

Water Proof Shoes

Possibly you may never have thought of the danger that lies behind getting wet feet. Wet feet bring on sickness and colds; then why not protect yourself? Many people do not like to wear rubbers—they find them too clumsy. Come to us and get a pair of shoes that have a specially prepared sole that will keep your feet warm and dry, and uppers that are water-proof.

Enamel leather and calf-skin for men and women—all sizes. Prices \$3.50 to \$5.

Mining News

STEAL SANTA ROSALIA ORE.

Mexicans Bring Sacks of It into the United States.

High graders are getting in their work at the Santa Rosalia mine of Sonora and hundreds of dollars worth of rich ore is being stolen by the Mexican miners, says the Bisbee Miner.

Fiscal Figures has returned to Bisbee from Arizona where he has been visiting his mother. While in Sonora he saw a large amount of very high grade gold ore that had been stolen from the Santa Rosalia mine, which is near Arizpe.

He said that some of the miners are getting rich by high grading. In one instance he saw a sack of ore from this mine that was worth \$30 and at another time saw a small sack that had \$100 worth of ore in it.

In some cases the ore has been brought into Arizpe on burros and has been displayed openly in the town. The high graders smuggle the ore out of the mine and take it to a hiding place where they concentrate it by some simple hand process.

They have no trouble in disposing of the ore as there are people who make a business of buying high grade rock and getting it out of the country. Thousands of dollars worth of ore has been stolen from the Las Chispas mine within the past few years, and much of it has found its way to the United States.

At the Santa Rosalia the miners are paid two dollars a day and jobs are at a premium. When the mine was operated a few years ago by the California company high grading was practiced extensively and it is known that at that time one of the men employed under ground succeeded in smuggling out a lunch bucket more than half full of gold that he had worked out of the ore at odd times.

run a month with the ore now on hand.

The Cole-Ryan interests are reported as having bought 100,000 shares of Miami from the Lewissons. The General Development company had between 50,000 and 80,000 shares of Miami in its treasury so the bulk of the stock sold came from this source. The Miami has 600,000 shares outstanding and 100,000 in the treasury for convertible bonds. The Cole-Ryan interests have probably bought this stock for the smelting contracts and for the selling of the copper.

It is reported that Greene Cananea has purchased 100,000 shares of Miami at 25.

November outputs—Franklin, 124,000 pounds; Mohawk, 585 tons; Wolverine, 312 tons; Baltic, 2,402,000 pounds of mineral, an increase of 47,000 pounds; Champion, 2,580,000 pounds of mineral.

STOCKS

Boston—The strength in copper did not continue very long this morning. Stocks were freely supplied in Amalgamated and the price ran off easily. Lake also was under pressure all day. Local stock holders being very much dissatisfied by the rumor that the company has been selling treasury stock in the open market. We noticed quiet accumulation of Keweenaw today and it looks like inside buying. North Butte was slightly weaker but held well around \$2. We are in the midst of a traders market with several big deals yet to be consummated and while these are in progress of completion we shall have days of confidence and days of uncertainty with prices fluctuating quickly within a five point range.—Paine, Webber & Co.

GAY & STURGIS GOSSIP.

Calumet, Mich., Dec. 2.—The general market opened fractionally lower this morning and remained very inactive all day.

In the Boston list there was not very much activity either. Some of the big coppers being rather weak. There was a report sent out this morning that as a result of the switchmen's strike the Boston & Montana smelter had closed down. Lake was the weak feature of the list, selling down to 55, with not very much support given. Miami was in good demand all day selling around 18 1/2. Atlantic advanced a point on news that crossover had reached the Superior lode.

In the curb list Chief Consolidated was the feature on heavy eastern buying, with sales at 2 1/2. Cactus was also wanted around 4 1/2. There was some inquiry for L. S. & A. at the close at 1 1/2. The balance of the curb list was very quiet and unchanged.

UNLISTED STOCKS.

J. A. Minnear & Co. say today:

The switchmen's strike in the west caused some selling of copper stock on the report that some of the mines in the west would be unable to make shipments of ore as a consequence. Prices on the whole were lower than yesterday and just at the moment the trend of the market is difficult to determine. Railroads were weaker and will likely see a lower level. Purchases if made now should be from among the Industrials. Chief was the feature on the curb market selling as high as 2 1/2. The buying of this stock was largely for eastern accounts. Cactus was a fair trader though lost fractionally. There was a revival of interest in L. S. & A. Santa Rosalia eased off fractionally on profit taking. Lake was a weak issue selling down to 55 and it looks lower. The decline carried with it the other issues in that district. South Lake looks to be the most attractive to us at the present quotation. Keweenaw was up slightly and with the announcement of any news from the mine should advance further.

WEATHER FORECAST

Rain tonight tending to snow by morning and becoming colder. Moderate to brisk easterly winds, shifting to northwest about Friday morning.

GEORGE KEMP, SR., IS 81.

Veteran Resident Celebrates Anniversary by a Family Gathering.

