CONCERNING ATTRACTIONS THE LOCAL PLAYHOUSES OFFER THE AMUSEMENT LOVING PUBLIC.
(THIS COLUMN APPEARS EVERY TUESDAY AND FRIDAY)

THE LYRIC

"The Greatest Gift," a Cines special in three parts, is the Lyric feature. Doctor Beverly, an oculist, loses a large sum in a gambling house and in order to pay his debt of honor, forges the signature of his father-in-law. Remorse takes hold upon his conscience and Beverly leaving a note of farewell, goes into the gardens, where he kisses his wife and two daughters good-bye, and a few hours later he embarks upon a voyage to America. A few years later death takes the father-in-law and poverty stalks into the home where prosperity and happiness once reigned.

In a foreign land Beverly, unable to obtain employment, attempts suicide. This he does by throwing himself beneath the wheels of a motor car. The catastrophe is averted, however, by Miss Wood, a rich American heiress, who drives the car. He is taken to her home, where he meets her father who is suffering from a supposedly incurable blindness. In the days of rejuvenation that follow, Dr. Beverly effects the complete cure of the old millionaire. Meanwhile, Miss Wood begins to show great affection for the doctor, and he, knowing his position, and feeling a yearning for his family at home, leaves his benefactors and sails for his native city.

In the home that he had left, where now poverty reigns, the failing eyesight of the ardent mother finally results in total blindness. The two daughters, now grown to womanhood, carefully save their few pennies in the hope that an operation might restore her eyesight. In his native city Dr. Beverly soon gains great fame as an oculist, operating under the name of Dr. Rodriguez. He makes an unavailing search for his family and finally gives up all hope of ever seeing them again. It was then that the two girls came to him. Beverly immediately recognized his daughters and joyfully disclosed his identity. The three conspirators then plotted to tell the mother nothing of the good news. A few weeks later the operation was performed and when the bandages were taken from her eyes, the mother found no difficulty in forgiving her wayward husband in the joy of the reunion.

The fifth installment of "The Perils of Pauline" will be shown at the Lyric Thursday afternoon and evening.

THE GRAND

"Moths," a wonderful photo play in four magnificent reels featuring the famous legitimate star Miss Maude Fealy, is the picture at "The Cool Place" tonight and tomorrow, matinee and night.

Moths from the book by Ouida has been described as the most extraordinary description of a woman that has ever been penned. Remember: "She has chastity, and she had also courage. She was the martyr of a false civilization of a society as corrupt as that of the Borgias and far more dishonest. She is innocent always, and yet—when the Moths have gnawed the ermine, no power in heaven or earth can make it again altogether what it was."

It is a wonderful story of the love which finally triumphs.

Miss Fealy in the leading role of Vere gives an excellent interpretation of the young girl who is forced by her mother to marry the unscrupulous Polish nobleman and is given excellent support by an all star Thanet company.

On Thursday the Grand will show in five reels Grace George's famous success "Clothes," featuring Miss Charlotte Ives and House Peters.

THE ROYAL

A raging prairie fire that extends for miles is one of the stirring features shown in the two-part Kalem drama, "A Man's Soul." This great story will be seen at the Royal on Tuesday and Wednesday. Helen Holmes and J. P. McGowan, two famous Kalem stars, are at their best in this production. Because of his terrible desire for drink, Lucy leaves Richard Carleton, her husband. The man gradually sinks lower until he has become one of the riff-raff in a western mining town. Years later, a former friend dies and makes Richard the guardian of his seven-year-old son. With the coming of the boy, Richard is inspired to turn over a new leaf. He later discovers that Lucy is the mistress of the school nearby. The girl refuses to return to her husband until

convinced of his reform. Richard's chance comes when a terrible fire spreads over the prairie, entrapping Lucy in the school house. How the man rescues Lucy from a terrible fate and regains her love, is shown in a denouement that will hold observers spellbound.

"Goodness Gracious," a comedy film in 3,000 feet, is a feature subject at the Royal.

In this laugh-provoking subject is seen the most villainous villain who ever pursued a heroine, out-beating all other heroes! Horrible murder plot, nipped in the bud; deep, dark dungeons, dark and drear. Cyclonic chases in which the villain still pursues her and everyone chases himself and everybody else. Curses upon curses! Love triumphs. Villain is vanquished. "Goodness Gracious!" It's a terrible plot. Too terrible for words. The picture, tell it all.

