Mr. and Mrs. W. I. McMaster leave this afternoon for Chicago, where they will visit a few days, after which they will go to Houston, Texas, for the winter. In the spring they will return to Chicago, where Mr. McMaster will locate.

The November output of Calumet and Arizona was 1,157 tons, and Superior and Pittsburg, 1,866 tons of blister copper.

The foreign visible supply of copper on December 15 was 107,185 tons, showing a decrease in the past two weeks of 1,442 tons.

Homestake has suspended its dividend for the present on account of the mine being closed.

The management of the Lake Copper company is figuring on starting a second shaft near the first, but a little to the south of it. The present shaft, instead of descending vertically on the plane of the lodes dip heads to the right or north, by about 45 degrees, resulting in a decidedly awkward system of opening the mine. By starting

another shaft to the south, with collars of both shafts within 100 feet of each other, it will be possible to operate both from a single engine and by heading the new shaft will open the ground which is left so awkward to the south by the original shaft.

Toponah has declared a dividend of 25 cents and 10 cents extra. The dividend is payable January 21st. The books to close Dec. 31st and re-open Jan. 8.

Drifting on No. 3 lode of the Hancock from the big shaft over 2,900 feet down vertical is now proceeding and this opening is proving as rich in copper as in the upper levels in No. 1 and the future of the Hancock is assured. The company will have its first mine and while working this will continue down the big shaft to command the Quincy lode at depth and here the company will have its second mine. The railroad will soon be completed into the mine and then will come in the steel and boilers for the boiler plant and the work of occupying the buildings will then go forward and no time will be lost in giving this property a plant commensurate with conditions underground.

Oreco has rigged up a diamond drill for No. 5 lode in the horizon of the so-called Tomahawk lode and drilling will be under way in a few days. At a depth of 1,000 feet this hole will also penetrate the Oreco lode already opened in No. 3 hole where a good showing of copper has been obtained.

From Arctic to Tropics in Ten Minutes

No oil heater has a higher efficiency or greater heating power than the

PERFECTION Oil Heater

(Equipped with Smokeless Device) With it you can go from the cold of the Arctic to the warmth of the Tropics in 10 minutes.

The new Automatic Smokeless Device prevents smoking. There is no possible question about it.

This means greater heat-power, a more rapid diffusion of heat and a sure conversion of all the heat-energy in the oil.

In a cold room, light the heater and in 10 minutes you'll have a glowing heat that carries full content.

Turn the wick up as high as it will go—no smoke—no odor. In everything that appeals to the prudent and the fastidious, the Perfection Oil Heater, with its new automatic smokeless device, decisively leads.

QUINCY HILL

QUINCY SCHOOLS CLOSE FOR CHRISTMAS HOLIDAYS

The schools of Quincy township closed yesterday afternoon for the Christmas holidays, and will reopen on January 6.

The program of the primary department was given under the auspices of the Loyol Temperance Legion, while that of the senior grades was given by the Band of Mercy, the former commencing at 1:30 and the latter at 3 o'clock.

The cantata of "Santa Claus Helpers" given by the pupils of the first, second and third grades was very prettily given the children participating entering into the spirit of the occasion and winning much applause from those present.

The high school program consisted of songs and recitations in which the following pupils took part: Jennie Martin, Clara Israelson, Garrett Johnson, Belle Campbell, Robert Mattson, Edna Anderson, Ethel Beattie, Dagmar Jacobson, Willie Brewer, Alice McLeod, Edwin Mattson, May Jenkin, Geraldine Harrington, Percy Marks, Lizzie Berryman, Olga Anderson, Arvid Hurlin, Lucile O'Neill and Blanche Harris. Several little sketches in which four to ten pupils took part were also included in the program, and consisted of "Christmas," "Three Kings of the Orient," "What Santa Claus Will Bring," "The Christmas Spirit," and "Signs of Christmas."

Miss Ford of the fifth grade, and Miss Johnson of the second grade will spend Christmas at their homes in lower Michigan, the former going to Boyne Falls, and the latter to Morley, near Big Rapids.

At the close of the morning session of the Quincy schools yesterday there was a meeting of the Anti-Cigarette league, an organization formed for the purpose of discouraging the use of the article among the pupils and others whom they might be able to influence.

The Pewabic school which is in Franklin township, and the other schools of Franklin will not close until next week. Extensive and interesting programs will be given. The Pewabic school will hold exercises on Thursday afternoon, but it is likely that there will be no elaborate special exercises at the Franklin school. The Arcadian school will close when the others do and a short and interesting program of exercises will be given.

CHRISTMAS AT PEWABIC. Programs of Christmas Exercises at Sunday School and M. E. Church. The members of the Pewabic M. E. Sunday school are preparing for the observance of the Christmas season

Much interest was taken by Finnish residents of the hill in the examination of Leander Kukkela and considerable satisfaction was expressed at the dropping of the proceedings against him as the result of the hearing.

The adjourned hearing of a slander case in which two ladies of Quincy are concerned, is due to come up before Justice Olivier in Hancock on Monday next. The case came up a week ago last Monday and an adjournment was taken for two weeks in order to allow the defendant's husband to be present.

Plans are being made among the residents of Coburntown for organizing a ski club, and there is some talk of providing a ski hill for practice. John Koski, one of the leading spirits in the club, expects to attend the annual tournament at Ishpeming and secure some ideas in regard to its construction. It is not unlikely that a tournament on a small