George Kemp, Sr., veteran resident of Red Jacket, celebrated the eighty-first anniversary of his birth last evening at his home on Sixth street. All of the members of his immediate family were present with the exception of one son, who is in Arizona and could not attend. The family spent a very pleasant social evening.

Mr. Kemp has seven children living, five sons and two daughters. The sons are Dominic of Seventh street, Henry of Detroit, John of Arizona and Joseph and George residing at home. The daughters are Mrs. John Knivel of Elm st. and Miss Elizabeth at home.

Mr. Kemp has been a resident on Lake Superior since 1862, coming to the copper country at that time, and locating here. In 1868 he moved to Calumet, where he entered the employ of the C. & H. Mining company, and remained in that corporation's employ until about four years ago, or after he had reached the age of 77 years. It is believed that he is the oldest living pioneer of the Calumet district.

Born in Germany, Mr. Kemp came to this country when quite a young man. He first located in New York state, where he spent some time, later going to Wisconsin, and working in the lumber camps in that state. He also resided in Chicago for a short time. While at Port Washington, Wis., Mr. Kemp became a benedict.

He is still hale and hearty. His sight and hearing are not affected any, and he is able to read his News every night. He is extended congratulations by his many friends in Calumet, whom he can number by the hundred.

LIGHT GUARDS DEFEATED.

Soldiers Make Poor Showing in Game With Commercial.

The second game of the series of the Calumet indoor baseball league was played in the Y. M. C. A. gym last evening between the Commercial and the Light Guards, the former winning by the score of 21 to 8.

One of the features of the game was pitching of Edwards, who struck out 10 men. The batteries were Edwards and Pavalak for the Commercial, and Giesche and Rogers for the Light Guards. The Light Guards made a sorry showing in base running, poor judgment being used. While the losers were strong in hitting, securing 17 hits to the Commercial's 16, the hits did not come opportunely.

The next game of the series will be played Saturday evening this week in the Y. M. C. A. gym, between the Red Jackets and the Y. M. C. A. Last night's attendance was good.

DEATH OF OLD RESIDENT.

John Huberty Passes Away Last Night at Public Hospital.

The death occurred last night at the Calumet Public Hospital, of John Huberty, an old copper country pioneer. The decedent was aged 81 years, and is survived by two daughters and one son. His wife died about eight years ago.

The funeral will take place Saturday morning, with services at the Sacred Heart church, at 9 o'clock, and interment in Lake View. The late Mr. Huberty was a member of the Hermann Sons and the German Aid societies. Previous to coming to Calumet about twenty years ago he was employed with the late Joe Werrin of Hancock. While in Calumet for a number of years the estate store of the late J. Werrin, of this city.

The Salvation Army grew out of the Christian Mission established in the east end of London in 1865 by General Booth.

A fly bacteriologically examined has been found to carry one hundred thousand bacteria.

Cattle-raising is the chief industry of Abyssinia.

One-third of Germany's population is Roman Catholic.

Chinese divide the day into twelve parts of two hours each.

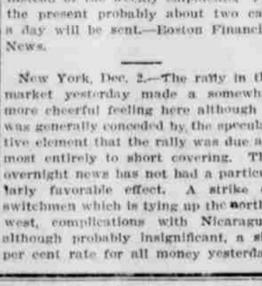

Come to the first card party by the Calumet Clerks, corner 6th and Scott streets, Friday night.

GERMAN AID SOCIETY.

All members of the German Aid Society are requested to be at their hall Saturday morning at 8 o'clock to attend the funeral of the late deceased Brother, John Huberty.

John N. Giefer, Pres. Pro Tem.
Jos. Wilmera, Secretary.

YOU ARE CORDIALLY INVITED

to attend the exhibition and sale of Russian Furs and Rugs, consisting of the finest Royal Bengal Tigers, Polar Bears, Russian Grizzly, Leopard, and Siberian Wolf, Lap Rabbits and Ladies' and Gent's fur lined Coats and Ladies' Furs. The stock is from the Alaskan-Yukon exhibition of Seattle, Washington, and will be sold at a great sacrifice at

afternoon, an approaching season of congress, and a bad political situation in England can hardly be called bullish influence. Sentiment regarding the copper shares improved yesterday and there was a slight inclination by well posted people to buy copper stocks but no very great enthusiasm was shown.

I continue to feel that we are going to have a market of great irregularity and if I were carrying stocks on a margin I should either be sure that I had a mighty good margin or I would sell a few stocks on strong days.—J. W. P.

New York, Dec. 2.—All mines of Boston and Montana Co. employing 2,000 men and company's smelter at Great Falls, employing 2,000 have been ordered closed and by Thursday all will be shut down on account of the strike of Great Northern switchmen. The east Gray rock mine of Butte and Boston also closed. Oregon short line is not involved in strike and will be able to furnish sufficient coal to let Amalgamated mines and smelter at Anaconda keep running.—Dow, Jones & Co.
