

ROSS CRANE MAKES A GREAT HIT WITH CALUMET AUDIENCE

Expert Cartoonist, Clay Modeler and All-round Entertainer, Appears at Calumet Theater Last Evening Under Auspices of Y. M. C. A. and His Work is Thoroughly Enjoyed.

Ross Crane was the attraction last evening at the Calumet theater, and he was greeted by a large and appreciative audience. His appearance marked the opening of the Lyceum course, under the auspices of the Y. M. C. A. Speaking of Crane and his wonderful caricatures and modeling in clay, a member of the audience said at the conclusion of the entertainment last evening, "You cannot say anything too good for him. It was one of the most enjoyable and edifying evenings I think I ever spent."

Every action and every gesture, while speaking, denoted the true artist, and he is just as much an artist with his fingers as with his hands. His entertainment takes the form of a lecture, "Human Nature," he calls it, and from the moment he is introduced to his audience, until the foundation of his tongue never ceases. One minute he is talking with strong pathos and dramatic effort, and the next he has his audience smiling and then laughing with laughter at some of his witty sallies. And Crane is a real funny. He says things spontaneously, full of rich humor. His vocabulary is beautiful, too.

Mr. Crane handled the program last night with great vigor and effort. He drew several pictures, taking all kinds of subjects, including J. Pierpont Morgan, whose portrait, incidentally, he used as a basis for other pictures. From J. Pierpont's picture he added a bunch of red to the forehead and adorned it with a beard, and Richard Croker, Tammany boss, was in full view of the audience. One might go on expatiating on Mr. Crane's work, but suffice it to say that as a cartoonist he is almost incomparable.

As an imitator of the little girl practicing on the piano, the would-be baritone, who never strikes the right key, and the young lady who is asked to sing by her "dear mamma," Mr. Crane was splendid.

Crane concluded his lecture with some modeling in clay, in which he introduced President William H. Taft, and Abraham Lincoln. He showed a mastery of technique in this work, and like his other forms of entertainment was fully up to expectations.

Mr. Crane will be seen at the Korwiese theater this evening. He is well worth hearing and seeing and those who go will not regret it.

James L. Nicks, former of Seventh and Portland streets, has returned from New York city and other parts in the east, where he spent the past three weeks.

Will J. Nara has returned from a business trip to Chicago.

HAS CHARGE OF IMMIGRATION WORK FOR PRESBYTERIANS

Charles Stelzle, Who Will Give an Address at the Calumet Theater Sunday Afternoon, is Prominent in Church Affairs, Doing Notable Work Among the Immigrants.

Sunday afternoon's meeting for men, to be addressed by Rev. C. Stelzle, the well known labor worker, to be held in the Calumet theater under the auspices of the local Y. M. C. A. promises to be a largely attended one. The doors will open at 7:30 o'clock, and the meeting will start promptly at 8 o'clock P. M. The C. & H. orchestra has been engaged to furnish music for the occasion, and a quartet, consisting of Joseph H. Bennett, D. R. MacCraw, H. King and J. Bryant, will render several vocal selections. On the platform there will be an array of militaries and labor leaders in this section. A chairman has yet to be named.

The local association has mailed scores of invitations to those employed in the several shops and stores and other places in Calumet. Those who do not receive a ticket of admission can do so by supplying personally at the Y. M. C. A.

While the Rev. Charles Stelzle is now widely known as the superintendent of the Presbyterian department of church and labor, his activities are by no means confined to this department. He is also the superintendent of the department of immigration of the National Presbyterian church, and has in charge the work among foreign speaking people conducted by this great denomination. He is directing special studies among the incoming millions who are settling principally in our industrial centers, and recently completed the most comprehensive investigation of immigrant life in New York city. He probably knows more about conditions among immigrants on Manhattan Island than does any other man.

