MANIAC TELLS WEIRD STORY

Man Threatens Hundreds in Los Angeles With an Infernal Machine

DIDN'T INTEND TO KILL ANYONE

Just Wanted to Frighten an Employer of Labor

IS KEPT STRAPPED TO A COT

Los Angeles, Cal., Nov. 20.—Strapped to a cot in a hospital, Carl Warr, the German pattern maker, who took possession of the Central police station yesterday, threatening to destroy the building with an infernal machine unless Paul Schoup, Jr., of the Pacific Electric Co. was brought to him, told a weird tale today. He said he did not want to hurt Schoup, but merely was going to show him the machine and tell him he was going to blow him up unless he raised the wages of his workmen. It is believed Warr's skull was fractured by the blows dealt by Detective Hosick.

Armed with an infernal machine containing enough dynamite to destroy an entire city block, a bottle of nitroglycerine and a 45 caliber revolver, Warr, grotesquely masked, yesterday afternoon took possession of the central police station and held it for more than an hour, while hundreds of occupants of the building and those for blocks around, panic-stricken, sought the safety of distance.

When Detective James Hosick knocked the man unconscious with a leather billy after slipping up behind him, the fuse of the infernal machine was automatically ignited and without thinking of the consequences, Detective Samuel L. Browne carried the box outside, the fuse sputtering and spitting sparks, and hurled it into the street.

Sticks of high-power dynamite scattered over the pavement, while hundreds of spectators stood apparently paralyzed by fright, awaiting the detonation that would send them into eternity. Through a freak of chance, there was no explosion and Browne continued kicking the sticks of dynamite and jumping on the fuse until he had broken the connection and extinguished the fire.

NO MARRIAGE OF FEEBLE-MINDED

GOV. OSBORN'S MESSAGE TO RECOMMEND ACTION ON THE SUBJECT.

Lansing, Mich., Nov. 20.—Gov. Osborn has authorized Secretary Dixon of the state board of health to prepare the recommendations for his exaugural message to the legislature along the line of eugenics and the regulation of marriage. Secretary Dixon and the governor held a long conference on the matter today.

Secretary Dixon will recommend that the legislature appoint or create a commission to deal with the question. "The fact that our mentally deficient population is increasing twice as fast as our normal is enough to show that some action must be taken," said Secretary Dixon. "Doubtless marriage between such persons will be prohibited if the legislature follows our recommendations. Isolation of some of the cases will also be recommended."

Miss Adele McKinnie, the expert who has been at work for a year, has about completed her work, unless the legislature authorizes more research. Miss McKinnie investigated the families of 26 persons in state institutions. The 26 families consisted of 2,316 persons. Of these 1,230 were investigated. Of this latter number, but 570 were found to be normal, and 434 were found to be mentally deficient, 197 feeble-minded, 79 insane, and 50 perverts. The remainder were mentally deficient in other ways.

Of the 434 mentally deficient, 216 died in infancy and youth and 96 are now being cared for in state institutions. These latter have already cost the state \$24,153, nearly \$1,000 each. Of those found to be mentally deficient 112 are still at large and at liberty to marry and raise families under the present laws, despite the fact that such marriages result in more imbecility.

Calumet friends will be pleased to learn that Evan Thomas, formerly a well known shoe dealer in Calumet, who is now located in Reading, Berks, England, plans to visit this section next summer.

CRIMINAL MEDICAL PRACTICE LEADS TO 173 ARRESTS IN VARIOUS PARTS OF COUNTRY

Sale of Drugs and Instruments For Illegal Purposes Also Alleged by Government, Which Charges Misuse of the Mails

MANY OF THE PERSONS ARRESTED PROMINENT COMMERCIAL AND SOCIALLY IN HOME CITIES

Simultaneous Raids Today the Most Extensive Ever Undertaken by Any Federal Department. Inspectors Collect Evidence

Washington, Nov. 20.—Acting under the direction of the postmaster general the postoffice inspectors and marshals in seventy-two of the leading cities of the country began today practically simultaneous raids for the arrest of 173 persons, charged with using the mails to promote criminal medical practices or sale of illegal instruments used for illegal purposes.

The arrests are to be made for the misuse of the mails, each case being based on the use of the mails to solicit business or dispose of the wares. This concerted action covered the United States from the Atlantic to the Pacific and from the lakes to the gulf.

Many to be arrested are prominent commercially or socially, in their communities some are leading physicians; others are rich and influential business men; yet others are men who live by their wits and are comparatively little known, and one is a Chinaman.

Arrests will be made for the alleged violation of the section of the penal code which bars from the mails any vile or obscene matter, whether sealed or unsealed, any advertisement, or any packet containing any substance, drug or thing intended to be used for immoral or unlawful purposes.

It appears that approximately ninety of the persons to be arrested already have been indicted by federal grand juries in various parts of the country. It is said the list of this sort of criminality in the Pacific Coast states. Approximately 26 per cent of those to be arrested today are so-called "pill doctors"—men who advertise

by correspondence or otherwise to mail or express various compounds in the form of pills or powders. Analyses of the compounds are said to have disclosed that some of them are woefully innocuous, while others are dangerous poisons.