THE CALUMET

Cutting and Zaida, in a musical novelty act, offer the headline attraction at the Calumet. Their work is above the usual standard of vaudeville and last night's audience stamped its approval on the act. Cutting is a wizard on the piano while Zaida possesses a rich soprano voice. Beginning Thursday, Dewey and his dancing dolls, an act in which eight people take part, will be the offering.

Four reels of feature pictures also are shown.

THE PEOPLE'S

The People's tonight offers the sixth "Lucille Love" installment.

The sun shone upon the horizon's rim. Across the water it cast a path of crimson light in which bobbed the tiny craft that held Lucille and the notorious spy, Hugo Loubouque. As the sun sank, a heavy wind arose, the sea became difficult to navigate and Loubouque was put as an oarsman.

Evidently he believed there might be an accident and in that case it were better that the papers should be in his possession. But she assured him Capt. Wetherell had them.

For an hour he managed the tossing craft without a word but what his thoughts were Lucille could not guess. She looked at Loubouque. "I've been thinking," he remarked, "that it is much easier to fight Wetherell than it has been to fight you, Lucille."

As night advanced Loubouque took off his coat and wrapped it about Lucille, who overcame with weariness, slept. When she awoke everything was still the same. Already the sun was high and beating down fiercely. Her tongue was parched, muscles stiff. "Water, please!" she whispered. Loubouque replied: "I am sorry to tell you that we have no water. You must be brave and wait, we shall sight something before long." Now there was a steamer on the horizon. A second later it was gone.

Once more night fell—a night of terror. But even in this fearful crisis Lucille again slept, with dreams of rescue. Lucille arose and extended her arms. There, just off the stern where she stood away was the man she loved. He was beckoning to her. With a lurch she fell forward into the sea. Then followed unconsciousness that lasted for hours, during which Loubouque strove to revive her as she lay, like dead, in her drenched clothing.

***** LAURIUM BREVITIES. *****

Mrs. Thomas J. Fisher departed Sunday evening for Boston, where she will visit with her sister, Mrs. John G. Alden.

Mrs. John D. Kerr of Pewabic street has come to Chicago and Detroit, where she will visit. On her return she will be accompanied by her sister, who is just completing her work at Ypsilanti.

The management of the Laurium park association this week commences repairs to the fence and improvements to the park grounds that have been contemplated for some time. Lyman Fisher, who recently was injured while at work underground in the C. & H. mine is improving rapidly and probably will be removed to his home this week.

One lot ladies' afternoon dresses, in plain and figured materials, extra special at \$1.95. This lot includes a few slightly soiled white dresses. Vertin Bros. & Co., Cloak Dept., 2nd Floor.—Advertisement.

STATE MAY BUY THROUGH AGENT

Talk of Creating Office Interests
Governor Ferris

Lansing, Mich., June 9.—The talk of a general purchasing agent for the state has been revived at the capitol, chiefly through a contract for coal made some days ago by the superintendent of state property, Charles Pierce.

He has been acting as a state purchasing agent of electrical supplies for two years, and a deal which he has just completed in coal for the capitol for next winter has revived the oft-repeated scheme of making one man do the purchasing for all of the state institutions.

Governor Ferris is taking an interest in the question also.

Last winter—the first in which the state ran its own boilers in the capitol and furnished its own heat—taught Mr. Pierce many things in the heating problem. He saved money for the state over the old contracts for heating, which were given to local concerns, and expects to save more by watching the coal market. A few days ago he was enabled to contract for 1,200 tons of coal at a price considerably below what the state paid last winter.

The University of Michigan and several others of the larger institutions use much more coal than the capitol, and so far they have been unable to get the price as low as has Mr. Pierce.

Governor Ferris is said to be seriously considering suggesting to the legislature a proposition along this line.

OLDEST UNIVERSITY OF MICHIGAN FRAT, DISSOLVED

EXCLUSIVE PALLADIUM, AFTER A LONG FIGHT, GIVES UP THE GHOST.

Ann Arbor, June 9.—Palladium, organized in 1857, which came near losing to Michigan university its claim to being a democratic college, where all men were equal, was dissolved by a vote of all but one of the eight fraternities which composed that exclusive group. The one dissenting fraternity was the Chi Psi, the oldest fraternity at Michigan, and the head of Palladium, and today Chi Psi alone represents Palladium.