Under his direction there are at work a number of experts who are studying special problems that confront the leaders of religious and civic life in our cities. Mr. Stelzle superintends a dozen churches among immigrants on Manhattan Island, using these churches as laboratories in which are being worked out the practical methods which will be applicable in similar communities throughout the United States. He is the director of the department of Christian sociology in one of the leading training schools for Christian workers in this country, and in connection with his department of church and labor he has a correspondence school in Applied Christianity for ministers of various denominations in Twentieth Century methods for doing Christian work. As chairman of the committee on church and labor of the Federation of Churches and Christian organizations in New York city he directs the thought and the work of organized Christianity in the metropolis of this country with reference to the industrial problem.

DITCHES CAVING IN.

As soon as the weather permits, work will be resumed on the pond water system of Laurium, and it is expected that if no further delays are experienced with the arrival of the pipe the system will be ready in about ten days. The frequent delays and necessity of keeping the trenches open has increased the cost of the improvements considerably. Several of the trenches have caved in and others threaten to do so. All of the trenches which have been open during the past week have filled with water, and it will be impossible to push the work as rapidly as desired.

RESOLUTIONS ON MR. SOBIEY'S DEATH.

Whereas, the Supreme Ruler of the Universe, has removed from our ranks our esteemed and beloved brother Henry Sobey, who met his death while at work in the Tamarack mine on the 28th day of Sept. 1909; and whereas, the deceased, being known as a sterling good knight, not only to those of his own caste but to members of the order throughout the county, we, his brothers of Laurium lodge, No. 282, Knights of Pythias, desire to pay tribute to his memory and to send expressions of condolence to those nearest and dearest to Mr. Sobey; and

Whereas, he was at all times an example of our teachings, we each feel that in his death we have sustained a distinct personal loss; we all loved him and as we think of him as he peacefully sleeps we shall, with reverence, whisper his name; now therefore be it.

Resolved, That this resolution be spread upon our minutes, ordered printed in the local papers and a copy thereof be sent to the widow of the deceased; and further be it.

Resolved, That his vacant chair in the castle hall be draped in mourning for a period of six weeks.

Committee: J. K. FINLAYSON, N. CAMPBELL, WM. TREWATHA.

LAURIUM

COPPER COUNTRY ITALIANS ARRANGE FOR SPECIAL CAR

Will Attend Convention at Iron Mountain on October 24 and 25 in Large Numbers—Columbus Day Celebration was a Decided Success—Local Speakers in Attendance.

The Italians of the copper country have made arrangements for a special car on the St. Paul train on Saturday, Oct. 23, for the benefit of those who desire to attend the convention to be held in Iron Mountain. It is expected that about fifty of the local Italians will attend the convention to represent the copper country in the organization of the Upper Peninsula Italian league, which is scheduled to take place there.

Attilio Castiglioni of Laurium, who attended the Columbus day celebration in Iron Mountain was much encouraged by the manner in which the Dickinson county Italians are preparing for this convention. He was assured that the copper country delegation will be given a cordial reception on their arrival at Iron Mountain on Saturday evening. A band has already been engaged for the ceremonies. The Iron Mountain lodges have named sixteen delegates to attend the convention, and the Italians of other iron country towns, Marquette, Ishpeming, Negaunee, Bessemer, Norway, Crystal Falls and Escanaba will be represented with their full quota of delegates.

The league to be organized will be a mutual benefit association. It will aim to pay a large death or sick benefit for its members, and strive to lead the Italians of the upper peninsula into a higher plane of citizenship, and to direct their political activity along concerted lines.

Despite the unfavorable attitude of the weather the celebration of Columbus day in Iron Mountain was a decided success according to Mr. Castiglioni. Mr. Kerr and Mr. Castiglioni were met at the depot by a reception committee and a band, and the members of 10 lodges, about 1,200 in number, headed by the band, paraded through the principal streets of the town, while the snow was falling. The county and city officials appeared in the parade.

In the morning the societies attended services at the Italian church where a patriotic address was given by Fr. Lango. After this the exercises were conducted in Benson's hall, one of the largest halls in the town. Music was furnished by two bands. The speakers of the day were A. W. Kerr of Calumet, Attilio Castiglioni of Calumet, Hon. John O'Hara of Iron Mountain and Rufus Cargel of Iron Mountain. The talks of Mr. Kerr and Mr. Castiglioni were freely applauded, as were the other addresses.

