There may be a curious fight after the county conventions have all been held and the official ballots are made up in the various counties of Michigan. The election commission in each county will be called upon to arrange the ballot as it is to be put into the hands of the voters under the Australian ballot law. The law says that the party having the highest number of votes in the last preceding State election shall have its column first on the ballot. This year the first place will undoubtedly belong to the republicans and the second will belong to the democrats. But then the question will arise, who are the democrats? Will it be the ticket nominated at Lansing, with a democrat of long standing at its head, or will it be the tripartite ticket named at Bay City, with a man at the head of it who presumably voted the republican ticket at the last election. Both sides will claim second place and it is more than likely that the supreme court will be called upon to decide the point.

Fatal Accident at the Tamaack-Osceola Coal Dock.

Bucket Became Overbalanced

And the 800 Pounds of Coal It Contained Fell on John Bedard, Who Died Shortly After—Notes.

A fatal accident occurred Saturday morning at the Tamaack-Osceola coal dock near Dollar Bay by which Ernest Bedard lost his life. Bedard was working under the hoist and a bucket which had just been sent up in some way became over-balanced, discharging its load of about 800 pounds of coal from a height of sixty feet directly upon the unfortunate. Several large pieces struck the man on the skull, one making a hole an inch and a half in diameter and another so crushing the bones at the base of the skull that the sutures at the top were torn apart. The wonder is that the man was not instantly killed, but he lingered from the time of the accident, 9 a. m., until 6 o'clock Saturday evening. Dr. Abrams was called after the injured man had been removed to LeBlou's Casino, where he boarded, but anything he could do he saw at once would be of no avail. The physician stated that it was the worst case of fractured skull he had ever seen. Deceased was a single man and with the exception of a cousin had no relatives in this part of the country. It was stated that he was to have been married in a few weeks.

The bucket which dumped is of a new construction in this section. It goes up perpendicularly sixty feet and then runs on a traveler to the dumping place. It is so hung as to be very evenly balanced for convenience in dumping. When it leaves the hold a hook is fastened by the men filling it. Whether the fastening of this hook was neglected or what caused its dumping could not be learned from those present. A similar accident happened about two weeks ago, though fortunately without serious consequence.

The "Two Orphans" was presented Friday evening at St. Patrick's Hall by a cast from the Home dramatic club. Mr. and Mrs. B. N. Carlyle and Mr. M. E. Wright took leading parts. The audience was limited only by the capacity of the hall and all in speaking of the performance accorded the gentlemen and ladies concerned the highest praise. Mrs. Carlyle played the part made famous by Kate Clayton, "Louise, the blind orphan," in a manner to excite and hold the sympathy of the audience. The sufferings and peril of Louise and Henriette, the orphans, supposed to be sisters, forms the key note of the piece and Miss Mollie McGrath playing the latter character equally well, the interest of the audience never flagged. Mr. Wright is well known to Portage Lake audiences and in the character of Chevalier de Vandrey, the protector and afterwards lover of Henriette, he more than fulfilled expectations. The part was well suited to his powers of acting and his manner of handling it showed appreciation and study of it.

Miss Dwyer had a dual role as the Countess de Liniere and Sister Genevieve, a nun. Her acting was good and her makeup as the latter character was commented on as most realistic.

Mr. Carlyle played Mother Frouhard, the hag, the mother of the thief Jacques and his brother Pierre. His acting was all action and he succeeded in making his character as revolting as the piece demands. John Fern presented the rascal Jacques to the life and with John Stone as Pierre in their several scenes together earned the hearty applause of the audience.

The other characters were well taken, filling out a most artistic production. The Home dramatic club has added another to their list of successes. The "Two Orphans," with the exception of "Colleen Bawn," is the hardest play they have undertaken. The audience was made up of representative people of Hancock and Houghton and all present will welcome the announcement of another play by the club. The proceeds, which will amount to a good sum after the expenses are paid, goes to the fund of St. Patrick's church.

The club desires the News to thank the Quincy Excelsior band for their assistance in making the evening an enjoyable one for their patrons.