The fraternities withdrawing are: Psi Upsilon, Delta Kappa Epsilon, Alpha Delta Phi, Zeta Psi, Beta Theta Pi, Phi Kappa Psi and Sigma Phi.

The passing of Palladium marks the dissolution of one of the campus' oldest organizations, if not the oldest. It was created for the double purpose of bringing together the then existing eight fraternities, the better to fight for their own existence in the face of very certain and widespread opposition, and to publish "The Palladium," the university year book. But with the taking over of the year book by the university and re-naming it "The Michiganian," the Palladium became largely social in nature and most exclusive.

There are 17 other non-professional fraternities at Michigan, but Palladium stood by itself and was exclusive. Palladium held card parties within its own groups, held dinners, house parties and dances to which none of the outer circle of 17 were invited.

The Palladium group, generally speaking, was enabled to pick its choice of the incoming freshmen, because it could do for the members more than the unorganized 17.

For years there had been a fight against Palladium, members of the faculty taking part.

***** OPENING GAME OF THE POLO SERIES PUT OFF UNTIL NEXT SATURDAY *****

Hempstead, N. Y., June 9.—The first game of the international polo cup series was postponed yesterday until next Saturday at 4 p. m. The postponement was due to the injury received Sunday by Captain Leslie Cheape of the English team. The game was to have been played today.

The initiative in the postponement was taken by the polo committee after that body had received a report regarding the injury to Capt. Cheape, the star of the English challenge four. The polo committee prepared the following statement which was issued by Chairman H. L. Herbert:

"Owing to the fact that Capt. Cheape of the English team injured his eye very badly, it has been decided to postpone the game scheduled for Tuesday until Saturday, June 13, when the first game of the series will be played at 4 o'clock."

No request for the postponement was made by Lord Wimborne, who is at the head of the English expedition to regain the polo trophy.

***** REUNION OF MEXICAN VETS. *****

Chillicothe, O., June 9.—What in all probability will be the last general gathering of a handful of veterans of the Mexican war assembled here today for the annual reunion of their national association. Captain John A. Fisher of this city is president of the association.

Laurium Department

LAURIUM FIREMEN WILL DISCUSS TOURNEY PLANS

ENTIRE DEPARTMENT WILL MAKE TRIP TO ISHPEMING IN JULY.

The Laurium fire department will hold its regular June meeting this evening and will consider plans for attending the annual tournament of the Upper Peninsula association in Ishpeeming next month. The entire department will make the trip to Ishpeeming and it is possible a band will be engaged to accompany the members. Committees will be named to arrange for transportation and take care of other details of the arrangements.

The suggestion has been made that the Red Jacket and Laurium departments name a joint committee and act together in engaging a band and making other preparations for attending the tournament. It is possible this suggestion will be considered this evening. The members of both departments are looking forward with pleasure to the Ishpeeming reunion and it undoubtedly will be especially enjoyable because of the last year's tournament in Red Jacket was largely interfered with by the strike.

The Ishpeeming firemen have signed contracts with the Western Vaudeville Manager's association for balloon ascensions and parachute drops during the several days of the tournament by Ed R. Hutchinson, one of the foremost balloonists in the country. He agrees to make two daily ascensions to a height of 2,000 and in his parachute drops uses five different parachutes. Other attractions also will be booked.

It is unlikely the Laurium department will enter a running team in the tournament races because of the expense involved, notwithstanding that Laurium probably is better prepared to enter such a team this year than ever before.

STREET WORK ADVANCES.

Traction Co. Track Is Torn Up on South End of Mecla Street.

Because of the cement paving operations which yesterday were begun on the south end of Mecla, one of the tracks of the Traction company has been placed out of commission on this street. The excavation beneath it will be considerably deeper than that on the sides of the street, as it is the plan of the Traction company to place a foundation of about six inches of concrete beneath the ties. The work was pushed vigorously by a large force of men yesterday and the improvement will be carried out with the least possible inconvenience to the public.

Unless some unusual chain of incidents occurs to retard the work, the entire paving job should be completed before the Fourth.

BOARD OF REVIEW MEETS.

