### SELECTS VISITING DAYS.

Thursday and Friday Are Designated for Inspection of Exchange.

Manager F. E. Reif of the Michigan State Telephone company has designated Thursday and Friday as visitors' day at the new Houghton exchange when an invitation will be extended to the public to inspect the new headquarters in the Masonic building.

The commercial offices of the telephone company have been removed from the Cassette building to the new quarters and the exchange proper, will be moved tomorrow when the wires will be cut over. This feature will not require more than a few seconds though it will mark the actual transfer of the exchange.

The new offices are thoroughly modern and the fixtures and other equipment are in natural oak. The commercial office occupies the corner room of the first floor and back of this office is a filing and store room. Further back, occupying nearly a quarter of the ground floor, is the operating room.

### PERFECTS NEW STUMP PULLER.

A stump puller, designed and built by R. C. Pryor, was completed at the Carroll foundry yesterday. The device will be used in clearing land on Mr. Pryor's Sturgeon river farm and it is constructed to clean an acre of land per day. The puller resembles a hoisting engine. On a frame of steel beams are set a winch and a 40-horse power gasoline marine engine. The frame rests on skids and the machine can be hauled around a field with its own power by attaching its cable to a tree or stump. In actual operation it is to be fastened to several stumps or trees to give the necessary anchorage and after its cable is attached to a stump the winch just simply tears the stump out of the ground.

Rev. and Mrs. J. H. Cooley are to be in Houghton, called there by the illness of Mrs. Cooley's brother.

### WILL PROMOTE PLAYGROUND.

Athletic Association May Equip Old Ball Grounds for Children.

If plans of officials of the Torch Lake Athletic association do not miscarry, Lake Linden children will be provided with a playground. The use of the old ball grounds opposite the Gerardin building on Lake street, if permission to occupy them can be secured, will be converted into a modern recreation park and with a small outlay, adequate equipment can be secured. For the past several years, the plat has been used as a baseball diamond for amateur teams though other vacant lots may be procured in the event that the playground is equipped.

In what manner the athletic association may utilize its time to the best advantage during the summer months is solved in the question of providing playgrounds for the children.

The ground is owned by the Calumet & Hecla Mining company and the association officers are hopeful that an arrangement may be entered into to carry out the idea.

## Stomach Trouble; Wholly Restored!

Mrs. Wilson Robinson, 744 Nessler St., Toledo, Ohio, writes:

"I feel like a new person. I have no more heavy feelings, no more pain, don't belch up gas, can eat most anything without it hurting me. I want to be working all the time. I have gained twenty-four pounds."

"People that see me now and saw me two months ago seem astonished. I tell them Peruna did it. I will say it is the only remedy for spring and all other ailments."

No argument is needed for Peruna. Just get a bottle and try it. If you have catarrh of the stomach you have a serious trouble. If you want to find a remedy it would be very easy to make the experiment. Before you have taken Peruna a week you will likely find yourself better, then you will need no testimonials on the part of other people, or arguments to convince you. Until you try Peruna, however, all the testimonials in the world and arguments, however logical, will not move you. Just one trial of Peruna will convince you.

Persons who object to liquid medicines can now obtain Peruna Tablets.