Marvelous Remedy.
From a letter written by Rev. J. Gunderman, of Diamond Lake, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While was pastor of the Baptist church at Rives Junction, she was brought down with pneumonia, succeeding grippe. Terrible paroxysms of coughing would last hours with little interruption, and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at D. T. Macdonald's drug stores.

Increase in Confidence Among Business Men.

AN END TO THE MONEY ANXIETY.

Due Largely to the Continuing and Heavy Imports of Gold from Europe—Bottom Prices Reached in Iron and Steel Products, and They Have Started Up a Shade—Another Advance in the Prices of Wheat—Business Failures.

New York, Sept. 7.—R. G. Dun & Co. in their weekly review of trade says: There is a distinct increase in confidence, due largely to the continuing and heavy imports of gold, which have put an end to money anxiety, and also to political events, which are closely watched. While it does not yet start more mills and factories than are closing for want of work, it crops out in many speculative purchases of pig iron, and some other materials by experience men who believe that a revival of business is not far off, and for the first time in nearly two months a slight upward turn appears in prices of manufactured products. The gain in confidence and in willingness to lend is about 15,000,000 bushels, or 13 per cent. Atlantic exports are also large—four included 2,032,943 bushels, against 1,347,352 last year, and since July 1, 1907, 551 bushels, against 11,215, 945 last year, a gain of 83 per cent. Heavy stories of little support. Corn has advanced to 85¢, and has reached at Chicago the lowest point ever touched, 20 cents in 1861, and has again broken all records here, declining to 25 5/8 cents, at which it closed. Cotton fell to 7 7/8 cents, but, with revival of confidence, rose to 8 5/8 cents. Though the prospect is clearly more favorable than some weeks ago.

Iron and Steel Prices Change.
After many weeks of decline so that the average prices for iron and its products was the lowest since early last year, prices have started up a shade. Heavy speculative purchases of Bessemer at the west and of southern iron here, the latter mainly by New Yorkers, at \$4.40 for No. 2 and \$5.90 for gray forge, have so strengthened the market that Bessemer at Pittsburgh commands \$11.35 and gray forge \$5.50. The various associations have not reduced prices, believing that it would not stimulate demand at present, which is extremely narrow and as yet shows no improvement. But the first step in that direction is taken when men believe that the bottom has been reached. Coke ovens operating are only 7,425, against 10,522 idle, with a smaller output than for years, but no change is made in prices. Tin is weaker at 13 1/2 cents for September. Bids at 10 3/4 cents are soft for lead in copper, while lead is a shade firmer at 2 7/8 cents.

Belief That Prices Will Improve.
The starting of some woolen mills, which have been idle and accumulating orders for a short run, is still balanced by stopping of others, and the volume of orders does not increase. No gain as yet appears in demand or prices, but a marked speculative buying of wool sales belief that prices will improve, and sales for the week were 4,377,000 pounds, of which only 555,700 pounds were foreign, much over half of the domestic sales being for Texas and southwestern states at prices ranging from 7 1/2 to 8 1/2 cents. Cotton grades are growing stronger, more grades having advanced, and though sales are moderate, there are more buyers, indicating exhaustion of the market. Cotton touched for the week has been 334 in the United States, against 188 last year, and thirty-one in Canada, against thirty-eight last year.

MRS. PARNELL'S ASSAILANT.
She Knows Him and Intends to Reveal His Name.
New York, Sept. 7.—It is believed at the old home in Bordenstown, N. J., of Mrs. Della S. Parnell, mother of Charles Stewart Parnell, the Irish leader, that it will soon be known who made the murderous assault upon her in a lonely highway the night of April 23, 1885, as she was going to her home, "Ironside," near Bordenstown. It was not known that Mrs. Parnell knew who her assailant was, and no clue to his identity was ever discovered. But in a letter to William C. Steele, a justice of the peace of Bordenstown, who was one of the most active in the search for Mrs. Parnell's assailant, she says she intends to write and tell the name of the person who assaulted her. She says she knows who he was, and as she is now in Ireland and does not intend to return to this country, she will make it known who tried to kill her. It is believed the letter to Justice Steele will be published just written. The letter has caused some excitement, and has revived the discussion of the strange assault.