The board of review of the village of Laurium composed of Will H. Minnear, Ed Bast and Leo Kallenback, the latter being the assessor, began its sessions yesterday in the town hall. The board meets from 9 a. m. to 12, 1 p. m. to 5 and 7 to 8. Remarkably few complaints have been received this year. The board will make a tour of the town tomorrow to review the assessments complained against.

IF YOU ARE A DRINKING MAN

You had better stop at once or you'll lose your job. Every line of business is closing its doors to "drinking" men. It may be your turn next. By the aid of ORRINE thousands of men have been restored to lives of sobriety and industry.

We are so sure that ORRINE will benefit you that we say to you that if after a trial you fail to get any benefit from its use, your money will be refunded.

When you stop "drinking," think of the money you'll save; besides, sober men are worth more to their employers and get higher wages.

Costs only \$1.00 a box. We have an interesting booklet about ORRINE that we are giving away free on request. Call at our store and talk it over. Vestal & Reed, 5th St., Calumet.—Advertisement.

Hot Shot Batteries

Have you ever had trouble with loose connection between the cells in your dry batteries? Mighty annoying wasn't it? Why not buy a unit battery, with rigid sealed connection. The Hot Shot is low in cost and saves you trouble, worry and loss of time hunting for poor connection. It is moisture proof. Carried in stock by

Hosking Electric Company

BEAUTIFYING PREMISES.

Parking Strips Between Sidewalks and Curb on Pewabic Street.

Excellent progress is being made by residents of Pewabic street especially between Second and Third in the beautifying of their premises. Contractor Paul P. Roehm has just completed private contracts on this street for the construction of concrete curbs, which provides a continuous curb on both sides of this block. In the space between the edge of the walls and the curbing, it is planned to arrange attractive parking strips. They will be seeded and shade trees will be planted. Some progress in this direction was made a few years ago, and now other residents are taking up the plan and but a short time will elapse before the street will be greatly beautified.

In line with these improvements, several residents have already taken the initiative in removing their street fences. Some have substituted stone walls for fences and others will have no fences of any kind.

Residents of some of the other sections of the town have taken inspiration from the action of Pewabic street residents and similar improvements are in progress or are contemplated.

CLERK MOVES OFFICES.

The offices of Clerk Martin Prisk, Jr., were yesterday moved to the old fire hall building, known as Fire Station No. 2, the change being necessitated by the improvement work shortly to be undertaken on the town hall proper. The foundation for the addition to this building has been completed and it is probable the walls of the old building will be torn down when necessary before further work is undertaken.

VERTIN BROS. & CO.

Hot weather bargains and just when you need them. One lot plain and wrinkled serpentine crepe kimono, extra good values at \$2.00 for Wednesday only, \$1.25. Vertin Bros. & Co., Cloak Dept., 2nd Floor. Advertisement.

The New Perfection Range With the "Fireless Cooker" Oven

It is the triumph of the NEW PERFECTION line, a splendid range with a cabinet top and an insulated THERMOS oven that stops the loss of heat by radiation, a fault common to all other stoves.

This keeping the heat out of the kitchen and in the oven saves fuel. One burner does the work of two. You can have intense, quick heat, or slow and steady, as you want it.

After thorough heating the THERMOS oven holds heat six or seven hours, which makes it the most perfect and convenient fireless cooker ever invented. The cabinet top has a spacious warming shelf, there is space behind the burner for keeping food hot. And don't overlook the special NEW PERFECTION broiler, supplied with this range, which broils on both sides at once, increasing tenderness and flavor.

Keep the kitchen cool. Best of all, this range, burning clean, convenient, economical oil, makes your kitchen a cool, comfortable place to work.

No more of the suffocating heat that cooks suffer with a coal range, none of the dangers of gasoline, far cheaper than gas. Ready by striking a match; no dust, dirt or ashes, smoke or odor.

This newest PERFECTION with the THERMOS oven may be seen at your dealer's. You will know by the Triangle Trademark. Ask him to show it to you and explain its wonderful equipment—the THERMOS oven, broiler, and patent fuel supply tank, etc.

He has other PERFECTION models also, all equally efficient. You will find one at the price you want to pay, which will do all the work of a coal range without its deadly heat and without its dirt and trouble.

For best results use Perfection Oil. Valuable Cook Book, 5 Cents. This sample simply to cover mailing. 72 pages of the latest recipes and ways of serving. Address
