## C. & A. MAKING **GREAT HEADWAY**

Finds of Ore in Junction and the **Briggs Sensational** 

The policy of the Calumet & Arizs ing Co., in his remarks to the stockona Mining company in adding new holders says: lands wherever the latter are known. No sinking was done in this shaft to be valuable, has been a wise one, during the past year, and its practice has made the organis | nation one of the most prominent in 154 feet west and encountered the west the copper list, says Editor Newett of lode mentioned in last year's report at the Iron Ore. With its large invest- a distance of 160 feet. This lode was ment in equipment at its mines and poor where cut and no copper was smollers it is fitting that there should found in the 40 feet of drifting that be something good to warrant the ex- was done to the north,

Old Mines Still Are Active.

The original claims of Calumet & Armona contained but a small area of around. On this was sumit the Irash lode being only from 3 to 4 feet wid-May shaft, one of the richest in ore and poor throughout, ever sunk in the Honsinga Circle of Thore have been Bisbee. From the counter which was upon the surface. produced from this opening about ten millione in dividende were paidand the shart as still active. Naturalls, there must have been great inrouds made on the ope deposits of this original location, and it could not be expected that mining could be prosccuted here indefinitely. Ore is still, being produced from the original Irish Mag claim, however, but the Mag and Oliver shaft, the latter being next in ing to the conthwest, have been been ily drawn upon for many years, and it was wisdom to have supplied addi-

ADVERTISE IN THE NEWS.

# Paine, Webber & Comp'y

BANKERS AND BROKERS

PRIVATE WIRE,

Boston, Mass., Feb. 24.—The New York list was decidedly erratic today. The bear party seems to be in power and frequent raids were successful in causing sharp declines especially in Steel. Union and Amalgamated. The local list held well considering weakness in Amalgamated and very little liquidation was noticeable. Prices showed only a small fractional decline and we think the outlook for the future is bright.