Member Fined Gently.
Hannibal, Mo., Sept. 7.—The committee appointed by Bishop Galloway to try the case against Rev. Thomas Cooper, deposed pastor of St. Joseph Saturday found him guilty of gross immorality, slander and profanity. He was recommended that he be expelled from the church. The conference adopted the report at once, and Cooper was expelled. The suicide of Dr. McDonald this week is said to have been due to a state of prostration made by Cooper. McDonald had charged him with immoral intimacy with a young woman of the church.

Charity Ball for Fire Sufferers.
Houghton, Mich., Sept. 7.—A charity ball for the benefit of the Ontonagon fire sufferers was given at the Light Guard armory at Calumet Friday night. There was a large attendance. About \$5,000 has been raised in Houghton county for Ontonagon. Reliable reports from the burned city say that further cash contributions are urgently needed. The people now have plenty of food, but hundreds are totally destitute and must have a few dollars each to enable them to begin life anew.

CEAR AT BRÉSLEAU.

Royal Visitors Received by the Emperor and Empress of Germany.

Bréslau, Sept. 7.—The czar and czarina have arrived. Their majesties were received at the railroad station by the Emperor and Empress of Germany, the royal princes and princesses, the chancellor, Prince Hohenlohe, the minister for foreign affairs, Baron Marschall von Bieberstein, and a large number of military and civil officials.

THE CZARINA.

After a cordial greeting had been exchanged between the two imperial parties, the czar inspected the guard of honor, and their majesties drove to the castle, escorted by a detachment of cavalry. The czar and Empress William included the train carriage and the czarina and the Empress of Germany were in the second carriage. The route to the castle was lined with troops, and the crowds of people present accorded the emperors and empresses an enthusiastic reception. The czar wore a general's uniform and the czar was dressed in the uniform of the Alexander regiment. The czar and czarina are located in the Landeshaus palace, which has been specially prepared for them. The czarina has with her an infant child, the Grand Duchess Olga, who was born in November last year. After luncheon the czar and czarina and the Emperor and Empress of Germany drove to the parade ground and witnessed a grand review of the troops.

ASSAULTED A MINISTER.
Angry Because His Charges Were Not Sustained.

Decatur, Ill., Sept. 7.—Thursday evening a highly sensational affair marked the close of the semi-annual meeting of the presbytery of the Cumberland Presbyterian church at the town of Bethany, Moultrie county. The Rev. T. Caldwell was attacked in a Bethany store by M. M. Trouter, a farmer, and severely beaten. Trouter fled to his home in the country before he could be arrested, but he was apprehended on a warrant. The Rev. Caldwell has been pastor of the Cumberland Presbyterian church for a year. When he went to the town he found that liquor was being sold in violation of the law, and that members of the church were gambling. He began a warfare on his pulpits on the evils, with the result that several upheld Caldwell in his work.

At the meeting of the presbytery charges of falsehood were brought against Caldwell by Trouter, but the minister was acquitted. Trouter was so angry over the finding that he struck and kicked the minister, who is a small man, and did not make an effort to defend himself. The presbytery assembled immediately after the assault and resolution were passed endorsing Caldwell's course while in Bethany. Caldwell's several months ago had resigned as pastor of the Bethany church to take a post-graduate course at the Union Theological school.

OBJECT TO HORSE DIVING.
Dr. Carver Arrested for an Exhibition of Amphibious Equine.

Rockford, Ill., Sept. 7.—Dr. Carver, who during the last week has had as one of the features of the county fair a couple of horses which dived from a thirty-foot tower into a tank of water, was arrested Saturday by officers of the Humane society on a charge of cruelty to animals. The feat has attracted much attention during the week and caused not a little indignation. The public protest became so strong that the Humane society could not longer ignore the case. A writ in a justice court before a jury, many of the most prominent citizens of Rockford appearing as witnesses for the prosecution. The agricultural society is backing Dr. Carver of Chicago, who has exhibited the same feat all over the country and who has first place it has ever been called cruel.

