving ourselves and our all to God, we are only giving Him His own, and we should all acknowledge His ownership.

4. In nature we see the goodness ar providential care of God. How good is this Creator to all that He has created and how careful and thoughtful for all His creation! He hath clothed the gras of the field, adorned the lily with beaut and splendor, and not a sparrow falleth to the ground without His notice. If so careful of such transient things, how wonderfully careful He will be for the nighest part of His creation-man.

Nature tells us much about God, but not how we can be reconciled to God. It speaks of estrangement, but not of forgiveness. This we have in the revealed word of God. Let us not neglect it, even for nature.

The Valley of Shadow. In various places and on many occa-sions does Jesus pledge us to meet Him in this life-at the cross, in the sacrament, in the cries of joy and sorrow— and now once again He appoints us a meeting place. It is the Valley of the Shadow, where, in the quietness and seclusion as in the lovers' glade, He will expect us one day. Is there any spot on earth so common or so wild that it has not been transformed by love? Are there any places in our thought so beautiful as those where we kept tryst with thos · · · put a fair face on death, so that it becometh but His dark disguise as He returneth to receive us home. - John

The Christian Endeavorers of the Melville Presbyterian church, Montreal, are in the habit of sending bundles of good literature to a country minister who uses them in his itinerant preach ing. At one town the papers aroused so much interest that the people were le to come to the services again and again. Now the interest in religious things has become so marked that a small church has been erected in the town.

Re-enforcing Our Souls.

No one has lived the inner life with out seasons of early passions when th romance of Jesus has captured the soul without seasons of later declension when the greenery of spring grew gray in the city dust. It is in such hours of coldness and weariness we ought to re-enforce our souls with the sacrament of the bread and wine. - Ian Maclaren

"Oh, why didn't I want to marry a d cent barrister, a doctor, or even a journal ist, instead of an earl's younger son?" said Miss Muriel Mallett, with a frown on her pretty face and a tear or two in her large, limpld eyes—eyes which made all the men think, wrongly, that she was poetical and give me up?

One of the objects which invariably at-tract the interest of voyagers approaching Savannah by sea is the tiny round tower a few hundred feet distant from the lighthouse at Tybee island, on the Georgia side. With the aid of a good pair of marine glasses the tower can be descried as built of stone and apparently hoary with age. Indeed, the native Georgian has no greater pleasure than to pour into the aste ears of northerners the tale that ears of northerners the tale that it was erected by the Spanish about the same time as the structures of St. Augustine. But the hard and rather unpoetic facts of the case are that the United States govern-ment built the place as a defense against the British in 1812.