In the afternoon a similar program was conducted, and a second address was given by Mr. Castiglioni. The hall was crowded with eager listeners throughout the entire program.

STORM BOTHERS TELEGRAPH.

The Western Union Telegraph company was without a service outside of the copper country for a short time yesterday as a result of the severe storm. South of Nestora, over one-half mile of poles and wires were blown down and the situation became even more complicated when one of the trains of the D. S. S. & A. passed over the wires and severed a large number of them. The company immediately placed a large repair crew at work, and communication was established as early as possible. The Michigan State Telephone company also experienced some trouble owing to the storm, but when all things are considered the copper country may consider itself fortunate in not having greater difficulties to contend with.

HIGH SCHOOL GIRL VICTIM.

Laurium Police Officers Are Looking for a Strange Man.

The police officers of the village of Laurium have been unsuccessful to date in their efforts to apprehend the author of an attack of a very serious nature which was reported to them on Wednesday. It appears that a well known Calumet girl, a student in the high school, was walking along the H. & T. L. track on Wednesday morning on her way to school, when she was overtaken by a stranger who attempted to choke her and threw her to the ground. Her screams attracted attention and her assailant made good his escape. The man is described as of medium height, dressed in a dark suit, and wearing a fur cap. He was about 25 or 24 years of age. Later the same man was seen in a Florida saloon, but since then he has completely disappeared.

The girl suffered a nervous shock as a result of the incident, and her friends are thoroughly aroused. Marshal Willis stated yesterday that he is very anxious to apprehend the guilty man, and

that he would welcome any information as to the fellow's present whereabouts.

LECTURE TONIGHT.

The lecture to be given by Dr. Kerr Boyce Tupper, at the Calumet Baptist church this evening, will be one of the best literary numbers that has ever been offered to the residents of this city. Dr. Tupper is a lecturer of much polish and travel. He is as much at home on the lecture platform as it is possible for him to be. He speaks almost invariably extemporaneously, and has a fluency and power of expression that is seldom found. From the advance sale of tickets it is evident that the number will be much appreciated in Calumet.

LAURIUM BREVITIES.

Thomas Rehill of Laurium has returned home from Lansing where he represented the Laurium lodge No. 282 at the state convention of the Knights of Pythias.

Mrs. W. E. Steckbauer of Calumet has returned home from Minneapolis and St. Paul where she has visited friends for the past two months.

Several Calumet and Laurium people are causing to be erected summer residences at Twin Lakes on the Copper Range road. This location will become quite a summer resort.

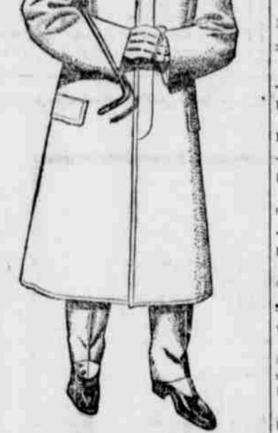

The announcement, which was made yesterday regarding the change of time next Sunday night, was received with interest in Laurium. Most of the stores will continue to use standard time.

Baptiste Tinetti has resumed his duties as a member of the Laurium night police after a five weeks illness.

The cross walks in the village of Laurium were cleared of snow and slush yesterday, providing a big improvement for pedestrians.

Dr. Douglas Rothchilds of Ironwood has returned home after spending several weeks among friends in Calumet.

The latest report to be circulated in Laurium is that that village will not be represented with a hockey team this

Mens and Boys Fall Suits and Overcoats

Spend Less Than You Earn

It's an excellent advice, especially for those just starting on the road of life. Then there's another point every bit as important. It is this--Put what isn't spent where it will not only be safe, but where it will earn something. It's YOUR business to see that less is spent than is earned. It is ours to see that the surplus is well looked after. Here are highest interest rates joined to unquestioned safety.
