Heart Disease Cured!

Immediately Helped!

Heart Disease Causes Thousands of Deaths Annually.

There is something terrible in this disease, as it carries off victims without giving their time for preparation, and almost without warning. There may be some early symptoms from time to time, such as paintation of the heart under any exertion, such as walking fast up and down stairs, or excitement or shock; rush of blood to or from the head, often causing diziness or sudden change of position, disturbed or irregular pulse. Very often, the weak or failing heart can scarcely be said to give its victim any marked warning, until suddenly there is a shock, the machine stops work and death end all. Every form of disease of the lungs has a corresponding influence on the heart, but it is chiefly chronic bronchitis and some forms of consumption that permanent changes begin and end in organic disease of the heart. I will not here enter into a discussion of the various forms of heart disease any farther than to warn those who have any of these symptoms that they must seek relief at once in order to escape the worst results. Employ some physician who makes a specialty of heart trouble. Fluttering and irregular action of the heart, noticed by the best of pulse should cause the greatest anxiety and the sufferer therefrom should at once seek the proper treatment to remove the disturbing causes before they reach a cris s which may end in sudden death. Dr. S. Clay Todd has attracted the attention of the whole country by his wonderful skill and success in curing heart troubles of every degree of intensity.

Those who call on him for treatment can be said to gain immediate relief so that the next day after beginning treatment they are decidedly better and are greatly encouraged. Consulta-

YOUR THROAT is red and ulcerated. There are little patches or ridges, or which or yellow ulcers in your mouth as far back as you can see; the same ulcers or congested condition may be in your nose, bronchial tubes or lungs. Perhaps you have gested condition may be in your nose, bronchial tubes or lungs. Perhaps you have a cough; if no cough now, you will have as soon as you take cold. The disease is there, and only needs the "exciting cause" of a cold to be developed into a lung couble. You will then begin to raise a froth, then a sight mucous, then a heavier phlegm until very thick, as the disease advances. There is one physician of great experience in our midst, be has had experience in all parts of the world, in hospital and special practice in the treatment of these diseases. This is DR, S. CLAY TODD, who has had a practical knowledge of the treatment required, and has the remedies this set disease is to him from the countries where they grow, and these remedies are shipped directly to him from the countries where they grow, and these remedies are compounded by him and put up for use before each patient in his office. That cough, slight fever, and weakness, shortness of breath, paipitation of heart may mean sure and quick consumption.

If you are nervous, restless, irritable, sleeplessness, or wake after borrid dreams, tired mornings, with a dull headache, bad taste in the mouth, sometimes discharges, and go about your work without life, energy or ambition, desire to be alone, gloomy forebodinge, a disposition to worry and fret about trouble ahead that never comes, spells of feeling afraid or uncertain, sometimes low spirits, you ere suffering from nervous debility and exhaustion of nerve power, which may end in utter prostration, insanity and death.

If you have a great sense of weakness and weariness, with tired limbs, numoness, trembling, prickly sensations, cold feet and legs, you are advancing to that most serious disease—Paralysis.

If your head aches, feel numb and tired with strange sensations, loss of memory, and you

Paralysis.

If your head aches, feel numb and tired with strange sensations, loss of memory, and you tink with difficulty, or you are sleepless at night, with drowsiness or duliness during the day, the nerve and brain fatigue may soon run into insanity or death.

If you have any of these feelings do not neglect them, or they will end in paralysis, prostration, insanity or death.

As you value your life do not neglect these warnings. Time and experience have shown, and thousands of startling and mar clous cures have proved, that these diseases are perfectly and completely cured by DR. S. CLAY TODD, at the New Jewell Hotel, Calumet, Michigan.

Under the use of DR. S. CLAY TODD'S remarkable remedies all those symptoms yield as if by magic, and strength of nerves, vigor of brain, vitality of blood, and health of body are soon restored.

All Can He Cured If They Apply Soon

This young lady had lost all hopes of ever regaining her health. The skill of Dr. Todd and a little medicine start her on the right track; she says: I had ulcers in the stomach and liver, vomited aftereating; I doctored with five doctors without relief, have been sick 4 or 5 years, the last year very sick, and had lost all hope of help, I had terrible thirst, felt if I could lie in the river and the water run right through me, I would be all ter run right through me, I would be all right, my stomach was terribly bloated, gas and water raised in my mouth, great pain in the side and stomach and awful weak and nervous. I was taken to Dr. S. Clay Todd February 29 and he gave me one treatment and told me to return in three days and I would be better, and I feel so much better, I don't teel like the same person. I don't know when I felt so well and I do not vomit any more, or have to dripk water as I have no or have to drink water, as I have no thirst; on the way home I began to get better not with standing the roughness of the roads, the pains all left me and have

Relation of Catarra to Consumption When catarrh has existed in the nose,

head and upper parts of the throat for any length of time, the patient living in a district where people are subject to catarrhal affections, and the disease has been left uncured, the catarrh almost invaribly extends from the windpipe and thence into the bronchial tubes. These parts of the lungs. The pass which ac companies this condition is of a dull character, felt in the chest behind the breast-bone, or else it is present under the shoulder blade. The cough that occurs at this time is dry, comes at yarying intervals, is backing in character and is usually most troublesome in the morning upon arising or on going to bed at night. This peculiar character of cough is often the first evidence that catharral disease is extending into the lungs. About this time you will have shortness of breath and palpitation of the heart which always goes with consumption. You should then immediately call on Dr. S. CLAY TODD and be will give you relief.

KENTON, Оню, May 18, '67 -To all whom it may con-cern: I hereby cert fy that I was afflicted for 5 years with disease of the Hip Joint, during which time I suffered the most executiating pain, with but very little intermission. From the joint it followed the direction of the bone, destroying it to within about fiveinches of the knee, when it dis-charged from half a pint to charged from half a pint to a pint of matter a day, emall pieces of bone coming away from time to time. I tried all the physiciars that I could hear of, I thought would belikely to benefit me; I then tried patent medicines, linaments and salves, and derived no benefit, but continued to lose strength. Terrible Backache Cured.

I had a terrible steady backache for four years without any let up at all; sometimes I could hardly straighten up. Could not ride in a wagon on account of the greater pain from the jar of the wagon and have walked rather than ride. I have now been under the treatment of DR. S. TODD. 16 N. Division street, Grand Rapids, Mich., ten days, and yesterday I rode twenty-five miles and nine miles today in a wagon without pain at all—the first time for four years. I would cheerfully recommend D. Todd to those who have great pains in their back. AVERY DOWNER.

He said he felt very much discouraged and so did his friends and the physicians, who had done their best without being able to give him any relief. He says: "I had consumption since last September, falling very rapidly, employed three physicians without relief, until I was taken to Dr. Todd's office last Friday by my father and a friend. Dr. Todd gave me a treatment and told me I would be better the next day and I was very much better. The change took place at 2 o'clock that afternoon and I have been

getting better rapidly ever since. Now, the third day after the treatment I have scarcely any of the burning pain in my lungs and I cough and raise but little. I am gaining in strength and feel better in every way. I feel like a new man. I even whistled a tune this morning. LORAN KEEN.