Wanted to Marry His Mother-in-Law.
Fall River, Mass., Sept. 7.—Charles F. Borden, a widower, aged 42, senior member of the firm of Borden & Remington, who control the drug trade of southern New England, tried unsuccessfully to marry his mother-in-law, Mrs. Elizabeth Borden, aged 65, widow of Robert H. Remington, one of the most distinguished men of whom Fall River ever boasted. Mr. Borden's wife died one year ago, and six months ago her mother and Mr. Borden began their courtship. The fact was known in a justice court before a jury, when it was stopped by the indignant relatives of both parties.

Died of His Injuries.
Chicago, Sept. 7.—Timothy Crowley, the engineer who was hurt in the wreck of the fast mail train on the Northwestern road at North Evanston, Tuesday night, died at St. Luke's hospital. He lived at 81 Austin avenue and was a widow. For many years Crowley was in the employ of the Northwestern road and was known as a fearless runner.

Dr. Jameson to Marry.
London, Sept. 7.—The rumor that Dr. Jameson is to marry the dowager countess of Dudley, daughter of Sir Thomas Moncreiff, and widow of the first earl of Dudley, who died in 1885, is revived by the frequent visits which the countess has been paying the prisoner in Holloway jail and the fact that she showed the keenest interest in his trial.

Fusion Effect in Missouri.
Omaha, Sept. 7.—The Democratic and Populist effected fusion Friday and divided the state ticket. The congressman was allotted to the Democrats, but the convention decided to put up no candidate against Hartman, who followed Teller out of the Republican convention.

Appointed by Clark.
St. Paul, Sept. 7.—Clark, under-Chief Clerk of the G. A. R. Saturday reappointed Quartermaster A. J. Burbank. Aside from this appointment there was nothing of news in Grand Army affairs. The crowd having mostly scattered throughout the northwest or home.

LABOR'S BIG REVOLT.
Dock Men in Every Port Likely to Quit Work.

ALL COUNTRIES TO BE AFFECTED.
Colossal Combination Among Longshoremen in All Parts of the World Nearly Ready—One Million Men Are Involved and Hopes Are Entertained That the Employers Will Yield Rather Than Make a Fight—What "Tom" Mann Says.

London, Sept. 7.—[Copyrighted, 1896, by the Associated Press.]—It is reported among the delegates who are bound for the trades union congress, which opens at Edinburgh, on Monday next, that all the plans for a gigantic strike of the dock laborers of the world at large have been perfected in everything but the minute details and that the most important labor movement ever conceived may be commenced this autumn. The trades union men who do the work of the ports of the United Kingdom have been working on this scheme for a long time past and it is looked upon as likely to be the signal for a new era, not only in the history of trades unionism but in the history of all labor organizations or secret societies. Since the year 1880, every strike for better wages or shorter hours at any port of the United Kingdom has practically come to nothing because when the men went out at any particular port, the trade of that place has been transferred for the time being to some other British or continental port and the strikers have been compelled to surrender.

To Unite All Classes.
The present plan is designed to prevent any such success by uniting all classes of laborers employed in or about the docks, ships wharves and warehouses in the United Kingdom, France, Holland, Belgium, and Australia, as well as other countries, in one great new federation. Its members are to wear a specific badge and the cardinal principle of membership will be to stand firmly united, and to implicitly obey the instructions of the governing council in spite of anything or anybody. Throughout the world the members of this federation will be pledged to uphold strikes of any section of the federation by striking in sympathy and remaining out until notified to return to work. The strike is so gigantic in scope and may have so far-reaching consequences that it is attracting attention on all sides and is seriously considered by the lawmakers of Great Britain, who see in it a great danger which may have to be met by radical resources. The strike is to be principally against the piece work system.

What "Tom" Mann Said.
"Tom" Mann, one of the leaders of the movement, was interviewed by a representative of the Associated Press. He said: "The organization which is controlling this new movement is called the International Federation of Ship, Dock and Rivers, an organization that directly appeals to over one million men. When we have completed the organization of these men, and so far, we are sure of a fourth of the number mentioned and the number is growing every hour, it will be the biggest event that has happened in the labor movement in the United Kingdom the men are responding as freely as we could wish. We have already made great steps at organizing