One of the men accused is said to have been secretary of the board of health in the city of his residence. Particular care has been taken by inspectors in collecting evidence against business concerns—drug houses and remedy companies.

The men actually responsible for the illicit correspondence were ordered arrested. Today's raid was the most extensive in the history of any department of the government.

Chicago heads the list with nine arrests, including three women. At Iron River, Michigan, Dr. Harry Larson was arrested.

At Indianapolis two men and a woman were taken. L. E. Morrison, a wealthy merchant, prominent in church work, and Dr. Solomon Stoddard were arrested.

At Buffalo, N. Y., a writ of capias was served on the Cahoon & Lyon Drug Co. and Faxon, Williams and Faxon, grocers and druggists. Both are large corporations.

At Milwaukee two men and a woman were arrested, and more were expected to follow.

At Peoria, Ill., Albert Zimmerman, proprietor of a leading drug store, was arrested. At Cincinnati an officer of the Vetter Drug Co. was cited to appear. At Pittsburgh, Dr. Jim Sney Moy and Dr. Anna Hill were arrested.

EYE WITNESS SAYS HE SAW GIBSON ATTACK MRS. SZABO

Goshen, N. Y., Nov. 20.—"I saw Gibson seize Mrs. Szabo around the neck with his left arm. I saw his right hand thrust at her throat; then they both fell out of the boat."

John Minturn, an eye witness of the death of Mrs. Rosa Szabo, for whose death in Greenwood Lake, Burton W. Gibson, a lawyer, is charged with murder, so testified in Gibson's trial today.

The testimony was introduced to bear out the state's contention that the woman was strangled, and did not die of drowning. Minturn further testified:

"When they were in the water the woman was lost to sight. The man swam over to the boat and turned it over. The boat remained right side up when they fell out and stayed in that position until Gibson tipped it over."

Minturn was standing on the water's edge, he said, when he saw the tragedy. The boat was about 700 yards away. He was afraid he would forget, he said, so he went home and wrote down what he saw.

COMMITTEE IS PREPARING FOR MONEY TRUST PROBE

Washington, D. C., Nov. 20.—Members of the sub-committee appointed by the House committee on banking and currency to investigate the so-called money trust rounded up in the capitol today pursuant to the call of Chairman Pojo. The meeting is to map out plans for the future procedure of the investigating committee. Much work remains to be done before the taking of testimony can be resumed.

Under the direction of Samuel Untermyer, one of the chief attorneys of the committee, experts have been at work all summer preparing an elaborate compilation of statistics embracing practically every financial and industrial institution in the country, and tracing the relation of each individual concern to other concerns. Before resuming the taking of testimony the committee will carefully review this compilation of figures which will be used as a basis for the examination of witnesses with a view to determining the exact influence exerted by New York banks and bankers throughout the country.

At the formal opening of the convention tomorrow night Miss Jane Adams of Chicago, will preside and the national president, Rev. Anna Howard Shaw, will deliver her annual address. from every section of the country and are among the leaders in their respective states. The hotels are filled with them, and many others of the delegates are being entertained in private homes.

The program prepared for the gathering provides for many novel and attractive features. Witherspoon Hall, where the most of the sessions will be held, has been handsomely decorated for the occasion. The six-star flag, conspicuous at the former conventions of the organization, staves way this year to the ten-star flag, the four new stars representing the states of Michigan, Kansas, Oregon and Arizona, which adopted woman suffrage amendments at the recent election.

A fine array of talent has been obtained to address the various meetings, consisting of prominent men and women who have become famous for their devotion and labor along different lines of human activity.

The meetings will vary in character from a great outdoor rally in Independence Square on the opening day to a thanksgiving service on Sunday afternoon in the Metropolitan Opera House. All of the evening sessions will be open to the public.

FOR MUSICAL INSTRUCTION.

Classes of Local School Children are Being Organized.

Classes are being organized in the various grades of the Calumet public schools, of district No. 1, under the supervision of Miss Mildred Romsdahl, for the purpose of instruction in musical instruments. Albert Eddy has been named as instructor, and will hold classes once each week.

More than 100 children have already enrolled. The violin is the instrument favored by most pupils, but many desire to acquire a knowledge of the cornet, clarinet, flute, trombone, etc. It is believed the institution of these classes will provide a nucleus ultimately for the high school orchestra, which is looked upon as one of the finest in the state. Each class will be composed of ten pupils, and lessons will be given once each week for a nominal fee. It is planned, according to Miss Romsdahl, to eventually make the study of musical instruments and music part of the regular work of the school system.

The recent call for Greek reserves, who served in the army in their native land in 1896, 1897 and 1898, will affect few copper country Greeks, according to Athens Anagnos, the well known confectioner on Fifth street. Most of the Greeks in the copper country are young men, and the call above mentioned, the third that has been issued, affects only men from 37 to 40 years of age. The young men who were eligible for service were called upon first and several from Calumet are already enlisted in the Greek army.
